**CONTENTS OF VOLUME 9—Continued.**

- 89.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Number of non-commissioned officers in the Dominion Police at the time of the amalgamation with the Mounted Police. 2. Number of said officers in "A" Division at the present time. 3. Whether it is true that all non-commissioned officers of the Dominion Police were placed junior on the Seniority List to non-commissioned officers in the Mounted Police irrespective of years of service; and whether it is further true that a Dominion Police Sergeant with 6 years' service as such, was, upon amalgamation, placed junior to a non-commissioned officer of the Mounted Police with only a few months' service as such. 4. At the time of the amalgamation of the two forces whether three inspectors of the Dominion Police were reduced to sergeants. If so, why. 5. Number of non-commissioned officers of the Mounted Police promoted to inspectors at the time or subsequent to, the date of the amalgamation. Presented March 14, 1921. Mr. Cahill.  
*Not printed.*
- 89a.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Cost of the Dominion Police Force during 1919, less the Finger Print and Ticket of Leave sections. 2. Strength of the Dominion Police at the time of their amalgamation with the Mounted Police. 3. Strength of "A" division at the present time, and if there has been an increase in numbers, what the necessity is for such increase. 4. Cost of "A" division for the first 12 months after the amalgamation with the Dominion Force, and if there was an increase in cost, what the reason is for such increase. 5. How many Government buildings, etc., were given police protection at the time the forces were amalgamated. 6. How many Government buildings are given police protection at the present time. Presented March 14, 1921. Mr. Cahill. .... *Not printed.*
- 89b.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Whether the members of the Royal Mounted Police receive a share of any fines imposed for infractions of any Dominion Act or other Act. 2. If so, what proportion of such fines they receive. 3. Names of the members of the Royal Canadian Mounted Police who have been paid a share of such fines during the past twelve months and amount paid to each. Presented March 14, 1921. Mr. Cahill.  
*Not printed.*
- 89c.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Before their amalgamation with the new Mounted Police Force number of trips per day made by the Dominion Police to the Departmental buildings in connection with the police mail. 2. Number of trips per day made for the same purpose by the members of the present Mounted Police Force. 3. Whether the Dominion Police performed the duties mentioned on foot. 4. Whether the Mounted Police perform the same duties on motor cycles, or by other vehicles. 5. Whether the services in question were performed for a period of about 30 years by the Dominion Police. 6. If so, why the number of trips per day has been decreased in the case of the Mounted Police. Presented March 14, 1921. Mr. Cahill.  
*Not printed.*
- 89d.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Names of the Staff Officers in the Royal Canadian Mounted Police according to seniority. 2. Whether they all draw staff pay. If so, how much each draws. 3. If all do not draw staff pay, names of those who receive it, and why an exception is made. 4. In addition to detectives, whether there are a superintendent and uniformed men in Montreal and Toronto. 5. If so, what the necessity is for maintaining these members of the Mounted Police in the cities mentioned. 6. In addition to salaries, whether the superintendents have their house rent paid, and whether they receive free coal, light, etc. 7. If so, whether the men are similarly treated, and if not, why. 8. Whether "N" Division of the Mounted Police is located at Ottawa. 9. If so, what duties other than drilling as cavalry "N" Division performs. 10. Whether it would not be in the best interest, and conducive to a large saving in public expenditure, if the Mounted Police were absorbed by the Royal Canadian Dragoons. 11. Whether there is any practical objection to their being so absorbed. If so, what the objection is. Presented March 14, 1921. Mr. Cahill.  
*Not printed.*
- 89e.** Return to an Order of the House of the 14th March, 1921, for a Return showing:  
 1. Whether it is true that one automobile sufficed for the purposes of the Dominion Police before their amalgamation with the Mounted Police. 2. Whether it is correct that "A" Division of the Mounted Police have been using two automobiles, one motor truck and two motor cycles, and that five chauffeurs are employed, who do no other work than drive cars. 3. Whether any members of the Mounted Police have been imprisoned in the County of Carleton jail since the amalgamation with the Dominion Police. 4. If so, what the offence and sentence in each case was, and by whom the trial was held and sentence pronounced. 5. Whether

## RAILWAY STATISTICS

### PREFACE

The report on Railway Statistics is compiled from sworn returns made by the railway companies of Canada under the Railway Act, 1919, and the Statistics Act, 1918.

In 1919, the reporting year for railways was changed from the year ended June 30 to the year ended December 31, the present being the first report on the calendar year basis. The statistics of the six months, January to June, 1919, are included in this report and also in the report for the year ended June 30, 1919. In every table showing the year 1919 twice, the first series of statistics are for the year ended June 30, 1919, and the second for the year ended December 31, 1919.

The comparative and summary tables published in the introductory section of the report have been revised and corrected throughout. Among the more important revisions that have been made are the following:—

For 1917 and 1918, the Canadian Northern Railway Company included in their report the statistics of the Niagara, St. Catharines and Toronto Railway (Electric); the statistics of this road were also shown under "Electric Railways." As the number of passengers carried by the road was greater than the number carried by the Canadian Northern steam lines, and was about ten per cent of the total carried on all steam roads in Canada, a material duplication was involved. This has been corrected in the present report for the items of "Passengers carried" and "Passengers carried one mile," and the averages affected thereby. Other corrections affect the totals in most cases by less than one per cent. In the table relating to "Capital Stock," an addition of \$5,115,200 has been made for the year ended June 30, 1919, representing the capital stock of affiliated companies of the Canadian Northern not previously included. Under the heading "Aid granted," the item of "Loans" in some cases included funded debt; the latter has been eliminated throughout and is now shown only in its appropriate table. Under "Capital of Electric Railways," the stock and funded debt of London and Port Stanley Railway, since it was electrified, has included only the debentures issued by the lessees, the stock and funded debt of the original road being omitted; the total capital of this road is shown in the present report. Where changes in the reporting forms have made it impossible to show continuous figures, explanatory foot-notes have been inserted.

The present report has been prepared under the direction of Mr. G. S. Wrong, B.Sc., the compilation of the main tables being the work of Mr. J. S. Woodill.

R. H. COATS,

## INTRODUCTION AND SUMMARY

### STEAM RAILWAYS

The outstanding feature of the railway situation in 1919 was that only 30 of the 61 roads reporting earned their operating expenses. (The Canadian Government roads are treated as two systems, namely, the Canadian Northern and other Canadian Government roads.) These 30 roads operated 20,982 miles of the total of 40,139 miles (including trackage rights), or 52 per cent, and had a net operating revenue of \$55,541,597. The other 31 roads reported a total operating deficit of \$23,732,329.

Only 24 roads reported earnings in excess of both operating expenses and fixed charges, taxes, etc. These operated 20,552 miles and earned a net corporate income of \$39,456,106. The latter total includes the income of the Grand Trunk Pacific Branch Lines, operating 1,041 miles of road, which reported an operating deficit but received \$4,000,158 from the Grand Trunk Pacific. The total corporate loss of the other 37 roads was \$54,384,773, which includes a loss by the Canadian Northern of \$26,187,509, by the Canadian Government System of \$7,133,295, and by the Grand Trunk Pacific of \$13,483,064.

The statistics of the present report should not be compared with those for the year ended June 30, 1919, since both include the six months January to June, 1919. Comparisons have therefore been made in the following with the report for the year ended June 30, 1918.

In comparing revenues for these periods it should be remembered that there was an increase in freight rates for most commodities of 15 per cent in March, 1918, and another of 25 per cent in August, 1918, also an increase in passenger rates of 15 per cent in March, 1918. These increases were in effect for the full year 1919, but only for a portion of the year ended June 30, 1918.

Average receipts per ton per mile were 1.003 cents in 1919, against 0.736 cents during the year ended June 30, 1918, an increase of 36 per cent. Average receipts per passenger per mile were 2.63 cents, against 2.12 cents, an increase of 24 per cent. The average haul per ton was shorter, namely, 295 miles compared with 303 miles, but the average passenger journey was longer, namely, 76.2 miles against 70.5 miles. The number of tons of freight moved was 111,487,780, against 127,543,687; this decrease was principally in low rate commodities; bituminous coal decreased 7,510,306 tons whilst ores decreased 2,616,414 tons, as a result in part of strikes at the mines and steel plants during the summer and fall of 1919. The tons carried one mile decreased 4,078,473,957 ton miles, or 15 per cent, but the increased rates caused an advance in freight revenue from \$228,244,416 to \$270,533,047, an increase of \$42,288,631, being 18.5 per cent. The number of passengers carried increased 2,991,818, or 6.7 per cent, and the number of passengers carried one mile increased 497,410,314, or 15.7 per cent. Receipts from passengers, due to increases in rates, length of ride and number of passengers carried, increased from \$67,089,363 to \$96,262,241, an increase of \$29,172,878 or 43.4 per cent. The total operating revenues amounted to \$408,598,360, against \$330,220,150. This increase of \$78,378,210 was more than offset by an increase in the operating expenses of \$102,833,657, making a decrease in net operating revenues of \$24,455,447. Total operating expenses were \$376,789,093, an average of \$9,645 per mile of road and \$3.52 per revenue train mile.

The salaries and wages bill increased by \$81,048,122, or 53 per cent; for 1919 it totalled \$233,323,074. The largest increases in operating expenses were in maintenance-of-way and structures, which increased from \$51,614,858 to \$82,343,530, an increase of \$30,728,672, or 59.5 per cent. Transportation costs

## SESSIONAL PAPER No. 20b

rose from \$145,107,396 to \$181,979,405, an increase of \$36,872,009, or 25.4 per cent, and maintenance of equipment from \$57,304,235 to \$85,577,378, an increase of \$28,273,143, or 49.4 per cent. Total operating expenses have increased by over 110 per cent in the five and a half years since 1914.

Computing daily and monthly salaries on a ten-hour day basis, the average hourly compensation of all employees on all railways was 52.3 cents, against 33.1 cents for 1918, an increase of 58 per cent. The higher paid employees received an average hourly wage as follows:—

|  |         |
|--|---------|
| Road passenger engineers and motorman..... | \$1.091 |
| Train despatchers and directors.....       | 1.084   |
| Road freight engineers and motormen.....   | .869    |
| Road passenger conductors.....             | .846    |
| Yard masters.....                          | .840    |
| Employees in outside agencies.....         | .838    |
| Road passenger firemen and helpers.....    | .831    |
| Agent telegraphers.....                    | .805    |

All others received an average less than 80 cents per hour.

The number of freight cars in service increased 10,760, the number of passenger train cars 162, and the number of locomotives 191. The average capacity of freight cars also increased.

Fuel consumption was slightly less, namely, 9,696,625 tons, against 10,173,344 tons, costing \$52,563,334 as against \$52,630,430.

There was an increase in the number of persons killed and injured in train accidents. The number of passengers killed was 33 and the number injured 372, against 32 and 322 respectively. Comparing these figures with the number of passengers carried by the railways, 1,452,000 passengers were carried for every one killed and 128,772 were carried for every one that was injured. There were 162 employees killed and 1,904 injured in train accidents; from other accidents 35 employees, 1 passenger, and 5 others were killed, whilst 4,458 employees, 20 passengers and 27 others were injured.

## ELECTRIC RAILWAYS

In comparing the statistics of the calendar year 1919 and the year ended June 30, 1918, it should be noted that a report was not received from the Montreal Tramways Company for 1918. For 1919 this road showed earnings from operation amounting to \$9,661,414 and operating expenses of \$7,243,823, the number of fare passengers carried being 190,524,002.

Of 66 electric railways reporting, 55 earned operating expenses and 11 had an operating deficit. Only 40 of these 55 roads earned sufficient to pay also their fixed charges, taxes, etc., and only 13 reported paying dividends.

The receipts from passengers amounted to \$37,547,456, whilst the total operating revenue was \$40,152,903. The average fare per passenger was 5.01 cents, against 4.50 cents in 1918. This does not include transfer passengers and includes interurban passengers. There was a total of 16,940 employees, the total salaries and wages amounted to \$20,211,576.

Only 4 passengers were killed in 1919 out of 749,334,380 carried; 1,717 were injured. There were 29 employees and 58 other persons killed and 951 employees and 1,505 other persons injured.

| 1919—ended Dec. 31..... | 221,865,882  | 43,469,371 | 16,390,673     |

d This included \$10,000,000 loaned to the Grand Trunk Pacific under authority chap. 19 of 1909.

e This amount includes payments to Grand Trunk Pacific under the Implement clause of the agreement between Government and the Company.

f This reduction is due to the repayment of a loan.

Included with the aid to C.P.R. in the sum of \$37,785,319.54 for lines built by Government and handed over to the Company. In that total is \$6,639,581 for surveys.

II GEORGE V, A. 1921

Additions not made in succeeding years.

Following is an analysis of the various forms in which cash aid has been given to railways by the Dominion, by the provinces, and by municipalities:—

## DOMINION

|  |                   |
|--|-------------------|
| Cash subsidies.....                      | \$ 115,849,561 00 |
| Loans.....                               | 58,076,533 00     |
| Cost of lines handed over to C.P.R.....  | 37,785,319 00     |
| Paid to Quebec Government.....           | 5,160,053 00      |
| Implement clause, G.T.P., agreement..... | 4,994,416 00      |
| Total.....                               | \$ 221,865,882 00 |

The purchase of Grand Trunk Pacific bonds aggregating \$33,116,000 by the Government, could not properly be classified as cash aid. It is therefore omitted from this account, and appears in a later paragraph, among guarantees authorized.

## PROVINCES.

|                             |               |
|-----------------------------|---------------|
| Cash subsidies.....         | \$ 33,593,898 |
| Loans.....                  | 9,575,473     |
| Subscription to shares..... | 300,000       |
| Total.....                  | \$ 43,469,371 |

## MUNICIPALITIES.

|                             |               |
|-----------------------------|---------------|
| Cash subsidies.....         | \$ 12,893,528 |
| Loans.....                  | 1,071,645     |
| Subscription to shares..... | 2,425,500     |
| Total.....                  | \$ 16,390,673 |

SESSIONAL PAPER No. 20b

## LAND GRANTS

Following have been the land grants to railways:—

|  | Acres.     |
|--|------------|
| By the Dominion.—                        | 32,374,289 |
| By the province of Quebec*.....          | 1,735,690  |
| By the province of British Columbia..... | 8,119,221  |
| By the province of New Brunswick.....    | 1,647,772  |
| By the province of Nova Scotia.....      | 160,000    |
| By the province of Ontario.....          | 624,232    |
| Total.....                               | 44,661,204 |

\*See explanatory paragraph.

In the case of the province of Quebec the land grants have been on a special basis, and it is therefore necessary to have in mind the following facts:—

|                                       |              |
|---------------------------------------|--------------|
| Acres granted—convertible.....        | 13,324,950   |
| Converted, at 52½ cents per acre..... | \$ 6,995,599 |
| Amount of conversion.....             | \$ 4,557,728 |
| Acres granted—not convertible.....    | 12,947,370   |
| Acres earned—not convertible.....     | 1,735,690    |

## DOMINION LAND GRANTS

| Total.....   | 32,374,289               |

The Dominion has not made any grants of lands in aid of railways since 1894.

## GUARANTEES

Guarantees of bonds have been substituted in large measure for other forms of aid during recent years. It has been most difficult to get an accurate statement of the facts in this regard, particularly as to the precise amount of outstanding liability. The following table is based on official reports from the Dominion and Provincial Governments:—

|                       | Authorized  | Bonds Executed. | Guarantees Earned. |
|-----------------------|-------------|-----------------|--------------------|
|                       | \$          | \$              | \$                 |
| Dominion.....         | 189,666,539 | 183,532,523     | 183,532,523        |
| Manitoba.....         | 25,663,553  | 25,663,553      | 25,663,553         |
| Alberta.....          | 59,495,900  | 46,685,909      | 45,520,450         |
| Saskatchewan.....     | 47,725,000  | 28,582,012      | 23,170,661         |
| Ontario.....          | 7,860,000   | 7,860,000       | 7,860,000          |
| British Columbia..... | 68,135,000  | 60,317,524      | 51,214,290         |
| New Brunswick.....    | 7,763,000   | 7,763,000       | 7,317,000          |
| Quebec.....           | 210,000     | 210,000         | 210,000            |
| Total.....            | 406,518,992 | 360,614,581     | 344,488,477        |

It must be understood that \$33,116,000 worth of Grand Trunk Pacific bonds purchased by the Dominion Government, and referred to in a preceding paragraph, is included with the amount of guarantees authorized, although in such case the guarantee does not apply. There is, however, no other way of recording the amount in this connection.

The facts for preceding years, as respects the amount of guarantees authorized, are as follows:—

| Year ended June 30.   | 1913.       | 1914.       | 1915.       | 1916.       | 1917.       | 1918.       | 1919.       |
|-----------------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
|                       | \$          | \$          | \$          | \$          | \$          | \$          | \$          |
| Dominion.....         | 95,486,590  | 188,965,063 | 188,965,063 | 189,666,539 | 189,666,539 | 189,666,539 | 189,666,539 |

Following are the details according to official statements received from the Dominion and the various provinces:—

## DOMINION

The list of securities guaranteed by the Dominion prior to June 30, 1916, is as follows:—

1. The Canadian Northern Railway Company, chapter 7, Edward VII (1903).

The guarantee is for the principal of £1,923,287 sterling, and interest thereon at the rate of 3 per cent per annum for fifty years

## SESSIONAL PAPER No. 20b

2. The Canadian Northern Railway Company, chapter 11, 7-8 Edward VII (1908).

The guarantee is for the principal of £1,622,586 19s. 9d. sterling debenture stock and interest thereon at the rate of  $3\frac{1}{2}$  per cent per annum for fifty years, from July 20, 1908, interest payable half yearly.

3. The Canadian Northern Ontario Railway Company, chapter 6, 1-2 George V (1911).

The guarantee is for the principal of £7,493,835 12s. 4d. sterling debenture stock and interest thereon at the rate of  $3\frac{1}{2}$  per cent per annum for fifty years, from May 19, 1911, interest payable half yearly, amount actually issued £7,350,000.

4. The Canadian Northern Alberta Railway Company, chapter 6, 9-10 Edward VII (1910) as amended by chapter 8, 2 George V (1912).

The guarantee is for the principal of £647,260 5s. 6d. sterling debenture stock and interest thereon at the rate of  $3\frac{1}{2}$  per cent per annum for fifty years, from May 4, 1910, interest payable half yearly.

5. The Grand Trunk Pacific Railway Company, chapter 71, 3 Edward VII (1903) and chapter 24, 4 Edward VII (1904) and chapter 98, Acts of 1905.

The guarantee is for 3 per cent bonds of the railway company to an amount equal to 75 per cent of the cost of construction of the Western Division of the National Transcontinental railway, but not exceeding \$13,000 per mile in respect of the Prairie section of the said railway. The amount of bonds issued and guaranteed is £7,200,000, of which £2,300,000 were issued in 1905, £2,000,000 in 1909, and £2,000,000 in 1910.

The total authorized issue was £14,000,000 and the balance of the issue not sold to the public—£6,800,000—was purchased by the Government under the authority of the Grand Trunk Pacific Bond Purchase Act, 1913. There is therefore no guarantee, as respects this part of the issue, outstanding.

6. The Canadian Northern Alberta Railway Company, chapter 6, 2 George V (1912).

The guarantee is for the principal of £733,561 12s. 10d. sterling debenture stock and interest thereon at the rate of  $3\frac{1}{2}$  per cent per annum for fifty years, from April 1, 1912, interest payable half yearly.

7. The Grand Trunk Pacific Railway Company, chapter 20 of the Acts of 1914.

Total guarantee authorized, \$16,000,000, interest at 4 per cent. Sold to the public, \$3,193,507; pledged with the Dominion Government against advances, \$7,500,000; pledged to Grand Trunk Railway Company, \$5,306,493.

8. The Canadian Northern Railway Company, chapter 20 of the Acts of 1914.

Guarantee authorized, \$45,000,000, at 4 per cent. Sold to the public, \$17,033,333; pledged with the Dominion Government against advances, \$12,500,000; pledged with Columbia Trust Coy., New York, against advances, \$15,333,333.

## ONTARIO

To the Canadian Northern Ontario Railway Company—Guarantee of interest on bonds aggregating \$7,860,000.

## NOVA SCOTIA

The aid given by the province of Nova Scotia to the Halifax and South-western Railway Company was not in the nature of a guarantee of bonds; but the facts of the case cannot very well be given under any other head. They are as follows:—

In the first instance the province advanced to the company \$13,500 per mile on 257.25 miles of its railway. The company gave a mortgage to the province covering the railway system for the total amount so advanced, and for interest on advances during construction, but could redeem the mortgage by repaying the said sum of \$13,500 per mile, less the sum of \$3,200 per mile. The \$3,200 per mile represents the sum which, under the provisions of a general Act on the subject, the province grants as a subsidy to a company constructing a railway.

This arrangement existed until the new arrangement was made under chapter 27 of the Acts of 1912, as amended by chapter 64 of the Acts of 1913. The new arrangement provided for releasing the original mortgage, for crediting the railway company with the \$3,200 per mile, and interest thereon, for repayment to the company of the equivalent of £180,400 sterling which the company

## SESSIONAL PAPER No. 20b

had paid as interest on the mortgage, and for adding that amount to the sums due by the company for principal. The equivalent of £180,400 sterling was paid to the Halifax and Southwestern Railway Company, but instead of being paid in cash it was paid by delivering to the company £180,400 of provincial debentures. The total amount the company owed the province under this arrangement was settled at \$4,447,000, in which is included the equivalent of £180,040 sterling.

As security for that amount the company delivered to the province its bonds guaranteed by the Canadian Northern Railway Company, aggregating \$4,447,000, these bonds being secured by a mortgage trust deed covering the railway system of the Halifax and Southwestern Railway Company, and the province still holds the bonds and collects the interest thereon as the same falls due.

Under the primary arrangement the railway company did not deliver bonds to the province, but merely executed the mortgage, which has been released and superseded by the new arrangement.

The advance of \$13,500 per mile was not made by the province delivering bonds to the company; it was made in cash, the province having borrowed the money in London by the issue and sale of inscribed stock. The interest on the guaranteed bonds that the province now holds offsets within about one-quarter per cent the interest payable on the inscribed stock, this difference being accounted for by the fact that the stock was issued below par.

After the guaranteed bonds of the Halifax and Southwestern Railway Company are paid, the amount of provincial aid it will have received will have been \$3,200 per mile.

## BRITISH COLUMBIA

|                                     | Guarantee<br>Authorized. | Par Value<br>of Bonds<br>Executed. | Amount<br>of<br>Guarantee |

# STATISTIQUE DES CHEMINS DE FER

## PRÉFACE

La statistique des chemins de fer est tirée des données que contiennent les rapports officiels faits par les compagnies de chemins de fer du Canada, en vertu des dispositions de la Loi des Chemins de Fer de 1919 et de la Loi de la Statistique de 1918.

L'année financière et statistique des chemins de fer, qui se terminait précédemment le 30 juin, a été changée en 1919; elle se confond maintenant avec l'année civile ou de calendrier. Les chiffres se rapportant aux six mois courus de janvier à juin 1919, sont compris dans le présent rapport, mais ils figuraient déjà dans le rapport qui couvre l'exercice terminé le 30 juin 1919. Dans chaque tableau où l'année 1919 paraît deux fois, la première série de chiffres se rapporte à l'exercice terminé le 30 juin 1919, et la seconde série à l'année terminée le 31 décembre 1919.

Tous les états et tableaux comparatifs publiés dans l'introduction ont été complètement révisés et corrigés. Parmi les corrections les plus importantes, il convient de relater les suivantes:

Dans ses rapports de 1917 et 1918, la compagnie du chemin de fer "Canadian Northern" a fait figurer les statistiques concernant la compagnie des tramways électriques "Niagara, St-Catharines and Toronto"; d'autre part, les statistiques de cette dernière compagnie étaient également comprises dans les statistiques des tramways électriques. Il y avait donc double emploi, et ce double emploi était d'autant plus fâcheux que ces tramways transportaient un nombre de voyageurs plus considérable que celui des voyageurs transportés par le réseau à vapeur du "Canadian Northern"; en fait, ces voyageurs représentaient environ dix pour cent du total des voyageurs transportés par tous les chemins de fer à vapeur du Canada. Cette correction a été faite dans le présent rapport, d'abord, dans la colonne consacrée à "Voyageurs transportés" et ensuite, dans la colonne consacrée à "Voyageurs transportés un mille"; les moyennes se trouvent, par conséquent, affectées par ces changements. D'autres corrections affectent également les totaux, mais dans une proportion inférieure à un pour cent, dans la plupart des cas. Dans le tableau relatif à la capitalisation, une addition de \$5,115,200 a été faite aux chiffres de l'exercice terminé le 30 juin 1919; cette somme représente la capitalisation des compagnies filiales du "Canadian Northern", lesquelles avaient été jusqu'ici négligées. Sous l'en-tête "Subsides accordés", l'item "emprunts" se confondait parfois avec la dette consolidée; cette dernière a été complètement éliminée et ne se trouve plus maintenant qu'à la place qui lui revient.

Dans le tableau intitulé "Capitalisation des tramways électriques", les valeurs émises par "The London and Port Stanley Railway" et la dette consolidée de cette compagnie, depuis qu'elle emploie l'électricité comme force motrice, ne comprenaient que l'émission faite par les locataires du réseau, la capitalisation et la dette consolidée de l'ancienne entreprise n'y figurant pas; dans le présent rapport, on trouvera la capitalisation totale de ce réseau. Nous avons placé des renvois au bas des pages, toutes les fois qu'il a été nécessaire d'expliquer l'absence de certains chiffres ou le groupement de plusieurs item dans une même colonne.

Le présent rapport a été élaboré sous la direction de M. G. S. Wrong, B.Sc., la compilation des principaux tableaux étant l'œuvre de M. J. S. Woodill.

## INTRODUCTION ET RÉSUMÉ.

### CHEMINS DE FER.

Lorsqu'on examine la situation des chemins de fer en 1919, le fait qui s'impose tout d'abord à l'attention, c'est que sur les 61 compagnies figurant dans les statistiques, 30 d'entre elles seulement ont encaissé des recettes égales ou supérieures à leurs dépenses d'exploitation. (Les chemins de fer de l'Etat canadiens sont considérés comme constituant deux réseaux distincts, l'un étant le Canadien Northern et l'autre formé par le groupement de toutes les autres lignes). Ces 30 compagnies exploitent 20,982 milles de voies, sur un total de 40.139 milles (y compris droits de circulation), soit 52 pour cent, et leurs gains nets dérivés de l'exploitation se sont élevés à \$55,541,597. Les 31 autres compagnies ont subi un déficit d'exploitation de \$23,732,329.

Mais 24 compagnies seulement ont réalisé des bénéfices, leurs recettes couvrant non seulement les dépenses d'exploitation, mais encore la rémunération du capital, les impôts, etc.: celles-ci exploitent 20,552 milles et ont encaissé un revenu net de \$39,456,106. Dans cette somme figurent les revenus des embranchements du Grand Tronc Pacifique, représentant 1,041 milles de voies, dont l'exploitation accuse un déficit, mais qui ont reçu, à titre de subsides, \$4,000,158 du Grand Tronc Pacifique. Les pertes subies par les 37 autres compagnies ont atteint \$54,384,773, dont \$26,187,509 par le Canadien Northern, \$7,133,295 par les autres lignes de l'Etat et \$13,483,064 par le Grand Tronc Pacifique.

Les statistiques contenues dans le présent rapport ne peuvent être mises en parallèle avec celles de l'exercice terminé le 30 juin 1919, puisque les unes et les autres comprennent six mois écoulés entre janvier et juin 1919; c'est pour cette raison que nous nous servons ci-après, comme terme de comparaison, des chiffres de l'exercice terminé le 30 juin 1918.

D'autre part, en effectuant cette comparaison, il faut tenir compte de l'élévation de tarif de 15 p.c. survenue en mars 1918 et affectant la plupart des marchandises, d'une autre augmentation de 25 p.c. qui prit effet en août 1918 et de la hausse des tarifs de voyageurs, de 15 p.c., en mars 1918. Les nouveaux tarifs ont existé pendant toute la durée de l'année 1919, mais seulement pendant une portion de l'exercice terminé le 30 juin 1918.

En 1919, une tonne-mille a rapporté 1.003 cent, au lieu de .736 cent durant l'exercice terminé le 30 juin 1918, soit une augmentation de 36 pour cent. Un voyageur transporté un mille a payé en moyenne 2.63 cents, au lieu de 2.12 cents, soit 24 p.c. en sus. La distance moyenne parcourue par une tonne est plus courte, n'étant que de 295 milles contre 303 milles: par contre, chaque voyageur a parcouru, en moyenne, 76.6 milles, au lieu de 70.5 milles. Les marchandises transportées n'ont pas dépassé 111,487,780 tonnes, au lieu de 127,543,687, cette diminution ayant porté principalement sur des produits à tarif réduit tels que la houille bitumineuse qui a décréu de 7,510,306 tonnes et les minerais qui ont baissé de 2,616,414 tonnes, conséquence des grèves qui ont sévi dans les industries minières et métallurgiques pendant l'été et l'automne de 1919. Quoique les tonnes-milles aient diminué de 4,078,473,957 unités, soit 15 pour cent, les recettes en provenant ont passé de \$228,244,416 à \$270,533,047, soit une augmentation de \$42,288,631, ou 18.5 pour cent, attribuable à l'élévation des tarifs. Le nombre des voyageurs ayant circulé sur les trains s'est accru de 2,991,818, soit 6.7 pour cent, et celui des voyageurs transportés un mille, de 497,410,314, soit 15.7 pour cent. La surélévation des tarifs, l'accroissement de la longueur des parcours et du nombre des voyageurs ont porté les recettes provenant des voyageurs de \$67,089,363 à \$96,262,241, soit un gain sur l'exercice précédent de \$29,172,878 ou 43.4 pour cent. Les recettes d'exploitation ont atteint \$408,598,360, contre \$330,220,150, mais cette augmentation de \$78,378,-

## DOCUMENT PARLEMENTAIRE No 20b

210 ne compense cependant pas l'accroissement des dépenses d'exploitation, égal à \$102,833,657 et laisse une différence passive de \$24,455,447. Les dépenses d'exploitation se totalisent par \$376,789,093, soit une moyenne de \$9,645 par mille de voie et de \$3.52 par train-mille.

Pour l'année 1919, les traitements, appointements et salaires représentent \$233,323,074, en augmentation de \$81,048,122, soit 53 pour cent. Parmi les dépenses d'exploitation, la hausse la plus considérable se trouve dans le chapitre de l'entretien des voies et ouvrages, lesquelles, de \$51,614,858 ont bondi à \$82,343,530, soit une avance de \$30,728,672 ou 59.5 pour cent. Les dépenses de traction ont passé de \$145,107,396 à \$181,979,405, soit une augmentation de \$36,872,009 ou 25.4 pour cent et l'entretien du matériel roulant de \$57,304,235 à \$85,577,378, soit une augmentation de \$28,273,143 ou 49.4 pour cent.

Au cours des cinq années et demie qui se sont écoulées depuis 1914, l'ensemble des dépenses d'exploitation s'est accru de plus de 110 pour cent.

En formant une masse unique de tous les salaires, soit mensuels soit quotidiens, et en supposant une durée de travail de 10 heures par jour pour le personnel uniformément, on constate que la moyenne du prix d'une heure de travail, pour l'ensemble des réseaux, s'établit à 52.3 cents au lieu de 33.1 cents en 1918, soit une augmentation de 58 pour cent. Parmi les salaires les plus élevés, on relève les suivants, les chiffres ci-dessous étant le prix d'une heure de travail:

|   |         |
|---|---------|
| Mécaniciens et wattmen des trains de voyageurs.....   | \$1.091 |
| Expéditeurs et directeurs des trains.....             | 1.084   |
| Mécaniciens et wattmen des trains de marchandises..   | .869    |
| Conducteurs des trains de voyageurs.....              | .846    |
| Chefs des dépôts et pares.....                        | .840    |
| Employés des agences à l'étranger.....                | .838    |
| Chauffeurs des trains de voyageurs et leurs aides.... | .831    |
| Agents télégraphistes.....                            | .805    |

Tous les autres reçoivent un salaire moyen inférieur à 80 cents par heure.

Le nombre des wagons de marchandises en service a augmenté de 10,760 unités, celui des wagons de voyageurs de 162, et celui des locomotives de 191. La moyenne de capacité des wagons de marchandises a également augmenté.

On constate une légère diminution dans la consommation du combustible, c'est-à-dire 9,696,625 tonnes au lieu de 10,173,344 tonnes: il a coûté \$52,563,334 au lieu de \$52,630,430.

Il y eut un plus grand nombre de personnes tuées et blessées dans les accidents résultant de la circulation des trains, car on compta 33 voyageurs tués et 372 blessés, au lieu de 32 et 322 respectivement, c'est-à-dire qu'un voyageur a péri sur 1,452,000 voyageurs transportés et qu'un voyageur a été blessé sur 128,772 voyageurs transportés. En outre, les accidents de même nature ont coûté la vie à 162 employés, tandis que 1,904 autres étaient blessés. Enfin, 35 employés, 1 voyageur et 5 autres personnes ont trouvé la mort dans divers accidents d'autre nature, lesquels ont causé des blessures à 4,458 employés, 20 voyageurs et 27 autres personnes.

## TRAMWAYS ÉLECTRIQUES.

En rapprochant l'une de l'autre les statistiques de l'année civile 1919 et celles de l'exercice terminé le 30 juin 1918, il ne faut pas perdre de vue que "The Montreal Tramways Company" a négligé d'envoyer son rapport pour 1918. Cette compagnie, pour 1919, accuse des recettes d'exploitation de \$9,661,414 et des dépenses d'exploitation de \$7,243,823; elle a transporté 190,524,002 voyageurs payants.

Parmi les 66 compagnies de tramways électriques dont les rapports sont analysés, il ne s'en trouve que 55 dont les recettes égalent ou dépassent les dépenses d'exploitation, les 11 autres n'ayant pas couvert cette catégorie de dépenses. Sur ces 55 entreprises, il n'y en eut que 40 qui purent acquitter la rémunération de leur capital, leurs impôts, etc. Enfin 13 seulement ont pu verser un dividende à leurs actionnaires.

Les recettes provenant du transport des voyageurs ont donné \$37,547,436, et l'ensemble des revenus de l'exploitation a atteint \$40,152,903. En moyenne, chaque voyageur a payé, par voyage, 5.01 cents au lieu de 4.50 en 1918; ceci ne s'applique pas aux voyageurs ayant fait usage d'une correspondance. Les tramways électriques occupent 16,940 employés de tous rangs, dont les traitements, appointements et salaires se sont élevés à \$20,211,576.

En 1919, sur 749,334,380 voyageurs transportés, 4 seulement ont été victimes d'accidents mortels, tandis que 1,717 figurent dans la colonne des blessés. De plus, on compte 29 employés et 58 autres personnes tués, 951 employés et 1,505 autres personnes blessés.

## ÉTENDUE DU RÉSEAU EXPLOITÉ, PAR PROVINCES.

| 1915.....                 | 183,479,192                      | 37,437,895           | 17,914,836               |
| 1916.....                 | 184,719,609                      | 37,437,895           | 17,914,836               |
| 1917.....                 | 185,484,130                      | 37,437,895           | 17,914,836               |
| 1918.....                 | 218,704,535                      | 37,437,895           | 17,914,836               |
| 1919.....                 | 219,064,196                      | 38,047,601           | 18,049,836               |
| 1919 31 décembre.....     | 221,865,882                      | 43,469,371           | 16,390,673               |

e Cette somme comprend les versements faits au Grand-Tronc-Pacifique en vertu de la clause dite "du matériel" de la convention intervenue entre le gouvernement et cette compagnie.

f Cette réduction est attribuable au remboursement d'un prêt. Dans les subsides accordés au C.P.R. figure une somme de \$37,785,219.54, prix de voies ferrées construites par le gouvernement et cédées à la compagnie; le coût du tracé de voies entrerait dans ce montant pour \$6,639,581.

d Y compris \$10,000,000 prêtés au Grand-Tronc-Pacifique en vertu de la loi de 1909, chap. 19.

## DOCUMENT PARLEMENTAIRE No 20b

Les subsides accordés aux chemins de fer par le gouvernement fédéral, les gouvernements provinciaux et les municipalités, ont revêtu les formes suivantes:

## GOUVERNEMENT FÉDÉRAL

|   |                |
|---|----------------|
| Subventions en espèces.....                         | \$ 115,849,561 |
| Prêts.....  | 58,076,533     |
| Coût des lignes cédées au C.P.R.....                | 37,785,319     |
| Payé à la province de Québec.....                   | 5,160,053      |
| Clause "du matériel", convention avec le G.T.P..... | 4,994,416      |
| Total.....  | \$ 221,865,882 |

L'achat par le gouvernement d'obligations du Grand-Tronc-Pacifique, d'une valeur de \$33,116,000 n'est pas, à proprement parler, une subvention en espèces; on ne l'a donc pas fait figurer dans ce compte et il en sera question plus loin, à la section des garanties autorisées.

## PROVINCES

|                             |               |
|-----------------------------|---------------|
| Subventions en espèces..... | \$ 33,593,898 |
| Prêts.....                  | 9,575,743     |
| Souscription d'actions..... | 300,000       |
| Total.....                  | \$ 43,469,371 |

## MUNICIPALITÉS

|                             |               |
|-----------------------------|---------------|
| Subventions en espèces..... | \$ 12,893,528 |
| Prêts.....                  | 1,071,645     |
| Souscription d'actions..... | 2,425,500     |
| Total.....                  | \$ 16,390,673 |

## OCTROIS DE TERRES.

Voici un résumé des octrois de terres consentis aux chemins de fer:

|   | Acres      |
|---|------------|
| Par le gouvernement fédéral.....                | 32,374,289 |
| Par la province de Québec*.....                 | 1,735,690  |
| Par la province de la Colombie Britannique..... | 8,119,221  |
| Par la province du Nouveau-Brunswick.....       | 1,647,772  |
| Par la province de la Nouvelle-Ecosse.....      | 160,000    |
| Par la province d'Ontario.....                  | 624,232    |
| Total.....                                      | 44,661,204 |

\*Voir le paragraphe explicatif.

Les terres de la province de Québec ayant été octroyées à des conditions spéciales, il est nécessaire d'en préciser les détails:

|                                       |              |
|---------------------------------------|--------------|
| Acres concédées, convertibles.....    | 13,324,950   |
| Converties, à 52½ cents par acre..... | \$ 6,995,599 |
| Montant de la conversion.....         | \$ 4,557,728 |
| Acres concédées—inconvertibles.....   | 12,947,370   |
| Acres obtenues—inconvertibles.....    | 1,735,690    |

## OCTROIS DE TERRES FÉDÉRALES.

Revisé par les Services des Ressources Naturelles et des Titres de propriété des terres, du ministère de l'Intérieur.

| Nom du chemin de fer  | Superficie, acres obtenues |
|---|----------------------------|

| Qu'Appelle, Long Lake and Saskatchewan Railroad and Steamboat Co. | 1,880,154                  |
| Canadian Northern Railway Co.                                     | 2,656,261                  |
| Edmonton, Dunvegan and British Columbia Ry. Co.                   | 785                        |
| Grand Tronc Pacifique.  | 21                         |
| Grand Tronc Pacifique—Embranchements                              | 6                          |
| Total.  | 32,374,289                 |

Depuis 1894, le gouvernement fédéral n'a fait aucune concession de terres domaniales aux chemins de fer.

## GARANTIES.

Au cours des dernières années, la garantie d'obligations a été substituée à toutes autres formes de subsides. Il a été très difficile de se procurer un état exact des obligations assumées de ce chef, spécialement quant au chiffre précis des valeurs garanties qui sont actuellement en circulation. Le relevé qui suit est basé sur les rapports officiels des gouvernements fédéral et provinciaux.

| Garants              | Garantie autorisée | Obligations émises | Garanties effectives |
|----------------------|--------------------|--------------------|----------------------|
|                      | §                  | §                  | §                    |
| Dominion             | 189,666,539        | 183,532,523        | 183,532,523          |
| Manitoba             | 25,633,552         | 25,663,553         | 25,663,553           |
| Alberta              | 59,495,909         | 46,685,969         | 45,520,450           |
| Saskatchewan         | 47,725,000         | 28,582,012         | 23,170,661           |
| Ontario              | 7,860,600          | 7,860,000          | 7,860,000            |
| Colombie Britannique | 68,135,000         | 60,317,524         | 51,214,290           |
| Nouveau-Brunswick    | 7,763,000          | 7,763,000          | 7,317,000            |
| Québec               | 210,000            | 210,000            | 210,000              |
| Total                | 406,518,992        | 360,614,581        | 344,488,477          |

Il est à remarquer que des obligations du Grand-Tronc-Pacifique, à concurrence de \$33,116,000, figurent dans le total de ces garanties, quoique cette garantie soit devenue caduque par suite de l'achat de ces obligations par l'Etat; mais il n'y avait pas d'autre moyen de relater cette opération.

## DOCUMENT PARLEMENTAIRE No 20b

Voici maintenant le détail des garanties accordées durant les sept dernières années:

| Garants                   | Exercice terminé le 30 juin |             |             |             |             |             |             |

Les informations ci-dessous sont extraites des rapports officiels du gouvernement fédéral et de différents gouvernements provinciaux.—

## GOUVERNEMENT FÉDÉRAL.

Liste des émissions garanties par la Puissance, antérieurement au 30 juin 1916.

1. Canadian Northern, chap. 7, 3 Ed. VII (1903). La garantie est pour le capital, £1,923,287 sterling, et l'intérêt de cette somme au taux de 3 p.c. par année, durant cinquante ans.

2. Canadian Northern, chap. 11, 7 et 8 Ed. VII (1908). La garantie est pour le capital, débenture stock de £1,622,586 19ch. 9d. sterling, et l'intérêt de cette somme au taux de 3½ pour cent par année, durant cinquante ans à partir du 20 juillet 1908; intérêt payable semestriellement.

3. Canadian Northern Ontario Railway Company, chap. 6, 1 et 2 George V (1911).

La garantie est pour le principal de £7,493,835 12ch. 4d. sterling debenture stock et l'intérêt sur cette somme de 3½ pour cent par année, durant cinquante ans, à partir du 19 mai 1911; intérêt payable semestriellement.

4. Canadian Northern Alberta Railway Company, chap. 6, 9-10 Ed. VII (1910) tel qu'amendé par le chap. 8, 2 George V (1912).

La garantie est pour le principal de £647,260 5ch. 6d. sterling debenture stock et l'intérêt sur cette somme au taux de 3½ pour cent par an, durant cinquante ans, à partir du 4 mai 1910; intérêt payable semestriellement.

5. Grand-Tronc-Pacifique, chap. 71, 3 Ed. VII (1903) chap. 24, 4 Ed. VII (1904) et chap. 98 (1905).

La garantie est en obligations à 3 pour cent de la compagnie de chemin de fer pour une somme équivalente à 75 pour cent du coût de construction de la section ouest du Transcontinental, mais ne dépassant pas \$13,000 par mille pour la section des prairies dudit chemin de fer. Le montant des obligations émises et garanties s'élève à £7,200,000, dont £2,300,000 émises en 1905, £2,000,000 en 1909 et £2,000,000 en 1910.

L'émission totale s'élevait à \$14,000,000; la partie non vendue au public soit £6,800,000, fut achetée par le gouvernement en vertu de la Loi d'Achat des Obligations du G.T.P., de 1913. La garantie est donc caduque, quant aux obligations achetées.

II GEORGE V, A. 1921

6. Canadian Northern Alberta Railway Company, chap. 6, 2 Georges V, (1912).

Cette garantie porte sur le principal de £733,561 12ch. 10d. sterling et l'intérêt de ces obligations à 3½ pour cent par an, durant 50 ans à partir du 1er avril 1912; l'intérêt est payable semestriellement.

7. Grand Tronc Pacifique, chap. 20 des lois de 1914. Total de la garantie accordée \$16,000,000, portant intérêt à 4 pour cent. Obligations vendues au public \$3,193,507; entre les mains du gouvernement fédéral, comme gage d'avances, \$7,500,000; donné en gage à la compagnie du chemin de fer du Grand Tronc, \$5,306,493.

8. Canadian Northern, chap. 20 des lois de 1914. Garantie consentie, \$45,000,000 à 4 pour cent. Vendu au public, \$17,033,333; remis au gouvernement fédéral en gage d'avances, \$12,500,000; entre les mains de Columbia Trust Co., de New-York, comme gage d'avances, \$15,333,333.

## ONTARIO

En faveur du Canadian Northern Ontario Railway Co.—Garantie d'intérêt sur des obligations représentant un capital de \$7,860,000.

## DOCUMENT PARLEMENTAIRE No 20b

## NOUVELLE-ÉCOSSE

Les subsides accordés par la province de la Nouvelle-Ecosse à la compagnie de chemin de fer Halifax et Southwestern ne constituent pas précisément une garantie d'obligations; nous les faisons cependant figurer ici, en exposant la nature de l'opération.

Tout d'abord, la province avança à la compagnie \$13,500 par mille sur 257.25 milles de ses voies. La compagnie hypothéqua la totalité de son réseau en faveur de la province pour le montant total de ces avances, avec faculté d'obtenir la main-levée de cette hypothèque en remboursant \$13,500 par mille, moins \$3,200 par mille, la différence de \$3,200 par mille représentant les subsides normalement dûs par la province aux constructeurs d'un chemin de fer, en vertu de sa législation.

Cette situation fut modifiée par une loi de 1912, chap. 27, plus tard amendée par une loi de 1913, chap. 64, dont voici les dispositions essentielles: l'hypothèque est annulée; la compagnie de chemin de fer est créditée de \$3,200 par mille plus l'intérêt sur cette somme; la compagnie est remboursée de l'équivalent de £180,400 qu'elle a payé à titre d'intérêt sur la créance de la province, cette somme venant s'ajouter au capital dû par la compagnie à la province. La compagnie de chemin de fer Halifax et Southwestern reçut remboursement de l'équivalent de ces £180,400 non pas en espèces, mais sous forme d'obligations émises par la province, et la dette totale de la compagnie envers la province fut alors établie à \$4,447,000, somme qui comprend ces £180,400.

Pour garantir le remboursement de sa dette, la compagnie remit à la province à titre de gage, un montant égal, soit \$4,447,000 d'obligations par elle émises, cautionnées par The Canadian Northern Railway Company et comportant première hypothèque sur le réseau Halifax et Southwestern. La province est encore détentrice de ces obligations, dont elle encaisse les coupons à leur échéance.

Sous la convention originaire, la compagnie de chemin de fer n'avait pas remis de valeurs à la province, la seule garantie était l'hypothèque, maintenant radiée.

L'avance de \$13,500 par mille consentie à la compagnie fut effectuée en espèces, la province ayant contracté à cet effet un emprunt à Londres au moyen d'une émission d'obligations. Le taux d'intérêt des obligations de la compagnie détenues par la province compense presque—moins un quart de un pour cent celui que paie la province sur ses propres obligations, cette légère différence résultant de ce que les premières ont été émises au-dessous du pair.

Lorsque la compagnie aura payé sa dette, les subsides provinciaux qu'elle aura encaissés seront exactement de \$3,200 par mille.

## COLOMBIE BRITANNIQUE

| Chemins de fer                    | Garantie autorisée | Valeur au pair des obligations émises | Montant de la garantie effective |
|-----------------------------------|--------------------|---------------------------------------|----------------------------------|
|                                   | \$                 | \$                                    | \$                               |
| Canadian Northern Pacific Ry..... | 47,975,000         | 40,157,527                            | 33,179,092                       |
| Pacific Great Eastern Ry.....     | 20,160,000         | 20,160,000                            | 18,035,198                       |
| Total.....                        | 68,135,000         | 60,317,527                            | 51,214,290                       |

La province a garanti \$20,160,600 d'obligations du Pacific Great Eastern, dont \$5,925,195 sont le gage d'emprunts contractés. De plus, elle a avancé \$3,278,442.11 pour intérêt sur actions.

REPORT  
OF THE  
BOARD OF RAILWAY COMMISSIONERS  
FOR CANADA

---

*To the Governor in Council:*

Pursuant to the provisions of section 31 of the Railway Act, 1919, the Board of Railway Commissioners for Canada has the honour to submit its Fifteenth Report for the nine months ending December 31, 1919.

Since the submission of the Board's last report the Railway Act has been consolidated and amended by chapter 68 of 9-10 George V, assented to the 7th July, 1919, the Act being now cited as "The Railway Act, 1919." A number of important amendments have been made to the original Act, and attention may be called to the following:—

In connection with industrial spurs the following sections have been added:—

" 186. Notwithstanding anything done under the last preceding section and notwithstanding any agreement made thereunder or otherwise the Board may, on application, permit any owner of another industry or business or any person intending to establish another industry or business, within six miles of the railway, to have traffic carried over any spur or branch line, or any part thereof, constructed pursuant to the said section or to have such spur or branch line extended: Provided that any terms and conditions which the Board thinks just and reasonable shall always be imposed, and regard shall always be had to the convenience of the owner or person having senior rights in such spur or branch line. (New.)

" 187. No branch line or spur constructed pursuant to either of the last two preceding sections shall be removed without the consent of the Board. (New.)

Under the heading "Other Railways" in the Act, section 193, the following clauses (4) and (5) have been added:—

" (4) Where the proposed location of any new railway is close to or in the neighbourhood of an existing railway, and the Board is of opinion that it is undesirable in the public interest to have the two separate rights of way in such vicinity, the Board may, when it deems proper, upon the application of any company, municipality or person interested, or of its own motion, order that the company constructing such new railway shall take the proceedings provided for in subsection (1) of this section to such extent as the Board deems necessary in order to avoid having such separate rights of way.

" (5) The Board, in any case where it deems it in the public interest to avoid the construction of one or more new railways close to or in the neighbourhood of an existing railway, or to avoid the construction of two or more new

11 GEORGE V, A. 1921

railways close to or in the neighbourhood of each other, may, on the application of any company, municipality or person interested, or of its own motion, make such order or direction for the joint or common use, or construction and use, by the companies owning, constructing or operating such railways, of one right of way, with such number of tracks, and such terminals, stations and other facilities, and such arrangements respecting them, as may be deemed necessary or desirable. (New.)”

The following sections relating to mines and minerals have been added:—

“197. The company shall, from time to time, pay to the owner, lessee, or occupier of any such mines such compensation as the Board shall fix and order to be paid, for or by reason of any severance by the railway of the land lying over such mines, or because of the working of such mines being prevented, stopped or interrupted, or of the same having to be worked in such manner and under such restrictions as not to injure or be detrimental to the railway, and also for any minerals not purchased by the company which cannot be obtained by reason of the construction and operation of the railway.

“198. If necessary in order to ascertain whether any such mines are being worked, or have been worked, so as to injure or be detrimental to the railway or its safety or the safety of the public, the company may with the written permission of the Board, after giving twenty-four hours' notice in writing, enter upon any lands through or near which the railway passes wherein any such mines are being worked, and enter into and return from any such mines or the works connected therewith; and for such purpose may make use of any apparatus of such mines and use all necessary means for discovering the distance from the railway to the parts of such mines which are being worked. (New). (See *Ontario Statute, 1913, c. 36, s. 136.*)”

Under the heading “Bridges, Tunnels and other Structures,” subsection (6) has been added to section 251, as follows:—

“(6) Upon the application of any municipality or municipalities interested, the Board may, where it deems it reasonable and proper, require the company to construct under or alongside of its track upon any bridge being constructed, reconstructed or materially altered by the company a passageway for the use of the public either as a general highway or as a footway, the additional cost to the company of constructing, maintaining and renewing which, as fixed by or under the direction of the Board, shall be paid by the municipality or municipalities as the Board may direct, and the Board may impose any terms or conditions as to the use of such passageway or otherwise which it deems proper. (New).”

Under the heading “Board May Order Railway to be Opened,” has been added section 277, reading as follows:—

“277. The Board, in any case where it deems it right, may, upon the application of any person interested, or of its own motion, order the opening of any railway or line or any portion thereof, for traffic, and may require the company to do all things necessary therefor, within such time as the Board fixes. (New.)”

Under the heading “Special Powers of Railway Companies,” the following sections have been added:—

“368. Whenever in any Special Act hereafter passed it is stated or provided that a railway company shall have power to acquire, transmit and distribute electric and other power or energy, such company, subject to the provisions of sections three hundred and seventy and three hundred and seventy-

## SESSIONAL PAPER No. 20c

three of this Act, may for the purposes of its undertaking acquire, but not by expropriation, electric and other power or energy, and transmit and deliver the same to any place in the municipalities through which the railway is built, and receive, transform, transmit, distribute and supply such power or energy in any form; and may dispose of the surplus thereof, and collect rates and charges therefor, but no such rate or charge shall be demanded or taken until it has been approved of by the Board, and the Board may revise such rates and charges whenever it deems proper.

"369. (1) Whenever in any Special Act hereafter passed it is stated or provided that a railway company shall have power to transmit telegraph and telephone messages for the public and collect tolls therefor, such company may, subject to the provisions of this Act, construct and operate telegraph and telephone lines upon its railway, and establish offices for and undertake the transmission of messages for the public, and collect tolls therefor; and for the purpose of operating such lines or exchanging or transmitting messages, may, subject to the provisions of this Act, enter into contracts with any companies having telegraph or telephone powers and may connect its own lines with the lines of, or may lease its own lines to, any such companies.

"(2) No toll or charge shall be demanded or taken for the transmission of any message or for leasing or using the telegraphs or telephones of such company except in accordance with section three hundred and seventy-six of this Act, and the said company and its said business and works shall in all respects be subject to the provisions of the said section.

"(3) Part II of the Telegraphs Act, except such portions thereof as are inconsistent with this Act, shall apply to the telegraphic business of such company. (New.)"

"370. No power conferred as in the last two preceding sections mentioned and nothing in the said sections or in the Telegraphs Act, shall authorize such company to construct or operate any line along any highway or public place, without first obtaining the consent, expressed by by-law, of the municipality having jurisdiction over such highway or public place, nor without complying with any terms stated or provided for in such by-law, or authorize such company to sell, dispose of or distribute power or energy within or for use within the limits of any municipality, without the consent, expressed by by-law, of such municipality. (New.)"

Also under the heading "Offences, Penalties and Other Liability—Disobeying orders of Board," the following section has been added:—

"392. (1) Every company and every municipal or other corporation which neglects or refuses to obey any order of the Board made under the provisions of this Act, or any other Act of the Parliament of Canada, shall for every such offence, be liable to a penalty of not less than twenty dollars nor more than five thousand dollars.

"(2) Wherever it is proved that any company has neglected or refused to obey an order of the Board made under the provisions of this Act, or any other Act of the Parliament of Canada, the president, the vice-president, each vice-president where there are more than one, and every director and managing director of such company shall each be guilty of an offence for which he shall be liable to a penalty of not less than twenty dollars and not more than five thousand dollars, or imprisonment for any period not exceeding twelve months, or both, unless he proves that, according to his position and authority, he took all necessary and proper means in his power to obey and carry out, and to procure obedience to and carrying out of, such order and that he was not at fault for the neglect or refusal to obey the same.

11 GEORGE V, A. 1921

"(3) Wherever it is proved that any municipal or other corporation has neglected or refused to obey any order of the Board made under the provisions of this Act, or any other Act of the Parliament of Canada, the mayor, warden, reeve or other head of such corporation, and every member of the council or other ruling or executive body of such corporation, shall each be guilty of an offence for which he shall be liable to a penalty of not less than twenty dollars and not more than five thousand dollars, or imprisonment for any period not exceeding twelve months, or both, unless he proves that, according to his position and authority, he took all necessary and proper means in his power to obey and carry out, and to procure obedience to and carrying out of, such order, and that he was not at fault for the neglect or refusal to obey the same.

"(4) Nothing in or done under this section shall lessen or affect any other liability of such company, corporation or person, or prevent or prejudice the enforcement or such order in any other way.

"(5) No prosecution shall be had under this section except by leave or direction of the Board. (New.)"

Under the heading "Removing Industrial Spurs," the following section has been added:—

"398. Any company or person who, without consent or order of the Board, removes any spur or branch line constructed under or pursuant to this Act for the purpose of affording railway facilities to, or in connection with, any industry or business established or intended to be established, shall be liable on conviction to a penalty not exceeding one thousand dollars. (New.)"

Under the heading "Notification of Accidents," the following section has been added:—

"412. (1) Every railway company which wilfully or negligently omits to give immediate notice as by this Act required, with full particulars, to the Board of the occurrence, upon the railway belonging to such company, of any accident attended with serious personal injury to any person using the railway, or to any employee of the company, or whereby any bridge, culvert, viaduct or tunnel on or of the railway has been broken, or so damaged as to be impassable or unfit for immediate use, shall forfeit to His Majesty the sum of two hundred dollars for every day during which the omission to give such notice continues. R.S., c. 37, s. 412.

"(2) Every conductor or other employee who makes a report to the company of the occurrence of any such accident and fails, wilfully or negligently, to notify the Board of the same by telegraph as soon as possible after such accident, is guilty of an offence and liable, on summary conviction, to a penalty not exceeding one hundred dollars. (New.)"

#### PUBLIC SITTINGS OF THE BOARD.

During the nine months covered by the period from the 1st April, 1919, to the 31st December, 1919, the Board held 36 public sittings at which 285 applications were heard. The number of public sittings held in the various provinces were as follows:—

| Province                   | Number    |
|----------------------------|-----------|

SESSIONAL PAPER No. 20c

The applications include a variety of matters falling within the jurisdiction of the Board under the Railway Act from the complaint of a private individual to matters of general public interest affecting the community at large.

FORMAL AND INFORMAL MATTERS.

The number of informal matters dealt with by the Board, as distinguished from matters heard at public sittings, constitutes a considerable percentage of the total applications and complaints dealt with by it, that is to say, of a total of 2,735 applications and complaints received and dealt with by the Board, 10.42 per cent were set down for formal hearing and 89.58 per cent were disposed of without the necessity of such formal hearing. These informal complaints, dealt with and settled without the necessity of a hearing, entail in many instances a considerable amount of inquiry and consideration on the part of the Board's officials, and cover a wide range of subjects, as, for example, a complaint of a more or less trivial nature to a matter of general public interest affecting the community as a whole, or involving the application of some general principle regarding the railway rates.

RAILWAY GRADE CROSSING FUND.

In accordance with the provisions of subsection (5) of section 262 of the Railway Act, 1919, provision was made that the sum of \$200,000 each year, for ten consecutive years from the first day of April, 1919, was appropriated and set apart from the Consolidated Revenue Fund for the purpose of aiding in the providing by actual construction work of protective safety, and conveniences for the public in respect of highway crossings of the railway at rail level, in existence on the said 1st day of April, the said sums to be placed to the credit of a special account to be known as "The Railway Grade Crossing Fund," to be applied by the Board, subject to certain limitations set out in the Act, solely towards the cost (not including that of maintenance and operation) of actual construction work for the purpose specified.

In dealing with such crossings, the Board issued, between the 1st day of April, 1909, and the 31st day of December, 1919, 427 orders, providing protection for 478 crossings, as follows:—

|                                     |     |
|-------------------------------------|-----|
| By electric bells.....              | 258 |
| " gates.....                        | 111 |
| " subways.....                      | 51  |
| " overhead bridges.....             | 22  |
| " diversion of highways.....        | 28  |
| " closing of streets.....           | 7   |
| " removal of view obstructions..... | 4   |
| " shelter.....                      | 1   |
| " towers.....                       | 3   |
| " bell and wig-wag.....             | 3   |
| " wig-wags.....                     | 2   |

It will be seen by comparing the total number of crossings protected with the Fourteenth Annual Report of the Board, that the increase for the nine months ending December 31, 1919, in the number of crossings protected, numbers 18, made up as follows:—

|                                 |   |
|---------------------------------|---|
| By electric bells.....          | 6 |
| " subways.....                  | 1 |
| " overhead bridges.....         | 2 |
| " diversion of highways.....    | 6 |
| " closing of streets.....       | 2 |
| " removal view obstruction..... | 1 |
| " bell and wig-wag.....         | 3 |
| " wig-wags.....                 | 2 |

23

NOTE.—Eighteen crossings and 23 protections consequent on account of extra bell at one crossing and four extra diversions in connection with other crossings.

11 GEORGE V, A. 1921

It will be noted that under the new consolidated Railway Act provision is made that the total amount of money to be apportioned and directed and ordered by the Board to be payable from the annual appropriation, shall not in the case of any one crossing exceed twenty-five per cent of the cost of the actual construction work in providing such protection, and shall not in any such cases exceed the sum of \$15,000, and that no such money shall in any one year be applied to more than six crossings on any one railway in any one municipality, or more than once in any one year to any one crossing.

Subsection (3) of section 262 of the consolidated Railway Act provides that in case any province contributes towards the said fund, the Board may apportion, direct and order payment out of the amount so contributed by such province, subject to any conditions and restrictions made and imposed by such province in respect of its contribution.

### GENERAL DECISIONS AND RULINGS OF THE BOARD.

Submitted herewith are some of the more important matters dealt with by the Board at its public sittings for the nine months ending December 31, 1919. A synopsis of the principal judgments will be found under Appendix A to this report.

### GENERAL ORDERS ISSUED BY THE BOARD.

The following is a brief summary of some of the matters dealt with under the Board's General Orders:—

Direction that every railway company subject to the jurisdiction of the Board shall strictly conform to certain rules and regulations governing the handling of guard rails, vestibule doors and platforms on passenger cars, and setting forth that "suburban trains" as used in the Board's General Order No. 263 means, and applies only to, trains within commutation limits when carrying commutation traffic.

Direction authorizing the Bell Telephone Company of Canada certain increases in tolls for long-distance service, and an increase of 10 per cent on all tolls, rates, and charges for exchange telephone service and charges incidental thereto, and charges for moving telephone stations and other equipment, but disallowing "service connection charges," also authorizing that where exchange services are at present installed, the increased tolls thereby authorized and allowed shall become effective July 1, 1919.

Direction in the matter of the application of the Canadian Freight Association on behalf of railway companies subject to the Board's jurisdiction, that Supplement No. 12 to Canadian Freight Classification No. 16, as finally revised and submitted for approval of the Board, be approved.

Direction that all telegraph companies within the legislative authority of the Parliament of Canada be authorized to charge the telegraph tolls published in their respective tariffs filed with the Board.

Direction that the Standard Conditions and Specifications for Wire Crossings, as approved by the Board's General Order No. 231, dated May 6, 1918, be amended by striking out the words "three dollars" where they occur in the said order, and substituting therefor the words "eleven dollars," and providing that such payment is to cover both wages and expenses.

Direction in connection with the application of the Express Traffic Association for a general increase in rates, that the tariffs issued under the authority of the Board's judgment of the 17th July, 1919, be published and filed at least five days previous to the date on which they are to become effective, also that the express freight collection and delivery plan outlined in the judgment be given effect to, and charts of the

## SESSIONAL PAPER No. 20c

boundaries thereunder be posted for the information of the public with the least delay consistent with the ascertainment by the companies of the necessary data and the acquirement of any necessary additional equipment.

Direction with regard to the equipment with marker sockets of passenger cars and cabooses by placing the same in the lower position and requiring that the cars and cabooses shall be so equipped before the 1st May, 1920; also rescinding the Board's Order No. 10453, dated May 3, 1910, and its General Order No. 127, dated July 6, 1914.

Direction with regard to any reissue of the Canadian Freight Classification, or the Express Classification for Canada, or any supplement thereto, and providing that the same shall be submitted in printed proof form for the approval of the Board before it is made effective; also directing that one copy of the proof and of the notice of publication shall be furnished by the applicant to the parties set forth in the Board's Order (No. 271), with the request that fully explained objections, if any, to the proposed changes involving increased cost of transportation be filed by them with the Board within thirty days from the receipt of the proof and notice; also providing that previous orders and regulations of the Board conflicting with the said order be rescinded.

Direction that terminal carriers that do not issue the bill of lading for the entire movement of such freight to its destination, and which are subject to the jurisdiction of the Board, shall give the shipper a local bill of lading on the appropriate form provided for in the Board's General Order No. 41, covering the movement by inter-switching service to the point of transfer to the line carrier that issues the bill of lading to the destination; or, if preferred and in lieu thereof, shall give the shipper what is commonly known as an interline or switching ticket or receipt, which shall contain the words "received subject to the conditions of the company's bill of lading, which are made a part hereof."

Direction that all railway companies subject to the Board's jurisdiction be granted an extension of time until the 30th September, 1920, within which to make the changes required under the Board's General Order No. 128, the companies being required to continue their existing practice of filing with the Board monthly reports of the progress made in complying with the requirements of the said order.

Direction of the Board that the railway companies of Canada subject to its jurisdiction be permitted to carry free of charge certain persons as enumerated in the Board's General Order No. 274.

Direction that all freight, passenger, express, telephone, and telegraph tariffs, and supplements thereto, applying between points in Canada, or from a point in Canada to a foreign country, filed with the Board, shall, except as provided in General Order No. 275, indicate advances made by the symbol "A" and reductions by the symbol "R," with the necessary explanatory note; also providing further, if it is found impracticable in a certain case to indicate changes by either of the methods prescribed, that application may be made to the Board for relief from the provisions of the order.

*In re* LONDON AND PORT STANLEY RAILWAY COMPANY.

The London and Port Stanley Railway, a steam railway recently operated by electricity in a densely populated part of Ontario, may be taken as showing in the highest degree the economies of electric railway operation. To provide for capital charges on the value of the undertaking, and cost of change in the system of operation, as well as for the large increases in wages of employees and costs of supplies, an increased revenue is necessary in order to operate the line as a commercial venture, without loss to the owners or depreciation in the property. Accordingly the passenger toll of 2½ cents per mile was increased by 15 per cent, and the toll on coal by 15 cents

11 GEORGE V, A. 1921

per ton, as in the case of the steam railways. The Board will extend similar relief to any other electric line whose operation and financial condition require it.

*In re Eastern Tolls (Eastern Toll Case)*, 22 Can. Ry. Cas. 4; *in re Increase in Passenger and Freight Tolls (Increase in Rates Case)*, 22 Can. Ry. Cas. 49, followed.

The facts are fully set out in the judgment of the Chief Commissioner, dated March 28, 1919, concurred in by Mr. Commissioner McLean. 24 Can. Ry. Cas., p. 160.

ADOLPH LUMBER COMPANY V. GREAT NORTHERN RAILWAY COMPANY.

The universal basis in fixing tolls is the weight of the product carried, a comparison therefore between the toll on a carload of the product and the quantity of raw material required to produce it is impracticable.

The tolls on logs between Dorr and Baynes, B.C., not shewn to have been reasonable.

The facts are fully set out in the report of the Chief Traffic Officer of the Board, dated the 28th March, 1919, concurred in by the Chief Commissioner and Commissioners Goodeve and Rutherford. 24 Can. Ry. Cas., p. 173.

*In re* DAYLIGHT SAVING ACT, 1918.

The Board has no jurisdiction under the Railway Act (ss. 30, 268, 270 and 307), to prevent the use by railway companies of any specific time, unless such use is shewn to be against the comfort, convenience and safety of the travelling public and railway employees.

The Daylight Saving Act, 1918, according to the ordinary canons of construction, remains in force until repealed.

Parliament having stated its intention that the operation of the Daylight Saving Act should not extend beyond the year 1918, it is inadvisable that the Board should under all the circumstances take any action under it.

The Board is both a judicial and administrative body, its jurisdiction is largely discretionary and in some instances legislative in its character.

The facts are fully set out in the judgment of the Chief Commissioner, dated March 29, 1919. 24 Can. Ry. Cas., p. 199.

APPLICATION OF LAVAL DES RAPIDES *re* STATION FACILITIES, CANADIAN PACIFIC RAILWAY.

This was an application of the town of Laval des Rapides, on isle Jesus, for better station facilities, the town being situated on the line of the Canadian Pacific Railway Company. Opposite the town on the island of Montreal there is a station called Bordeaux, with a regular agent, which people from Parc Laval and the surroundings use, but for persons residing in Laval it means a ten-mile trip each time.

Numerous complaints were filed with the Board and the report made by one of its inspectors goes to show that the method of handling business proved very unsatisfactory, the box car used by the company as a freight shed on the siding at Laval being tampered with and goods stolen or destroyed.

The case was heard in Montreal on January 16, 1919, all parties interested being represented at the hearing.

Held, Deputy Chief Commissioner Nantel in his judgment, April 8, 1919, concurred in by Chief Commissioner Drayton and Commissioner McLean, that a shelter and platform should be erected at the point in question and a caretaker put in charge.

APPLICATION OF T. M. KELLY, SEBRINGVILLE.

This was an application of T. M. Kelly, of Sebringville, Ont., on his own behalf as well as on behalf of a number of farmers tributary to Sebringville, on the line of the Stratford and Goderich Branch of the Grand Trunk Railway, asking for the estab-

## SESSIONAL PAPER No. 20c

ishment of a siding to accommodate about four cars, also a small shelter with a freight shed or freight room attached, to be located at or near the site indicated, at the crossing at mileage 38, about midway between Sebringville and Mitchell stations, which were eight miles apart. It was made to appear in support of the application that the district to be served by the facility asked was one of the best, if not the best, farming sections in the province of Ontario; that certain of the farmers although living within three miles of the railway were nine or ten miles from a station.

Held, Commissioner A. C. Boyce, in his judgment, April 11, 1919, 24 Can. Ry. Cas. 367, concurred in by Mr. Commissioner McLean, that the discretion appealed to was a judicial one and must be carefully exercised by the Board to avoid injury instead of benefit not only to local shippers, but to all served by the railway system. Held, further, that the precedent which would be created by the granting of the application was not a desirable one, and that there was no preponderance of necessity to justify special treatment in the case, and the application must, therefore, be dismissed.

*Re Staunton, Alta., re Ribstone, Alta., and in re St. Louis de France, County of Champlain, referred to.*

*In re* APPLICATION OF THE CORPORATION OF THE TOWNSHIP OF NEPEAN AND OTTAWA  
ELECTRIC RAILWAY COMPANY.

This was an application of the Ottawa Electric Railway Company for leave to appeal to the Supreme Court on an issue of law from two several orders of the Board, No. 27830, dated November 6, 1918, suspending tariff C.R.C. No. 5 of the company, and Order No. 28120, dated February 25, 1919, disallowing said tariff. The following are the questions to be submitted:—

1. Whether, upon the proper construction of the agreements with the city of Ottawa and the village of Hintonburg, the statutes relating to the Ottawa Electric Railway Company and the relevant provisions of the Railway Act (the evidence adduced, the exhibits filed, and what was alleged by council), the Board was right in disallowing the tariff of the company filed providing for payment of additional fare for carriage upon the extension from Holland avenue, notwithstanding that the Board has found as a fact that the company did not require additional revenue.

2. Also whether, upon the proper construction of the said agreements, statutes, evidence, and exhibits for the purpose of computing the toll to be charged to passengers upon the said extension, the point of commencement of the said extension should be considered to be at Holland avenue or at the formerly westerly limit of the village of Hintonburg, now the city of Ottawa.

Held, Chief Commissioner Drayton, in his judgment, April 14, 1919, concurred in by Assistant Chief Commissioner McLean, that the application be granted subject to the following question being submitted to the court on the matter of jurisdiction:—

“Has the Board the right to treat the company's operations as a whole, and continue the existing tariff; or must the Board permit the filing of tariffs on a mileage basis covering services on the Britannia line without reference to the larger part of the system covered by municipal agreement?” 26 Can. Ry. Cas.

*In re* BELL TELEPHONE COMPANY INCREASED TOLLS.

1. Telephones, Tolls, Increase, Temporary, Emergency, Revision, Operation, Costs.

As an emergency measure, in view of sharp advances in operating costs, the Board authorized temporary increases in telephone tolls, but retained control of the case, so that revision of the emergency tolls might be considered later.

2. Telephones, Tolls, Temporary Increase, Increase of Material and Wage Costs, Emergency, Division of Burden, Depreciation, Deficit.

11 GEORGE V, A. 1921

In disposing of an application for increase of telephone tolls, the Board took into consideration the increase of material and wage costs, the company's various assets and resources, and its dealings with reserves, depreciation and replacements. It held that the burden of the emergency shown to exist should be divided between the company and the public, by charging part of the deficit against the company's allowance for depreciation, leaving the company to bear the loss prior to the date of the order and allowing temporary increases in exchange and long distance tolls.

3. Telephones, Connection, Installation, Jurisdiction. 2 Edward VII, chapter 41, section 2.

In view of the provisions of 2 Edward VII, chapter 41, section 2, the Bell Telephone Company has no power to impose, nor the Board to authorize, charges for connection or installation of telephones.

*Canadian Oil Cos. v. Grand Trunk, Canadian Pacific and Canadian Northern Ry. Cos.*, 12 *Can. Ry. Cas.* 350, at page 355; *Manitoba Dairymen's Association v. Dominion and Canadian Northern Express Cos.*, 14 *Can. Ry. Cas.*, 142, at page 148; *City of Montreal v. Bell Telephone Co.*, 15 *Can. Ry. Cas.* 118, at pages 129-135, followed.

The facts are fully set out in the judgment of Mr. Commissioner McLean, dated the 24th of April, 1919. 25 *Can. Ry. Cas.*, p. 1.

*In re* APPLICATION OF CITY OF VANCOUVER, AND VANCOUVER, VICTORIA AND EASTERN RAILWAY AND NAVIGATION COMPANY.

This was an application of the city of Vancouver to the Board for an order directing the Vancouver, Victoria and Eastern Railway and Navigation Company to remove the interlocking system at the crossing of the British Columbia Electric Railway Company on Powell street, in the city of Vancouver.

The matter was heard at a sittings of the Board held in Vancouver on February 14, 1919.

Held, Chief Commissioner Drayton in his judgment, May 13, 1919, concurred in by Mr. Commissioner Rutherford, that it was impossible to give effect to the application, and that to do so would imperil the lives of passengers in crowded street cars. Held, further, that the general public could not be placed in such a position of danger by an order of a Board charged with the duty to protect public safety. Held, further, that the cost of maintenance of the interlocking system be divided in equal proportions between the Great Northern and the Canadian National Railway Companies.

*In re* COMPLAINT OF THE BRIGHTON BOARD OF TRADE.

This was a complaint lodged with the Board by the Board of Trade of Brighton, Ont., for an order directing the C.P.R., the G.T.R. and the C.N.R. Companies to construct at Brighton interchange tracks for the purpose of handling carload traffic between the above-mentioned three railways.

The case was heard at a sittings of the Board in Toronto on the 13th January, 1919, when judgment was reserved in order to give the Grand Trunk Railway Company an opportunity to reply to certain statements made on behalf of the Dominion Cannery, Limited, and the Brighton Board of Trade.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, May 14, 1919, concurred in by Assistant Chief Commissioner McLean.

Held that the Dominion Cannery Company submit its proposed plans to the three railway companies, together with representatives of the other industries at this point, and to endeavour to see if an arrangement could not be arrived at for a consent order.

## SESSIONAL PAPER No. 20c

*In re* COMPLAINT OF THE TAYLOR MILLING AND ELEVATOR COMPANY, LIMITED, LETHBRIDGE, ALTA., *re* CLASSIFICATION OF DR. RUSK'S CHICK FOOD.

This case was heard at the sittings of the Board held in Lethbridge, Alta., February 24, 1919, when the matter was in part dealt with at the hearing.

At the hearing the companies were tentatively directed to classify the chick food commodity in question as fourth class in less than carloads and eighth class in carloads. The company subsequently put in a tariff covering the l.e.l. movement at the rate which was mentioned at the hearing.

The company objected to classifying the product in the eighth class for the carload movement. Further consideration of the matter supported the tentative conclusion previously arrived at.

Held, Chief Commissioner Drayton, in his judgment, May 20, 1919, concurred in by Mr. Commissioner Rutherford, that the reduction from third to fourth class should be sufficient for these extraneous enclosures. The facts are fully set out in the judgment referred to.

## ONTARIO PAPER COMPANY V. GRAND TRUNK RAILWAY COMPANY.

A toll of 22 cents per 100 pounds on newsprint from Thorold, Ont., to Chicago, Illinois, U.S.A., was not found to constitute an unjust discrimination or undue preference in favour of competitors in the Chicago market.

The facts are fully set out in the judgment of Mr. Commissioner McLean, dated June 26, 1919, concurred in by the Chief Commissioner, the Deputy Chief Commissioner and Mr. Commissioner Goodeve. 24 Can. Ry. Cas., p. 177.

*In re* APPLICATION OF THE TEMISCOUATA RAILWAY FOR INCREASE IN ITS STANDARD PASSENGER FARE.

This was an application of the Temiscouata Railway Company for permission to increase its standard passenger fare to four cents per mile, in conjunction with a complaint of the municipality of Ste. Rose du Degele, P.Q., against the cancellation of second-class fares by the railway company. Prior to the increase in the *Fifteen Per Cent Case*, the standard passenger fare was 3.3 cents. When the increase in the *Fifteen Per Cent Case* was made, the increase was limited to 3.45 cents, being 15 per cent on a 3-cent standard base. This allowed an increase of 3 per cent over the standard fare hitherto charged. Had the full 15 per cent on the 3.3 cent rate been allowed, it would have given a rate of 3.82 cents.

Complaint was also made of the railway having taken out its second-class fares on its main line. This was effective June 16, 1919. No application for suspension was received.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, July 25, 1919, concurred in by Deputy Chief Commissioner Nantel and Mr. Commissioner Boyce.

Held, on consideration of all material factors concerned, that a case for increasing the first-class standard fare to 4 cents per mile had been made out, and that the increased rate might become effective on compliance with the provisions of the Railway Act as to standard passenger fare publication.

Held, further, that there is no provision contained in the Railway Act as to provision for second-class fares, and that even if the Board had discretion to direct the installation of second-class fares—a point that it was not necessary to pass upon—the facts as developed in regard to cost conditions and revenues did not warrant the exercise of this discretion by way of direction for their reinstallation on the Temiscouata railway.

*Eastern Townships Lumber Company v. Temiscouata Railway Company*, 13 Can. Ry. Cas., at p. 260, referred to.

*In re* QUEBEC, MONTREAL AND SOUTHERN RAILWAY COMPANY.

The Board allowed the agents at six stations to be dispensed with and refused the application in the case of six others.

The facts are fully set out in the judgment of the Chief Commissioner, dated July 10, 1919, concurred in by the Deputy Chief Commissioner and Mr. Commissioner McLean. 24 Can. Ry. Cas., p. 229.

EXPRESS TRAFFIC ASSOCIATION V. CITIES OF MONTREAL, TORONTO, WINNIPEG, *et al.**Express Tolls Case.*

## 1. Express, Tolls, Railways, Transportation, Facilities, Payment, Organization.

Notwithstanding that express companies are in effect owned by the railways over whose lines they operate, the payments made by the express companies to the railways are to be allowed for in fixing express tolls, since the railways are entitled to payment for the transportation and facilities they afford, and the further and additional service given by the express organization must also be recognized. Under present circumstances there is no room for the claim that railway earnings are exorbitant.

## 2. Express, Railway Function, Tolls, Additional, Reasonableness, Subsidiary Company.

Express business is a railway function, and the reasonableness of express tolls is to be determined on the same basis as if the express service were rendered by the railway company itself, instead of by a subsidiary company, the introduction of an express company not justifying any additional charge. The reasonableness of the charges made by the railway company against the express company is therefore a proper subject of investigation in order to determine the reasonableness of express tolls.

## 3. Express, Tolls, Railway Service, Value, Additional, Service, Express Facilities.

In fixing express tolls, the questions to be determined are what the railway service is worth, and what amount should be added for the additional service due to express facilities.

## 4. Express, Tolls, One and a half times freight tolls plus sixty cents, Cost of Operation.

After consideration of express accounts of express companies and of railway costs, including a comparison of earnings of express cars with those of passenger, freight, and sleeping cars per car mile, the Board found that one and a half times the standard freight toll would be reasonable as a basis for the rail service included in express service; and that there might be added to this, in order to arrive at a reasonable express toll, sixty cents per 100 pounds for the additional service afforded by express facilities, this sixty cents representing the express companies' cost of operation with a small, but reasonable, profit on their activities.

## 5. Express, Tolls, Commodity, Standard Maximum, "Merchandise" Toll, Classification.

The underlying basis of express tolls is the standard maximum "merchandise" rate on which all other tolls should be predicated. Commodity tolls should be calculated at an approximate fraction of the standard toll; and the toll for bulky articles taking a higher classification by the addition of the appropriate fractions over the merchandise toll.

## 6. Express, Tolls, Higher than Freight.

Express tolls ought to be materially higher than standard first class freight tolls; should be so set out as to be easily understood; and should bear equally and fairly on all shippers under similar circumstances and conditions.

## 7. Express, Tolls, Special, Commodity, Increase, Public Interest, Financial Relief, Wagon Service, C.L. and L.C.L., Return of Empties, Unloading, Intermediate Points.

## SESSIONAL PAPER No. 20c

In refusing to allow the express companies to discontinue special "commodity" tolls, the Board took into consideration that any increase of tolls on these "commodities," which are articles of large consumption and daily necessity, would afford an excuse for further increase in cost to the consumer, out of proportion to the increased tolls allowed; that in view of present high cost of necessities of life such an increase of tolls would not be in the public interest, nor in that of the express companies themselves; that such increase would bear too hardly on the producer; and that the increase allowed in ordinary "merchandise" tolls would afford sufficient financial relief to the companies. Special directions given as to wagon service on car load and less than car load commodities; return of empties; and partial unloading at intermediate points.

## 8. Express, Tolls, "Block" System.

The Board authorized the adoption of the "block" system of stating tolls on all Canadian express lines, following a report of the chief traffic officer, explaining the system.

## 9. Board, Decisions, Intimidation, Illegal, Punishment, Contempt.

Attempts to influence decisions of the Board by intimidation or other improper methods are illegal and are punishable by proceedings for contempt.

## 10. Express, Free Delivery, Extension, Basis, Density of Population, Distance, Condition of Roads.

The Board ordered that free delivery by wagon be continued where already given, and that extensions of free delivery service be given in accordance with specific rules enumerated by the Board based on density of population, distance, and condition of roads.

## 11. "Pay Zones," Abolition, Free Delivery Limits.

The Board ordered that "pay-zones" outside free delivery limits be abolished.

## 12. Unjust Discrimination, Free Delivery, Toll, Reduction, Wagon Service.

To remove unjust discrimination due to free delivery at some points and no free delivery at others, the Board ordered a reduction of 15 cents from the toll per 100 pounds in the case of points having a one-wagon service and of 30 cents where no wagon service given.

## 13. Tolls, Express, Special Circumstances, Arbitrary Toll, Ferry Service, Through Haul.

Under the special circumstances described in the judgment, the ferry service between Prince Edward Island and the mainland should be regarded merely as an incident in the through haul, and the proposed arbitrary charge of 25 cents per 100 pounds for such service should be struck out.

The facts are fully set out in the judgment of the Chief Commissioner (Sir Henry Drayton), July 17, 1919. 25 Canadian Railway Cases, p. 61.

*In re* APPLICATIONS OF THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO.

Applications were made to the Board by the Hydro-Electric Power Commission of Ontario for authority to construct a canal and construction railway across the rights of way of the Toronto and Niagara Power Company and the Toronto, Niagara and Western Railway Company on lots 124 and 187 in the township of Stamford, province of Ontario.

These applications were heard at a sittings of the Board held in Ottawa on June 10, 1919, when the question of the Board's jurisdiction was raised by counsel for the Toronto and Niagara Power Company. The position of that company was that **not** only had the Board no jurisdiction to permit the crossings, but that the Hydro-Electric Power Commission had not the right in law to embark upon and carry out the canal power project. It was shown that an action was pending raising the question of the status of the Hydro-Electric Power Commission.

11 GEORGE V, A. 1921

The facts are fully set out in the judgment of Chief Commissioner Drayton, August 1, 1919, concurred in by Mr. Commissioner Goodeve and Mr. Commissioner Rutherford.

Held that the orders already issued were entirely without prejudice to the company's right to object to the construction of the canal as such, and the company was left with its appropriate remedy in the courts.

CITY OF MONTREAL *v.* CANADIAN PACIFIC AND GREAT NORTH-WESTERN TELEGRAPH COMPANIES

Where urban development has reached such a stage that the city's wires and poles are being placed underground, the Board will order telegraph companies to adopt underground construction for their wires at their own expense, or where the work is done by the municipality, and ducts may be rented from it, then upon such terms or rental as may be agreed upon between the parties.

The facts are fully set out in the judgment of the Chief Commissioner, dated August 1, 1919, concurred in by the Deputy Chief Commissioner and Mr. Commissioner Goodeve. 24 Can. Ry. Cas., p 226.

#### APPEALS FROM DECISIONS OF THE BOARD.

For the nine months ending December 31, 1919, there was one appeal made to the Governor in Council, and no appeals to the Supreme Court of Canada from the decisions of the Board.

With reference to the appeal to the Governor in Council, this was an appeal of the National Dairy Council of Canada on behalf of the Canadian Association of Ice-cream Manufacturers against an order of the Board, dated October 9, 1919, dismissing the application of the appellants to have ice-cream classified as food under second-class rates instead of being classified as merchandise under first-class rates. The appeal is still pending.

#### ORDERS, GENERAL ORDERS AND CIRCULARS.

The total number of orders issued for the nine months ending December 31, 1919, was 1,015. The number of general circulars issued by the Board directed to all railway companies subject to its jurisdiction for the year was 11. The general orders as distinguished from other orders issued by the Board are those affecting all railway companies subject to the Board's jurisdiction. It will be noted that the number of general orders issued by the Board for the nine months ending December 31, 1919, was 19.

A list of the general orders and circulars for the nine months ending December 31, 1919, will be found compiled under Appendix F to this report.

#### JUDGMENTS OF THE BOARD.

A summary of the principal judgments of the Board delivered between the 1st April, 1919, and the 31st December, 1919, will be found under Appendix A.

#### APPLICATIONS TO THE BOARD.

The total number of applications, including informal complaints made to the Board for the nine months ending December 31, 1919, was 2,735.

SESSIONAL PAPER No. 20c

TRAFFIC DEPARTMENT OF THE BOARD.

In the Traffic Department of the Board the number of tariffs received and filed for the nine months ending December 31, 1919, was as follows:—

|   |               |
|---|---------------|
| Freight tariffs, including supplements . . . . .                  | 19,913        |
| Passenger tariffs, including supplements . . . . .                | 8,152         |
| Express tariffs, including supplements . . . . .                  | 3,944         |
| Telephone tariffs, including supplements . . . . .                | 4,316         |
| Sleeping and parlour car tariffs, including supplements . . . . . | 142           |
| Telegraph tariffs and supplements . . . . .                       | 4             |
| Total . . . . .   | <u>36,471</u> |

The total number of tariffs filed from February 1, 1904, to December 31, 1919, was 877,094.

The details in regard to the tariffs will be found under Appendix B to this report.

ENGINEERING DEPARTMENT OF THE BOARD.

In the Engineering Department of the Board a large number of inspections were made covering the whole Dominion. These inspections for the nine months ending December 31, 1919, number 169, and cover inspections for the opening of a railway for the carriage of traffic, pursuant to the requirements of section 261 of the Railway Act, inspections of culverts, highway crossings, cattle guards, road crossings, bridges, subways and general inspections falling within the scope of the work of the Engineering Department of the Board.

OPERATING DEPARTMENT OF THE BOARD.

Under the work of this department is included the inspection of locomotive boilers and their appurtenances, the inspection of safety appliances on cars and locomotives, the investigations into accidents causing personal injury or loss of life, the reporting on the location of stations, matters of protection at highway crossings, and train and station service performed by the railway companies.

Under Appendix C will be found a full and detailed report of the Chief Operating Officer of the department.

ACCIDENTS AND ACCIDENT INVESTIGATIONS.

Owing to the fact that the report of the Board's Chief Operating Officer is for a period of nine months ending the 31st December, 1919, this being necessitated by the amendment to the Railway Act altering the date of the report of the Board from the 31st March to the 31st December in each year, it is not deemed practicable to make any comparison with previous years.

Full particulars of passengers and employees killed and injured, and other general information in regard to trespassers killed and injured, accidents at protected and unprotected crossings, etc., will be found under Appendix C.

FIRE INSPECTION DEPARTMENT OF THE BOARD.

The policy of the Fire Inspection Department of the Board, of co-operation with the various Dominion and provincial fire protective organizations, has been carried out as in previous years.

11 GEORGE V, A. 1921

A total of 1,327 fires from all causes were reported as originating within 300 feet of railway lines in forest sections subject to the jurisdiction of the Board. This is an increase of 183 fires over the figures for the preceding year. Of these fires, 504 were of an incipient nature and did no damage; 77.8 per cent are definitely attributed to railways, 4.9 per cent to known causes other than railways, and 17.2 per cent to unknown causes. A total area of 246,987 acres were burned over: 86.6 per cent of this area was burned over by fires definitely attributed to railways, 3.7 per cent by fires due to known causes other than railways, and 9.7 per cent to fires of unknown origin.

The total damage by all these fires is estimated at \$536,632; of this, the railways are charged with 95.9 per cent, while 0.4 per cent is charged to known causes other than railways, and 3.7 per cent to unknown causes. The aggregate monetary damage due to fires is \$434,216 greater than in 1918.

Under Appendix D will be found a full and detailed report of the Chief Fire Inspector.

## ROUTINE WORK OF THE BOARD.

### RECORD DEPARTMENT.

Since the publication of the last annual report there has been no change in connection with the clerical staff of this department.

Below is given a table setting forth the number of applications filed, and letters received, during the nine months ending December 31, 1919, together with the number of orders issued:—

|   |        |
|---|--------|
| Number of applications made.. . . . .           | 2,735  |
| “ “ filings received during the year.. . . . .  | 26,109 |
| “ “ out-going letters during the year.. . . . . | 17,502 |
| “ “ orders issued during the year . . . . .     | 1,012  |

SESSIONAL PAPER No. 20c

STATEMENT showing the applications made to the Board under the various Sections of the Railway Act, for the nine months ending December 31, 1919.

## APPENDIX A.

PRINCIPAL JUDGMENTS OF THE BOARD FOR THE NINE MONTHS  
ENDING DECEMBER 31, 1919.*Re* CANADIAN PACIFIC TRAIN SERVICE

The Board has had before it the question of train service given by the Canadian Pacific Railway on—

- (1) Suffield-Lomond Branch, which runs out of Suffield into Lomond, Alberta.
- (2) Irricana-Bassano subdivision, which runs southeast from Irricana to Bassano, a point on the main line.
- (3) Sterling-Manyberries Branch, which runs out of Sterling to Manyberries.
- (4) Langdon Subdivision, having regard to movement from Langdon, Irricana, and Acme.

The present schedules of the company were reduced and the earnings were such that the reduction was justifiable during the past winter. Conditions have now changed and better service is required to enable proper development during the ensuing season.

The present service on the Suffield-Lomond Branch consists of one mixed train a week. This service now ought to be improved, and the old service which consisted of two trains a week restored.

Irricana-Bassano subdivision. The same considerations should apply here. The present service is one train a week. The old schedule which called for two trains a week should be again put in force.

On the Sterling-Manyberries Branch the old service of two trains a week should be restored.

The complaints from Keoma and Dalroy, on the Langdon Subdivision, is that the present mail service is entirely insufficient. At the present time there is no mail service between Wednesday and Saturday. With the restoration of a service consisting of two trains a week between Calgary and Bassano via Irricana, settlers on this line will have four trains a week.

Their complaint is, therefore, answered by the action above indicated. New train schedules ought to become effective within one week.

APPLICATION OF THE CITY OF TORONTO *re* TORONTO TERMINALS RAILWAY COMPANY

Application was made by the corporation of the city of Toronto for leave to appeal under section 56 of the Railway Act. The application was opposed by the Toronto Terminals Railway Company, that company objecting entirely to any question being submitted.

While it is true that no answer whatever was made to the application on its merits, that the city is protected, and that railway operations in the city terminals can be carried on more cheaply than they otherwise would, the Board was of the opinion that leave ought to be given.

The position, is that while the present order may not injure the city, it fears it may establish a precedent to enable other structures to be built and placed upon public highways under circumstances which might injure the municipality. While the Board cannot conceive of this happening in connection with the operations of the Toronto Terminals Company, and while in the past orders have been made without any question as to the right of the Board to make them, carrying conduits under rail-

## SESSIONAL PAPER No. 20c

way tracks, I would follow the Board's settled practice of granting leave to appeal to the Supreme Court of Canada on any legal question on which the Board's final adjudication depends and which is debatable.

Under the circumstances, and in view of the merits as stated at the hearing of the application, no stay of proceedings will be granted. The parties have agreed on the form of question to be submitted, as follows:—

“Whether the judgment of the Board, as set out in the reasons for judgment, was right in determining that the Railway Act, Revised Statutes of Canada, 1906, chapter 37 (as amended), and particularly sections 2 (21), 151 (*k*), 235, and 237 thereof, and 6 Edward VII, chapter 170 (Canada) confer upon the Toronto Terminals Railway Company the right, subject to the approval of the Board, to construct upon the highways of the city of Toronto the works authorized by the order of the Board.”

Order issued accordingly.

APPLICATION OF CITY OF BRANTFORD *re* SUBWAY ST. PAUL'S AVENUE, BRANTFORD, GRAND TRUNK RAILWAY COMPANY.

This was an application of the city of Brantford for an order directing that the proposed subway at St. Paul's avenue, Brantford, under the tracks of the Grand Trunk Railway Company, be a vehicular subway, including sidewalks for pedestrian traffic, and that the Grand Trunk Railway Company bear the additional expense should the subway be built to accommodate the future requirements of the company.

The application was heard at a sittings of the Board held in Ottawa on July 8, 1919. In so far as the legal position of the parties was concerned that question was dealt with in the judgment of former Assistant Chief Commissioner Scott on a previous application made by the city and heard in Hamilton on April 12, 1917, authorizing the construction of a subway for pedestrians.

The facts are fully set forth in the judgment of Chief Commissioner Drayton, dated August 1, 1919, concurred in by Mr. Commissioner Goodeve. Held that under the circumstances the movement in the railway company's interest would be confined to the necessary movement on the double track in and out of Brantford, and that at present there was no condition that would render other tracks over the subway necessary, conformable to good railway practice. Held, further, that if it became necessary the matter could be dealt with on an application made subsequently by the railway company to the Board, and that for the present the Board would approve the plans of the city providing merely for a two-track subway.

APPLICATION OF THE NATIONAL ELEVATOR COMPANY, LIMITED, WINNIPEG, MAN., *re* ABSORPTION OF SWITCHING CHARGES.

This was an application of the National Elevator Company, Limited, of Winnipeg, Man., for a ruling of the Board in the matter of absorption of switching charges by a railway company in cases where a car of grain is shipped from the applicants' elevator at Port Arthur, on the Canadian National Railways, and then switched over to the Canadian Pacific Railway and billed to Cartier for orders, the applicants paying a stop-off charge and then rebilling the car to Montreal or Quebec as destination.

It appeared that the grain could be shipped from any elevator on the Canadian National Railways at the head of the lakes to Capreol, with the privilege of being held at that point for orders for furtherance to destination; also, in like manner, all grain in elevators served by the Canadian Pacific Railway Company might be forwarded to Cartier with the like privilege. It further appeared that grain so forwarded had

11 GEORGE V, A. 1921

not to be interswitched; that no unnecessary rail service had to be performed and that at certain periods the head of the lake terminals of both systems were busy and the grain movement most intensive. It was also shown that the present issue related to cars moved off the terminals of the one line to the tracks of the other for the eastern movement with the right of stop-off.

The facts are fully set out in the judgment of Chief Commissioner Drayton, dated August 1, 1919, concurred in by Deputy Chief Commissioner Nantel and Commissioners Goodeve and Boyce, holding that there was no discrimination between the shippers and that like privileges were open to all, and all shippers to a stop-off point receive the same treatment, and that the application should be dismissed.

APPLICATION OF THE DOMINION MILLERS' ASSOCIATION *et al* FOR REVISION OF RULE NO. 9,  
BOARD'S GENERAL ORDER NO. 201.

This was a complaint made by shippers and consignees who desired that the present demurrage tolls should be decreased. No complaint was made as to the basis of the present tariff. On the other hand, shippers thought it more equitable than the tariff in force in the United States. The whole question, therefore, was one of the amount.

The application was opposed by the railway companies, who were desirous of getting as many cars as possible on hand for the grain movement and of keeping terminals as free as possible, so as to prevent congestion and blocking the movement.

The facts are fully set forth in the judgment of Chief Commissioner Drayton, dated August 1, 1919, concurred in by Commissioners Goodeve and Boyce, holding that in the public interest no reduction could be made under the existing circumstances, and that the application should be dismissed.

APPLICATION OF THE CANADIAN PACIFIC RAILWAY COMPANY TO RESCIND ORDER OF THE BOARD  
*re* OAKVILLE TRAIN SERVICE.

This was an application of the Canadian Pacific Railway Company to the Board for an order rescinding Order No. 27688, dated September 16, 1918, in the matter of the stoppage of the company's train No. 821 at Oakville, Ont.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated August 8, 1919, concurred in by Mr. Commissioner Boyce, granting the application.

APPLICATION OF J. L. ATKINSON, KILGARD, B.C., FOR FARM CROSSING, VANCOUVER, VICTORIA  
AND EASTERN RAILWAY.

This was an application of J. L. Atkinson, of Kilgard, B.C., for an overhead farm crossing over the tracks of the Vancouver, Victoria and Eastern Railway and Navigation Company.

The facts are fully set out in the judgment of former Assistant Chief Commissioner Scott, dated June 26, 1918, concurred in by Chief Commissioner Drayton and Commissioner Goodeve, dismissing the application, Commissioner Boyce dissenting.

APPLICATION OF CANADIAN PACIFIC RAILWAY COMPANY FOR RESCISSION OF BOARD'S ORDER NO.  
26671.

This was an application of the Canadian Pacific Railway Company for reconsideration and rescission of the Board's Order No. 26671, dated October 22, 1917, in connection with switching charges on cars at Drumheller, Alta.

The order referred to was issued in accordance with the judgment of Mr. Commissioner Goodeve, concurred in by Chief Commissioner Drayton, based on the evidence as submitted at the hearing in July, 1916, at the sittings of the Board held at Calgary.

## SESSIONAL PAPER No. 20c

The company were given an opportunity to file a statement showing the practices which in fact apply in connection with other private sidings, and at the coal mines, and the company filed its memorandum covering these points, dated at Winnipeg, November 23, 1917. On receipt of this memorandum the whole matter was referred to the Board's Chief Traffic Officer with a direction to make a careful study of the whole situation and submit his report to the Board as of the above information, as well as previous evidence taken. Following this direction the Board's Chief Traffic Officer made a carefully considered report on December 5, 1917, in which he recommended for adoption a revised basing scale.

The facts are fully set out in the judgment of Commissioner Goodeve, dated August 21, 1919, concurred in by Commissioner Rutherford, holding that the rates and conditions as set forth in the Chief Traffic Officer's report were fair and reasonable and should be adopted by the Board, and that an order should be issued accordingly.

APPLICATION OF BROCKVILLE MOULDING SAND COMPANY, LIMITED, *re* GRAND TRUNK RAILWAY SIDING.

This was an application made by the Brockville Moulding Sand Company, Limited, of Montreal, for an order directing the Grand Trunk Railway Company to construct a spur for the applicant company to serve its property on the Bresse farm, two and one-half miles west of Brockville, the farm being situated on lot 22, first concession of the township of Elizabethtown.

Objection was taken by the Grand Trunk Company to the construction of the spur on the grounds that the siding involved a break in their main line between stations and that the proposed connection was on a very busy part of the line running off a curve, and that in addition it was on a one per cent grade descending with the current of traffic. It was proposed by the railway company that instead of the connection as asked for a siding leading from the connection with the company's tracks at the west end of Manitoba yard and extending parallel and adjoining the eastbound main line for a distance of about one mile be constructed.

The facts are fully set forth in the judgment of Assistant Chief Commissioner McLean, dated September 4, 1919, concurred in by Deputy Chief Commissioner Nantel and Mr. Commissioners Goodeve and Boyce.

Held that in the general interests the opening up of the deposit of moulding sand in question should be allowed and the application granted. Held, further, that whatever protection, if any, which may at any future time be found necessary by the Board, must be provided and maintained at the expense of the applicant company, its successors or assigns. Held, further, that the disposition made was without prejudice to any application which might at any time be launched by the municipality in regard to the operation or location of the spur.

APPLICATION OF THE VANCOUVER ICE AND COLD STORAGE CO., LIMITED, *re* CANADIAN PACIFIC RAILWAY SIDING.

This was an application for leave to terminate the siding agreement between the Canadian Pacific Railway Company and the Vancouver Ice and Cold Storage Company, Limited, the removal of the spur being necessary owing to the double track of the Canadian Pacific into Vancouver, which constituted a proper development of the railway facilities. As the spur in question was built upon the company's statutory right of way and was also so placed as to interfere with the double track, and as the width of the right of way did not permit the laying of another private spur, there was no room on the railway property to accommodate another private siding. Two matters were involved in the application: (1) the question of affording facilities to the Vancouver Ice and Cold Storage Company, and (2) the distribution of cost as between the parties.

11 GEORGE V, A. 1921

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated September 5, 1919, concurred in by Commissioners Goodeve, Rutherford and Boyce.

Held that under all the circumstances involved the offer made by the railway company was a reasonable one and that the application for removal be granted.

APPLICATION OF THE CANADIAN NORTHERN RAILWAY COMPANY *re* CROSSING EAST OF VILLAGE OF MCGEE, SASK

This was an application of the Canadian Northern Railway Company for an order amending the Board's Order No. 19686, dated June 25, 1913, by providing that the cost of construction and maintenance of the crossing east of the village of McGee, in the province of Saskatchewan, be placed upon the municipality and the Canadian Town Properties, Limited, successors in title to Messrs Mackenzie, Mann and Company, Limited.

By order of the Board No. 19686, referred to, the Canadian Northern Railway Company was authorized to construct a highway across its line at McGee townsite, in the northwest  $\frac{1}{4}$  of section 19, township 29, range 16, west of the third meridian, at its own expense.

The facts are fully set out in the judgment of Mr. Commissioner Rutherford, dated September 8, 1919, concurred in by Assistant Chief Commissioner McLean.

Held that in consideration of all the circumstances, including the close relations during the entire period, between the railway company and the townsite company, and especially of the small expenditure required and on the special facts involved, the Board was justified in insisting on the enforcement of its Order No. 19686 as originally issued, and that the application of the railway company be dismissed.

COMPLAINT OF THE TORONTO BOARD OF TRADE, *et al.* *re* INCREASED RETURN PASSENGER FARES

This was a complaint of the Toronto Board of Trade and Border Chamber of Commerce, Windsor, Ont., against the increased return passenger fares put into effect by the railroad companies on February 1, 1919.

It appeared that the railways of Canada had for a considerable period of time provided round-trip passenger rates at a reduction of one-sixth off the sum of the individual rates; that this practice had been amended, effective February 1, 1919, by limiting the reduction to ten per cent. The passenger rate practice involved developed, no doubt, as a means of building up traffic. In the case of round-trips between points served by two or more lines of railway the reduction from the sum of the rates held the traffic inbound to the line on which it had moved out. The practice, however, was general, not being limited to competitive situations.

The Board has approved standard passenger rates which are legally filed and published. The question is now raised whether this having been done the Board has power, in respect of traffic moving on said rates, to direct that a round-trip rate shall enjoy a charge less than the sum held lawful where each portion of the journey is performed as an isolated unit, having no connection with a return.

It was contended, on the other hand, that the round-trip arrangement is a special rate arrangement, and that where such a rate arrangement has once been put in by a railway the Board has the same jurisdiction.

*In re* SPECIAL FREIGHT TARIFFS GOVERNING WEIGHING OF CARLOAD TRAFFIC AND ALLOWANCES IN TRACK SCALE WEIGHTS.

The Board has had before it for consideration the matter of special freight tariffs governing the weighing of carload traffic and allowances in track scale weights, and the cancellation of allowance of 1,000 pounds dunnage on agricultural imple-

## SESSIONAL PAPER No. 20c

ments, machinery, stoves, street cars, vehicles, etc., on box or stock cars in the tariffs proposed to become effective May, 1911.

At the hearing of this matter in Toronto on April 25, 1911, the late Chief Commissioner Mabee directed that the effective date of these tariffs be postponed from the 1st day of May to the 1st day of July, 1911, and in accordance with this direction Order No. 13520 of April 27, 1911, was issued.

On complaint against this order a hearing was held in Ottawa on June 20 and 21, 1911. At this hearing the matter was gone into very exhaustively, all the various railways being represented as well as the Canadian Manufacturers', the Canadian Lumbermen's, and the Montreal Lumbermen's Associations. A large number of witnesses were heard on behalf of both the shippers and the railway companies.

As a result of this hearing a judgment was issued by the late Chief Commissioner Mabee under date of July 14, 1911, in which Commissioner McLean concurred; and Order No. 14389 of July 25, 1911, was issued based on this judgment.

The effect of these orders was to indefinitely postpone the effective date of the Tariffs C.R.C. No. E-2312, G.T.R., and C.R.C. No. E-2067, C.P.R.

Upon the application of the Canadian Freight Association for a ruling of the Board as to the proper allowances to be made for track scale weights on various commodities, this matter was again taken up and a hearing held at Ottawa on March 18, 1913.

The result of the cancellation of the Tariffs above referred to was that the allowance made in the Tariffs of the carriers previous to May 1, 1911, were continued in effect. Similar provisions are in effect to-day.

It will be seen by a comparison of the foregoing that the proposals of the carriers was to do away with allowances for blocking, dunnage, and temporary racks used in connection with the bulk of the freight shipments in cars covered by these tariffs.

Dealing first with the question of dunnage:—

“Free transportation of dunnage in closed cars is obviously based on two principles: (1) that the dunnage constitutes a part of the carrier's equipment and as such is not subject to a transportation charge, or (2) that the charges for the transportation of dunnage in cars are included in the charges for the transportation of the commodity in connection with which it is used.”  
52 I.C.C. *Aetna Explosives Company v. Pennsylvania Railroad Company et al.*

The whole controversy revolves around the principles set out in the above quotation, the shippers contention being that dunnage is not only for the protection of the goods, but that it is a protection against damage in transit; that decks have to be put in, in order to enable the shippers to load to the minima established by the tariffs of the railways; that the railways are benefited in that dunnage has the effect of reducing damage claims to a minimum, and enables loading to capacity, so that the companies receive greater earnings per car. They argued that the shippers furnished the material and labour as their share, and the carriers should furnish the transportation.

The carriers answered “that if these goods could be completely boxed as in package freight, then shippers would pay, in addition to the cost of labour and material for casing or boxing, the freight on the weight of the material used at the same rate as on the goods.” They contended that standard box, stock, ventilator, and refrigerator cars, in good repair, will accommodate all the ordinary and usual needs of shippers, and that if more than this is demanded because of the form, nature or peculiar characteristics of the goods tendered for conveyance, some obligation must attach to the shipper in connection with the additional demand.

I do not think, however, that this answer altogether meets the situation, nor covers the conditions involved.

Most of these carload goods are wholly or partially crated or boxed by or at the expense of the shipper. Stoves were instanced as being completely crated, and that this crating was sufficient to enable them to be safely hauled and handled to and from the cars. In reply to a question by the Hon. Mr. Mabee, vol. 129, p. 4861, it was stated that these stoves were reshipped l.e.l., without any additional packing or crating, to the various stove dealers, the dunnage having been used to enable them to be loaded to the required minimum and to protect them from damage in transit in carload lots.

This condition would apply more or less to all classes of merchandise in question shipped in carload lots and requiring dunnage.

The shippers argued further that these things are necessary for the purpose of moving this particular form of traffic; that the railways had recognized this necessity and had made these allowances, and that as a result of the practice, continued for many years, traffic had grown up under it; that it was mutually beneficial to the shippers and railways, and that it should not now be withdrawn.

Mr. Beatty stated at p. 2041, vol. 173, of the evidence, that "it has been admitted by all parties all the way through this inquiry, that no one of them wanted to collect any more or less than was absolutely proper in the circumstances." This statement was not disputed, and may be accepted as the attitude of both the shippers and the carriers.

The question now resolves itself into what is a fair allowance to be made. At present there is an allowance of 1,000 pounds per car. The railways wanted this reduced to 500 pounds, and the shippers were willing to accept 800 pounds, as the maximum. Mr. Walsh, for the Canadian Manufacturers' Association, contended that 800 pounds was a fair average. Mr. Beatty disputed this. No conclusive evidence is on file as to this.

After careful consideration of all the arguments as set forth at the various hearings, and on file with the Board in connection with this matter; and in view of the long-standing practice voluntarily put into effect by the carriers, and the selection of certain commodities upon which, no doubt, because of their peculiar characteristics the carriers felt it was in the interest of traffic to make these allowances; and because these have undoubtedly proved a factor in the wider distribution and more general use of those commodities at a lesser cost to the public, I am of the opinion that some allowance should continue to be made.

If the actual weight were always obtainable I think it should be allowed, but for reasons already pointed out it has been found that this is not always possible.

Under all the circumstances I think the allowance for dunnage should be for the actual weight thereof, subject, however, to a maximum allowance of 650 pounds per car, provided that in no case should less than the established minimum carload rate be charged; this maximum to apply to agricultural implements, machinery, stoves, street cars, and vehicles, as set out in rule 24 of Supplement 7 of the Canadian Pacific's Tariff previously referred to. I see no reason why the same rule should not also apply generally to acid in carboys; also to such other articles as may be shown from time to time to require dunnage protection.

Secondly: allowances to cover variation in tare of cars caused by absorption of moisture, accumulation of ice, snow, etc.

In my opinion, shrinkage in weight due to the inherent nature of the goods should not be charged against the carrier; first, because if the car is loaded to capacity at starting, the carriers haul the full weight a certain distance, and any reduction at the end would be equivalent to giving a certain amount of free tonnage. It cannot be said that the reduction represents the average weight hauled, for this will differ with the condition at time of loading, distance hauled, temperature and general weather conditions; second, and I think more important, the carrier is deprived

## SESSIONAL PAPER No. 20c

of the full earning capacity of the car. This principle is recognized in section F of rule 8 of Circular No. 1433 of the American Railway Association. I would apply the same remarks to wood-pulp (wet).

On the other hand, I see no reason why any allowance made to cover variation of the tare of cars caused by absorption of moisture, accumulation of ice, etc., should not apply. This will be dealt with farther on.

Bark: The present allowance runs from 500 to 2,500 pounds, depending on the season of the year and the class of car used. These allowances, in the case of open cars, include the racks, with which I deal later. The suspended tariffs made no allowance for car variations, and left the deduction for snow, etc., to the weighman's judgment.

Lumber and other rough forest products: from 500 to 1,000 pounds. In the suspended tariffs the situation (racking omitted) was the same as in the case of bark.

Rule 8, section E of A.R.A. Circular 1433 already referred to is as follows:—

“The tolerance shall be one per cent (1%) of the lading, with a minimum of 500 pounds *on all carload freight*, including coal and coke, except that when ashes, cinders, clay, dolomite, ganister, gravel, mill-scale, ore, sand, slag, all stone (not cut), and similar bulk freight, brick and soft drain tile are loaded in open cars, the tolerance shall be one per cent (1%) of the lading with a minimum of 1,000 pounds.”

It will be seen that under this rule there is an allowance for tolerance upon all carload freight of one per cent (1%) of the lading, subject to a minimum of 500 pounds; while upon certain heavy low-priced commodities, loaded on open cars, the minimum is fixed at 1,000 pounds.

Under this ashes (and I would here call attention to the fact that the tariff does not specify the kind of ashes, but presume wood ashes loaded in box cars is meant), would receive a minimum allowance of 500 pounds against the present allowance of 500 to 1,000 pounds, depending on season. (If furnace ashes are assumed, if loaded in open cars the minimum would be 1,000 pounds.)

Bark, in like manner, when loaded in box cars would receive a tolerance minimum of 500 pounds, and the same for open cars. The present allowance is 500 pounds for box cars, and from 1,000 to 2,500 pounds for flat or gondola cars, the latter, however, including the racks, etc.

Lumber and other rough forest products would also receive a minimum allowance of 500 pounds, when loaded in box cars, against the present absolute allowance of 500 pounds, or when loaded on flat or gondola cars an additional 500 pounds, making a total minimum of 1,000 pounds as against the present maximum of 1,000 pounds.

Wood-pulp (wet) would receive a minimum of 500 pounds compared with the present allowance of 1,000 pounds.

Therefore, in view of the fact that rule E above quoted is general in its application and would do away with all question of discrimination; that it is in general use in the United States, and that it would be in the interest of uniformity of practice, I would adopt it, in lieu of the present allowances, to cover variations in tare of cars caused by absorption of moisture, accumulation of ice, snow, etc.

Thirdly: Perishable freight in box or stock cars lined with lumber by the shipper: Present allowance 1,500 pounds, with an additional allowance of 500 pounds when containing stove and fuel. I think this clearly comes under the first of the two principles cited upon which dunnage allowance is herein based, viz., that dunnage constitutes a part of the carrier's equipment and, as such, is not subject to transportation charges.

Undoubtedly, under the facility clauses of the Railway Act, it is a duty of the carriers to furnish proper cars for the safe and adequate handling and carrying of

11 GEORGE V, A. 1921

these commodities. I do not think this is disputed by the carriers, as in the tariffs disallowed they make provision for this. I would adopt this rule, which is as follows, as appearing in G.T.R. tariff C.R.C. No. E.2312, rule 10 (c):—

“(c) Allowance will be made for the weight of lumber required to line box cars loaded with perishable freight, in earloads, provided consignor makes declaration on bill of lading at shipping point as to the number of feet so used, such allowance to be computed at 2½ pounds per foot board measure, but not to exceed a weight based on 800 feet board measure, per car. Agent at shipping point will make notation on waybill showing the number of feet so used. An additional allowance of 500 pounds per car will be made for stove and fuel. No allowance to be made when refrigerator cars are used.”

Fourthly: In regard to the “500 pounds per car allowance made for the weight of standards, strips, stakes, supports and temporary racks on flat or gondola cars if loaded with shipments requiring their use, in addition to such allowances as are already provided in their tariff,” apparently there is no dispute, a similar allowance having been made in the disallowed tariffs. It is also the same as rule 19-B of the Official Classification.

Bark, owing to its peculiar physical characteristics of form and weight, when loaded on flat or gondola cars, requires special protection for safety in shipping. The usual practice is to provide for this by means of permanent or temporary racks. The carriers, recognizing this necessity, have provided in their tariffs allowances to cover the weight of these racks. Owing to the fact that tolerance is included in the amounts named, it is a little difficult to decide just what the allowance in the present tariff is.

I have concluded, however, from an analysis of the tariffs that the amount allowed for the weight of permanent racks is 1,000 pounds, and for temporary racks 1,500 pounds, the balance named being for tolerance; the difference in the allowance made between permanent and temporary racks probably being accounted for by the fact that rough temporary racks would weigh more than the permanent racks. In the tariffs disallowed an allowance of 1,000 pounds weight per car was made for temporary racks on flat or gondola cars loaded with shipments of bark. It is evident the carriers recognized that the average weight of these racks is greater than the average weight of standards, strips, stakes, etc., used with the shipment of other forest products.

I am of the opinion that the rule in the disallowed tariffs making an allowance of 1,000 pounds for temporary racks should be adopted, this in addition to the allowance for tolerance.

Where permanent racks are used they should be included in the tare of the car, if not so included the same allowance should be made.

The facts are fully set forth in the judgment of Mr. Commissioner Goodeve, dated September 9, 1919, concurred in by Chief Commissioner Carvell, Assistant Chief Commissioner McLean and Mr. Commissioner Boyce.

COMPLAINT OF THE KILGOUR MANUFACTURING COMPANY, HAMILTON, ONT., *re* GRAND TRUNK RAILWAY CAR RENTAL.

This was a complaint of the Kilgour Manufacturing Company, of Hamilton, Ont., in connection with bills presented by the Grand Trunk Railway Company for car rental which accrued owing to the original charges on the car being held in dispute with the railway company and unpaid by the consignee.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated September 13, 1918, concurred in by Chief Commissioner Drayton.

Held that sufficient facts have not been submitted by the complainants to justify the Board in granting the relief asked for.

## SESSIONAL PAPER No. 20c

*In re* APPLICATION OF THE QUEBEC, MONTREAL AND SOUTHERN RAILWAY COMPANY TO INCREASE PASSENGER RATES.

This was an application of the Quebec, Montreal and Southern Railway Company for permission to increase from 3.45 cents to 4 cents per mile the rate shown in tariff C.R.C. No. 262 as standard passenger fare between all stations on the company's line in Canada.

The matter came on for hearing at the sittings of the Commission when a large amount of statistical detail was submitted bearing upon the condition of revenues and expenses of the company up to the end of November, 1918. During the year 1918 a very considerable increase in freight revenues was shown, this being due to war conditions, the item of coal tonnage being a matter of importance. In this connection the traffic was not a regular one and it was, therefore, justifiable to have before the Board a situation in which the traffic was more normal, and to consider costs in connection with the handling of such more normal traffic.

The railway has a main line mileage of 191 miles. The application being one relating to passenger fares and concerned with the costs of the passenger traffic, this phase of the situation must have special attention directed to it. At the same time, an analysis of general revenues and expenses is of value as showing the condition of the road.

The railway has not during the last five years or more given any return upon the capital invested in the road. The whole question has been one of whether operating revenues would met operating expenses. It was stated at the hearing that the railway had not at any time made any return upon the capital invested. This being so, in the analysis which is made all reference is omitted to return on capital invested. That is not to say that the latter is not a legitimate factor to consider in connection with rate matters. It manifestly is a legitimate factor. At the same time, it should be pointed out that the contention of the railway did not direct itself to the matter of returns upon capital; it concerned itself with the allegation that there should be a closer approximation between operating revenues and operating expenses. A statement of the investment in the road and equipment submitted by the railway as of September 30, 1918, gives a total of \$7,554,656, being made up of investment in road \$5,634,602, investment in equipment \$1,920,003. Fractional amounts are omitted.

In order to understand the general situation of this line, the period from 1913 is taken. At the hearing, returns were submitted showing the condition by fiscal years down to 1917, and showing an average annual deficit during this period of \$70,000. Figures have also been submitted for the calendar years down to 1918, and detail has been supplied for the first seven months of 1919.

The facts are fully set forth in the judgment of Assistant Chief Commissioner McLean, dated September 17, 1919, concurred in by Deputy Chief Commissioner Nantel, holding that on due consideration of the various factors concerned, the conclusion is unavoidable that the burden of proving that the increase in rate in question is justifiable has been successfully borne by the railway company; and that an order should, therefore, go authorizing the increase in the standard rate, subject to compliance with the terms of the Railway Act.

COMPLAINT OF THE HENDERSON FARMERS' LIME AND PHOSPHATE CO., WOODSTOCK, ONT.,  
*re* RATES ON AGRICULTURAL LIMESTONE.

This was a complaint of the Henderson Farmers' Lime and Phosphate Company, of Woodstock, Ont., against the proposed increase in rates on agricultural limestone. The complainants based their protests on the following facts:—

- 1st. The Railway Companies have been granted four increases in the past two years amounting in all to 60 per cent.

11 GEORGE V, A. 1921

- 2nd. Such increases have militated against their business to an alarming extent and a further increase will simply close their plant altogether.
- 3rd. The rates at present in force are out of proportion to the value of the goods.

By Order No. 28073, dated February 5, 1919, and upon it appearing that a similar advance in rates to that involved in this application was proposed from Beachville, Ont., provision was made for the suspension of Grand Trunk Railway Company's Supplement No. 16 to Tariff C.R.C. No. E-4024, and the cancellation of item 195 in the Canadian Pacific Railway Company's Supplement No. 14 to Tariff C.R.C. No. E-3551.

The matter was subsequently set down for hearing in Toronto and was also heard at a later date in Ottawa to consider, *inter alia*, additional evidence put in by Mr. Walsh on behalf of the Canadian Manufacturers' Association. Evidence was also given by Mr. Essery for the Crushed Stone, Limited, of Kirkfield, Ont.

Since the final hearing, additional communications have been submitted both by the Crushed Stone, Limited, and by the Henderson Farmers' Lime and Phosphate Company. Communications have also been received from the railways. The matter is now ripe for judgment.

On February 15, 1918, there was a hearing in Toronto on the application of the Henderson Farmers' Lime and Phosphate Company, of Woodstock, Ont., for lower rates on agricultural stone dust, in carloads, from Beachville, Ont., to various points, than the commodity rates then in force.

Judgment in this matter issued holding that the existing rate basis was found not to be unreasonable, and Order No. 27378 issued in due course. Detail as to the nature and use of agricultural limestone is set out in the judgment.

Held, Assistant Chief Commissioner McLean, in his judgment, dated October 1, 1919, concurred in by Deputy Chief Commissioner Nantel and Commissioners Goodeve and Rutherford, that the further increases proposed had not been justified.

APPLICATION OF THE NEW BRUNSWICK RAILWAY COMPANY TO CONSTRUCT TWO INDUSTRIAL SIDINGS, TEMISCOUATA RAILWAY.

This was an application of the New Brunswick Railway Company, operated by the Canadian Pacific Railway Company, under sections 222, 227 and 237 of the Railway Act, to construct two industrial sidings at Mileage 56.8, Edmundston Subdivision, in the town of Edmundston, N.B., and in doing so, it will be necessary to cross the main line of the Temiscouata railway at that point, to reach the pulp-mill of the Fraser Companies, Limited, situate about half a mile west of the proposed crossing.

The facts are fully set out in the judgment of Chief Commissioner Carvell, dated October 3, 1919, concurred in by Assistant Chief Commissioner McLean, Deputy Chief Commissioner Nantel, and Mr. Commissioner Rutherford.

Held that the applicants have the right to cross the tracks of the Temiscouata under the direction and to the satisfaction of the Chief Engineer of the Board, reserving to the Board the right, at any future time, to make any additional order for the protection of trains or the public at this particular point. Held, further, that the cost of placing the diamond should be borne by the applicant company.

COMPLAINT OF THE CANADIAN MANUFACTURERS ASSOCIATION *re* GENERAL ORDER NO. 162.

Complaint was made by the Canadian Manufacturers' Association that the conditions of contract with telegraph companies imposed no obligations or penalties for failure to transmit messages received by the company for transmission, and provision was sought (by amendment to the conditions of traffic sanctioned by Board's Order

## SESSIONAL PAPER No. 20c

No. 162, of the 30th March, 1916) for the imposition of penalties for non-delivery, in such cases as are due to gross negligence of the telegraph company, even though the message is not repeated.

The whole wide question of the liabilities attaching to telegraph companies, involving the point complained of, was fully considered by the Board upon the application which resulted in the order above referred to (No. 162). The question was further, incidentally, considered by the Board on the application of the Great North Western Telegraph Company, the Canadian Pacific Railway Company's Telegraph, and the Grand Trunk Pacific Telegraph Company, for an order approving conditions varying those approved by the Board by Order No. 162, the object of such application being to vary the conditions so sanctioned in a manner which would more fully relieve the telegraph companies from liability, to sender or addressee, whether from negligence or otherwise, in respect of receipt, transmission, and delivery of messages.

The facts are fully set out in the judgment of Mr. Commissioner Boyce, dated October 7, 1919, concurred in by Chief Commissioner Carvell, Assistant Chief Commissioner McLean, and Deputy Chief Commissioner Nantel, dismissing the complaint.

APPLICATION OF CITY OF TORONTO *re* APPORTIONMENT OF COST OF ALTERATIONS TO MAINS OF CONSUMERS' GAS COMPANY, OF TORONTO.

This was an application of the corporation of the city of Toronto for an order apportioning the cost of alterations to the mains of the Consumers' Gas Company, of Toronto, necessitated by the construction of subways at Yonge street, Avenue road, Bathurst street, Davenport road, Howland avenue, Spadina road, Shaw street, Christie street, Dovercourt road and Ossington avenue, in connection with the North Toronto grade separation work.

The facts are fully set out in the judgment of Chief Commissioner Carvell, dated October 16, 1919, concurred in by Assistant Chief Commissioner McLean, Deputy Chief Commissioner Nantel, and Mr. Commissioner Goodeve.

Held that the work in question was simply a matter of contract between the two corporations, and that the Board, therefore, should not interfere after the matter had been closed to force the Consumers' Gas Company to repay moneys which were paid to them by contract and even after a discussion had arisen between the respective parties as to their right to a contribution from the Consumers' Gas Company, should the Board so desire, and that the application should be dismissed.

COMPLAINT OF THE WOODSTOCK BOARD OF TRADE, *re* RATE ON COAL, CANADIAN PACIFIC RAILWAY.

This was a complaint made by the Woodstock Board of Trade, N.B., against the rate charged by the Canadian Pacific Railway Company on coal from Minto, N.B.

The matter was heard at the sittings of the Board held in St. John on July 22, 1918, and at the hearing not only were the coal rates from Minto attacked, but also coal rates from Bangor to Woodstock. Subsequent to the hearing the Hartt Boot and Shoe Company, of Fredericton, intervened, as well as the Canadian Manufacturers' Association on behalf of the Hartt Company; and at the request of the Association, who desired to go further into the matter, the matter was held over for subsequent disposition.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated August 21, 1919, concurred in by the Deputy Chief Commissioner Nantel and Mr. Commissioners Goodeve and Boyce.

Held that while the Fredericton Grand Lake Coal and Railway Company was to be a work for the general advantage of Canada its corporate entity was not eliminated, and that consequently the interline movement as between the Fredericton Company and the Canadian Pacific Railway Company must be treated as a two-line haul.

11 GEORGE V, A. 1921

Held, further, that when the provisions of the Railway Act as to the filing of standard tariffs had been complied with and joint rates had also been put in, that the matter would be gone into further, and that if the rates so filed did not satisfactorily take care of the situation, the Board would afford an opportunity for a further hearing.

COMPLAINT OF ROBERT PATTERSON, STAMFORD, ONT., *re* GRAND TRUNK RAILWAY CHARGES ON SAND AND GRAVEL.

This was a complaint of Robert Patterson, of Stamford, Ont., against the charge of 50 cents a ton on sand and gravel from his pit in Stamford to Niagara Falls, Ont., imposed by the Grand Trunk Railway Company.

It was pointed out, on behalf of the complainant, that the old rate had been 20 cents per ton, and had been in effect for some fifteen years; and that this rate had been increased to 50 cents per ton, making it prohibitive for them to do business at this rate. The Grand Trunk Company did not dispute the fact but pointed out that the increases had been the result of general increases throughout the country necessitated by the increased cost in transportation. It was shown that there had been two increases of 5 cents each brought about by the Eastern Rate and the Fifteen Per Cent cases, bringing the rate up to 30 cents per ton. The last increase of 20 cents a ton being under P.C. Order 1863 of July 27, 1918, Tariff C.R.C.E.-3986, August 12, 1918.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated October 24, 1919, concurred in by Assistant Chief Commissioner McLean and Mr. Commissioner Boyce, holding that a case had not been made out for the reduction asked for.

COMPLAINT OF MESSRS. BLACK & SON, OF BELLEVILLE, ONT., *re* EXPRESS COLLECTION AND DELIVERY IN BELLEVILLE.

This was a complaint of Messrs. Black & Son, of Belleville, Ont., relative to express collection and delivery limits in the city of Belleville, the complaint being that whereas until recently the express company, under an arrangement with an independent carter paid by them, collected the fish boxes of the complainant when ready, from the dock at Belleville, day or night, and carted them, free of charge, to the depot and loaded them on the trains for market points, that this arrangement had been discontinued as to collection after 5 p.m. daily, after which hour the waggon service must be performed at the expense of the shipper (complainant) or the fish must remain where it was until the next morning's collection, and suffer the deterioration in quality and value of twenty-four hours delay.

The facts are fully set out in the report of Mr. Commissioner Boyce, dated October 27, 1919, concurred in by Chief Commissioner Carvell, Assistant Chief Commissioner McLean, Deputy Chief Commissioner Nantel and Mr. Commissioners Goodeve and Rutherford, recommending that the complaint be dismissed.

*Re* TRAIN SERVICE ON THE QUEBEC, MONTREAL & SOUTHERN RAILWAY — SHORE DIVISION.  
*Judgment, Assistant Chief Commissioner McLean, dated October 28, 1919, concurred in by Deputy Chief Commissioner Nantel.*

The Quebec, Montreal and Southern Railway Company has as one portion of its system a line down the south shore of the St. Lawrence from Montreal to Fortierville, a distance of 115 miles. The mileage from St. Lambert to Fortierville is 109.6 miles. From St. Lambert, the railway has trackage arrangements into the city. From St. Lambert to Sorel is 44.5 miles, while from Nicolet the distance is 76 miles.

## SESSIONAL PAPER No. 20c

Up to 1918, the passenger service on the Shore Division consisted of two daily trains running mornings and evenings between Montreal and Nicolet; two daily trains also ran from Nicolet to Montreal morning and evening. A local mixed completed the run between Nicolet and Fortierville at the other end of the line.

From the 1st of January, 1918, the Sunday service was cancelled. Again in April, 1918, the company further reduced its service by cancelling the morning train from Montreal and the evening train from Nicolet.

Upon the application of the Chamber of Commerce of Sorel, the Board ordered the restoration of the train service in effect prior to January, 1918, between Montreal and Sorel, such service to be put into effect on the 10th day of June, 1918; Order No. 27254 issued the 26th day of May, 1918.

A subsequent order dated June 7, 1918, No. 27286, authorized the discontinuation of the Sunday train service in effect prior to January 1, 1918.

On the 17th August, 1918, the company applied to the Board for permission to withdraw trains Nos. 2 and 3, that is the morning train leaving Montreal and the evening train leaving Nicolet, such withdrawal to take effect on the 1st of September, 1918.

The reasons alleged by the company were that the traffic did not justify two trains a day, and that they needed the fuel, the power and the crews for more essential traffic elsewhere, meaning the southern division.

Before the application could be argued before the Board, the company found itself short of men on account of the influenza epidemic, and was allowed, pending a formal hearing, to withdraw its trains Nos. 2 and 3.

During the Christmas and New Year seasons of 1917 and 1918 the service was, on the request of the Board, temporarily reinstated.

A hearing took place at which much statistical detail was submitted in connection with the application of the railway to increase its rates. The statistical detail submitted bearing on the cost of operation of necessity had an important bearing upon the propriety of directing a change in the train service.

As pointed out in the judgment in the Passenger Rate Case, it had seemed proper to allow determination of this matter to stand until it was apparent whether the exceptional costs of operation which attached to the war period constituted a temporary or more enduring condition, and the result was that for the seven-month period ending July 1919, it was abundantly apparent that the costs of operation were continuing on a higher level; and this is evidenced by the fact that during the period in question it took, on the average, 147 cents of expenditure to earn \$1 of revenue. The question whether the Board is justified in directing a re-arrangement which will add to the service now existing must be tested in terms of the operating conditions facing the road.

The railway must as a condition of operating as a railway carrying freight and passengers afford a minimum of service, even although the result of this is operation at a loss. The service which is now rendered by the railway in connection with the carrying of passengers appears to me, however, to have carried the reduction down to the minimum, and I do not see, as at present advised, how it would be justifiable to have any further reduction. Since, however, the railway is on its present freight and passenger operations spending much more than \$1 to earn \$1 of revenue, and since, as pointed out in the Judgment in the Passenger Rate Case, it is not in terms of the analysis there used earning on its passenger business its proportionate amount of cost, it follows that before directing an increase in the passenger service over the minimum now rendered, the Board should be satisfied as to whether the additional cost would be recouped.

11 GEORGE V, A. 1921

The service as it existed prior to 1918 was as follows in regard to the movement from Nicolet to Montreal:—

*Westbound.*

No. 1—Daily, except Sunday; leave 6.20 a.m., arrive Montreal 9.15 a.m.  
No. 3— " " " " 2.55 p.m. " " 6.15 p.m.

*Eastbound.*

No. 2—Daily, except Sunday; leave Montreal 8 a.m., arrive Nicolet 11.20 a.m.  
No. 4— " " " " 5.30 p.m., arrive Nicolet 8.30 p.m.

*Sunday.*

No. 8—Eastbound, leave Montreal 8.25 a.m., arrive Nicolet 11.34 a.m.  
No. 7—Westbound, leave Nicolet 3 p.m., arrive Montreal 6.15 p.m.

The service between Fortierville and Nicolet was as follows:—

*Westbound.*

No. 9—Mixed; leave Fortierville 6 a.m., arrive Nicolet 8.30 a.m.

*Eastbound.*

No. 10—Mixed; leave Nicolet 5 p.m., arrive Fortierville 7.30 p.m.

The service now rendered between Nicolet and Montreal is as follows:—

*Westbound.*

No. 1—Daily, except Sunday; leave Nicolet 6.30 a.m.; arrive Montreal 9.45 a.m.

*Eastbound.*

No. 4—Daily, except Sunday; leave Montreal 6 p.m.; arrive Nicolet 9.20 p.m.

The service between Fortierville and Nicolet is as follows:—

*Westbound.*

No. 9—Mixed; tri-weekly, Monday, Wednesday and Friday; Leave Fortierville 6 a.m.; arrive Nicolet 8.30 a.m.

*Eastbound.*

No. 10—Mixed; tri-weekly, Tuesday, Thursday and Saturday; Leave Nicolet 5 p.m.; arrive Fortierville 7.30 p.m.

What is in effect desired by the municipalities concerned is the reinstatement of trains Nos. 2 and 3, and in general, replacing the service as it was in 1917. On the other hand, this is objected to by the railway from the standpoint of expense.

Every curtailment of service of necessity raises objection. Where it is possible to have frequent service—the highest type of convenience—this is very satisfactory to the public and by encouraging travel reacts advantageously upon business, and no doubt is a factor of importance in developing through travel and social intercourse the amenities of life. At the same time it must be recognized that all this must be paid for, and if the service desired is of such a type as cannot be met out of the revenues of the company this must be given due weight by the regulative body.

The test of what the reinstatement of the 1917 service would mean can be checked out by checking train-mile costs.

In the hearing at Montreal, computations were submitted analyzing operating costs. While freight and passenger revenues are readily reported under separate headings, the subdivision of operating cost between freight and passenger business must of necessity, to a certain extent, be a matter of computation. Certain items may be allocatable directly; other items cannot be so allocated.

In an exhibit filed by the Quebec, Montreal and Southern Railway Company, it was pointed out that the train mileage basis was arrived at by adding to the passenger train mileage one-third of the mixed train mileage, the resulting sum of passenger train mileage amounting to 53 per cent of the total train mileage. Train mileage may be regarded as affording one reasonable index of cost. The passenger train-mile cost of \$2.77, later referred to, is as pointed out, the computation arrived at in the exhibit referred to.

## SESSIONAL PAPER No. 20c

The round trip from St. Lambert to Fortierville is 218 miles. As already pointed out, St. Lambert is the point where the Quebec, Montreal and Southern tracks stop and is 6.2 miles from Montreal. The service, which it is asked should be reinstated, would mean additional train mileage of 218 miles per day. If the service on the old schedule were reinstated for six days a week the train mileage involved would be 68,234. Adding a Sunday service, the additional train mileage for 52 days a year from Nicolet to St. Lambert would be 7,904.

In exhibit 5, filed at the hearing, a computation was given that for the first eleven months of 1918 the passenger train-mile cost was \$2.77. Taking this basis, the 68,234 passenger train miles required for the daily service, exclusive of Sundays, would have a cost of \$189,008. The business of the road is concerned with short hauls. For 1913 to 1918, the average passenger journey in miles ran from 21 and a fraction to 23 and a fraction. During the same period, the average fare received from each passenger ran from 55 cents to 61 cents.

Since, in 1918, the average amount paid by each passenger was 61 cents, the number of additional passengers it would be necessary to carry in order to meet the train-mile cost involved will be obtained by dividing this train-mile cost, as above given, by 61. This gives a total of 310,013 passengers it would be necessary to carry to offset the cost. Adding to the passenger train mileage for week days the 7,904 passenger train-miles for Sundays would give a total of 76,138 passenger train-miles. At the average cost of \$2.77, as given, this would give a cost of \$210,902, which, divided by 61, would give the total number of additional passengers it would be necessary to carry in order to meet this increased cost. The number is 345,737.

In the figures submitted in exhibit 5, as referred to, it was set out that against the passenger train-mile costs of \$2.77 there were actual passenger train-mile earnings for the eleven months ending November, 1918, of \$1.63. If these figures are taken as characteristic, there would be the following result from the additional train service recommended:—

|  |           |
|--|-----------|
| Passenger train-mile costs. . . . .    | \$210,902 |
| Passenger train-mile earnings. . . . . | 124,104   |
|  | \$ 86,798 |
| Deficit. . . . .                       |           |

If, instead of taking the figure of \$2.77, an average figure of \$2 per train-mile is taken, as a test suggested by the Board's Chief Operating Officer, there would be an additional train-mile cost for a service of six days a week of \$136,468. This at average receipts per passenger of 61 cents would require the carriage of 223,717 passengers additional to offset the increased cost. If a Sunday service were included, this would require in addition, on the same bases, 25,914 passengers.

As bearing on the possibility of an increase in passenger business sufficient to recoup the additional costs involved, it may be noted that the highest figure in respect of passengers carried in the period 1913-18 was in 1917, when 273,127 passengers were carried. The figures are for the years ending June 30. The average for the period was 254,922, while the absolute figure for 1918 was 243,371.

Carrying the analysis back for the period 1908-12, the highest figure in that period was in 1910, when 280,584 passengers were carried. The average for the period was 249,770.

The figure of \$1.63 per passenger-mile in 1918 is not a conclusive test of the volume of business and its return. The extent to which this exceeds that obtaining in 1917 is in great degree due to the reduction in passenger train-miles in 1918, affording, in consequence, a smaller divisor in striking the average passenger-mile earnings. The year 1917 had in force the service which it is now desired should be reinstated.

11 GEORGE V, A. 1921

For the calendar years 1917 and 1918 the following statements as to gross earnings from passenger train service are available:—

| Passenger Revenue.                      | 1917.               | 1918.               |
|---|---------------------|---------------------|
| Tickets . . . . .                       | \$162,608 14        | \$132,039 13        |
| Excess baggage . . . . .                | 1,103 32            | 976 34              |
| Mail . . . . .                          | 5,264 75            | 5,181 99            |
| Express . . . . .                       | 13,815 57           | 15,869 73           |
| Other passenger train revenue . . . . . | 255 50              | 114 90              |
| Milk . . . . .                          | 182 24              | 114 09              |
| Total passenger train revenue . . . . . | <u>\$183,229 52</u> | <u>\$154,296 18</u> |

Notwithstanding the larger volume of passenger revenue in 1917 and notwithstanding the larger part played in that year by other receipts incidental to passenger train movement, the passenger train-mile earnings for the year were only \$1.19. It is not unfair to take this as an approximate criterion of the earning power, under a reinstatement of the 1917 service.

Putting the matter in a summary way, to meet the additional train-mile costs computed on a basis of \$2 per passenger train-mile, it would necessitate the railway, on the basis of a six day a week service, and including the number carried in 1918, having to carry a total of 467,088 passengers; and the inclusion of a Sunday service and the offsetting of its costs would necessitate adding 25,914 to this. As against these figures, attention may again be drawn to the fact that the largest passenger movements during a ten-year period were in 1917 and 1910, when the figures were 273,127 and 280,584, respectively.

On the analysis as made, it does not appear how there can be a sufficient increase in passenger business, taking into consideration the volume, average haul and average receipts per passenger, to take care of the cost the additional service would necessitate. It is further to be borne in mind that the computations do not take into consideration any profit on operation. If an operating ratio of 75 per cent is taken—and this has in various connections been taken as a reasonable operating ratio under present conditions—the result would be to add one-third to the necessary takings. The fact that the railway instead of having an operating ratio of 75 per cent has one of 147 per cent does not justify disregarding a more normal situation.

The case for reinstatement of the train service as it was in 1917 has been earnestly pressed. Especial stress has been laid on the reinstatement of the services afforded by trains 2 and 3, referred to above. It may readily be that under more normal conditions both as to revenue and expenditure, the existing train service might be held to be one which would not satisfactorily take care of the traffic.

The matter of the earnings of trains 2 and 3 may be measured in another way from the standpoint of the relation between the out-of-pocket costs of the service and the earnings obtained. In the case of service on the Grand Trunk between Sherbrooke and Coaticook (Board's file 27563.10), a situation was developed where (a) the need for the retention of the existing service was established, (b) the earnings were slightly in excess of the out-of-pocket costs, exclusive of any return to overhead costs.

SESSIONAL PAPER No. 20c

Applying the same method as used in the above case, the round trip costs for the service performed by trains 2 and 3 on the Quebec, Montreal and Southern Railway would, as checked by the Board's Operating Department, be as follows:—

|  |          |
|--|----------|
| Wages of trainmen . . . . .                      | \$ 14 33 |
| Wages of enginemen . . . . .                     | 14 59    |
| Overtime for station agents, estimated . . . . . | 4 72     |
| Fuel for locomotive, 4 tons at \$5.83 . . . . .  | 34 98    |
| Lubricants . . . . .                             | 0 56     |
| Supplies . . . . .                               | 0 71     |
| Water . . . . .                                  | 4 04     |
| Handling . . . . .                               | 11 17    |
| Repairs, engine . . . . .                        | 41 04    |
| Rental . . . . .                                 | 4 90     |
| Car repairs . . . . .                            | 0 80     |
| Car rentals . . . . .                            | 20 00    |
|  | \$151 84 |

The latest figures obtainable for the earnings of the trains in question are for the years 1915 and 1916. In 1915, train No. 2 earned 80 cents per passenger train-mile, while No. 3 earned 63 cents. This would give the following figures:—

|                                 |          |
|---------------------------------|----------|
| Train No. 2, earnings . . . . . | \$ 60 80 |
| “ “ 3, “ . . . . .              | 48 48    |
| Total for round trip . . . . .  | \$109 28 |

For the year 1916, the figures are 72 cents and 86 cents, respectively, giving the following totals:—

|                                 |          |
|---------------------------------|----------|
| Train No. 2, earnings . . . . . | \$ 54 72 |
| “ “ 3, “ . . . . .              | 61 92    |
| Total for round trip . . . . .  | \$116 64 |

With out-of-pocket expenses \$151.84, the deficit on 1915 figures would be \$42.56 daily, or \$255.36 per week.

On 1916 figures, the deficit would be \$35.20 daily, or \$211.20 per week.

In the figures as to out-of-pocket expenses as given, maintenance of equipment is included. To get at the other expenses necessary to keep the road in operation, without any payment by way of interest or dividends, the following details are available for 1918:—

|   |           |
|---|-----------|
| Maintenance of way and structures . . . . . | \$202,718 |
| General expenses . . . . .                  | 36,287    |
| Taxes . . . . .                             | 8,263     |
| Total . . . . .                             | \$247,268 |

In order to obtain the necessary allocation for expenses attaching to passenger business, and for the reasons explained in the judgment dealing with the standard passenger fares of the railway, 28 per cent of this total is taken as representing passenger overhead expense, or a total of \$69,235. The mileage between Nicolet and St. Lambert is 37 per cent of the total mileage of the system. This percentage of the allocated passenger expense above given amounts to \$25,616, and on a daily basis this would amount to \$70 per day.

As pointed out, on 1916 figures trains 2 and 3 would fall short by \$35.20 of meeting out-of-pocket costs. Charging one-half of the overhead expenses against trains 2 and 3, there being two other trains, 1 and 2, in operation, this would give a sum of \$35 to add to the deficit in respect of meeting out-of-pocket costs.

11 GEORGE V, A. 1921

After most careful consideration of the various factors pertinent, I am unable to see how the service, on what is before us, can be reinstated, without a further increase in the already large operating deficit.

As pointed out in the judgment dealing with standard passenger rates on the Quebec, Montreal and Southern Railway, the Board has been receiving monthly statements of the operations of this road with a view to ascertaining what, if any, improvements have arisen on changed conditions. As pointed out in the judgment in question, changed conditions have not brought about decreased costs; rather the situation is that with a diminution in certain lines of general traffic which developed in connection with war activities, there has at the same time been an increase in the operating costs. The monthly statements with which the Board has been supplied are to be continued by the railway and the Board will obtain such additional information as may seem necessary; and if, on consideration of the information so filed, it appears to the Board that conditions have so improved as to warrant an increase in the train service the Board will then act of its own motion.

COMPLAINT OF RESIDENTS OF WILBERFORCE, ONT., *re* CANADIAN NATIONAL RAILWAY TRAIN SERVICE.

This was a complaint of the residents of Wilberforce, Ont., and outlying districts, and others, that the Canadian National Railways (Irondale, Bancroft and Ottawa branch) intended to run only three trains weekly in place of a daily service as heretofore after October 5, 1919.

It appeared that the Irondale, Bancroft and Ottawa Railway, a subdivision of the Canadian National Railways, was formerly a separate railway. The last separate report for it as a distinct railway is contained in the statistics of the Department of Railways and Canals for the year ending June 30, 1914. Subsequent to that date, the line was acquired by the Canadian Northern Railway.

The line extends from the junction with the Grand Trunk Railway near Kinmount station to the junction with the Central Ontario Railway a distance of 51.9 miles.

The report for 1914 showed, in round figures, total earnings of \$32,000. Of this, the passenger earnings represent 29 per cent. The road was operated at a deficit, the operating ratio being 112 per cent. The gross earnings per mile were \$633; the average passenger journey was 16 miles. The tonnage carried averaged 597 per mile.

The facts are fully set forth in the judgment of Assistant Chief Commissioner McLean, dated November 10, 1919, concurred in by Chief Commissioner Carvell and Deputy Chief Commissioner Nantel, holding that under the circumstances the tri-weekly service, though unsatisfactory in many ways, would have to be allowed. Held, further, that the railway company keep monthly statements of receipts and expenditures to be filed with the Board not later than April 15, 1920, so that the question of whether there is any change of conditions which would justify the re-installation of the daily service might be then gone into.

*Re* GRAND TRUNK RAILWAY COMPANY AND BERLIN MACHINE WORKS, LIMITED, OPERATION OF SIDINGS.

The question before the Board was the consideration of an agreement between the Grand Trunk Railway Company and the Berlin Machine Works, Limited, of Hamilton, Ont., in respect of the operation over the sidings or spurs located on the lands of the Berlin Machine Works, Limited, and owned by the applicants.

It appeared that both the Grand Trunk and the Toronto, Hamilton and Buffalo Railway Companies had been operating the sidings in question, and it was stated that the Berlin Machine Works, Limited, had declined to enter into an agreement.

## SESSIONAL PAPER No. 20c

An application was made by the railways in question to discontinue operating over the sidings in question. Just how the operation began is not clear. The Berlin Machine Works, Limited, stated that the operation upon the sidings with the lands of the Berlin Machine Works, Limited, had been conducted under the terms of Order No. 4844 of April 24, 1908; and it is stated, further, that the siding within the works of the Berlin Machine Works, Limited, had been constructed in pursuance of the said order.

In the original hearing on April 24, 1908, it was set out by Mr. Cowan for the Grand Trunk that at the time the application was launched it was the intention of the Grand Trunk to build a siding, as shown on the plan filed, into the Berlin Machine Works, Limited, but that since the application was launched the Berlin Machine Works, Limited, had decided to construct the tracks and sidings on their own property and to use their own engines and do their own switching. The Grand Trunk, therefore, desired to withdraw that portion of the application which was concerned with the construction of the siding into the Berlin Machine Works, Limited, and asked leave to construct a siding off its own line over the Toronto, Hamilton and Buffalo to the limits of the land of the Berlin Machine Works, Limited. It was stated that this was satisfactory to the Berlin Machine Works, Limited, and it was also satisfactory to the Toronto, Hamilton and Buffalo, and the Grand Trunk stated that when these tracks were constructed on the property of the Berlin Machine Works, Limited, the Grand Trunk, if the Berlin Machine Works, Limited, so desired, was willing to operate over them.

Following this, Order No. 4844, of April 24, 1908, issued. The order recited, as has already been set out in the reference to the evidence, that the Grand Trunk withdrew the portion of the application respecting the construction of the branch line and sidings on the property of the Berlin Machine Works, Limited. The order authorized the construction of the Grand Trunk spur up to the dividing line between the lands of the Grand Trunk and the lands of the Berlin Machine Works, Limited. Nothing is contained in the order as to operation of the sidings of the Berlin Machine Works, Limited. The matter was brought before the Board to determine the terms of an agreement.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated November 10, 1919, concurred in by Chief Commissioner Carvell, Deputy Chief Commissioner Nantel, and Mr. Commissioners Goodeve and Boyce, holding that a clause should be added to the agreement providing for a situation where the Berlin Machine Works, Limited, may desire to make an arrangement for an additional railway to use its tracks, such situation to be covered by the following clause:—

“The Berlin Machine reserves the right to enter into an agreement or agreements identical herewith with any other railway or railways.”

The Board further reserved the right to the railway companies to apply to it for settlement of any disputes in connection with such clauses that the parties were unable to agree upon.

APPLICATION OF THE QUEBEC, MONTREAL AND SOUTHERN RAILWAY COMPANY *re*  
ORDER NO. 28339.

This was an application of the Quebec, Montreal and Southern Railway Company to the Board that Order No. 28339 issued on October 1, 1918, be made permanent instead of between the 31st October and the 1st May following in each year. The order in question provided as follows:—

“*It is ordered:* That the Quebec, Montreal and Southern Railway Company be, and it is hereby, required (1) to arrange its time table so as to extend its

11 GEORGE V, A. 1921

mixed train now due to arrive at Noyan Junction at 7.30 p.m. daily except Sunday through to Lacolle Junction, showing it to arrive at 8 p.m.; and its mixed train now due to leave Noyan Junction at 5.50 a.m. to leave Lacolle Junction at 6.35 a.m. and Noyan Junction at 7 a.m., arriving at Iberville at 8.20 a.m.; and (2) to arrange with the Grand Trunk Railway Company (a) to operate the said trains between Noyan Junction and Lacolle Junction at the times specified, (b) to honour tickets on such trains to and from Lacolle Junction, and (c) to sell tickets at Lacolle Junction to points on the Quebec, Montreal and Southern Railway."

This was subsequently amended by Order No. 27864 of November 19, 1918, which provided,—

*"It is ordered:* That the said order of the Board No. 27741, dated October 1, 1918, be, and it is hereby, amended by striking out the figures "6.35," "7" and "8.20" in the seventh and eighth lines of the operative part of the order and substituting therefor the figures "8.00," "8.30" and "10.00."

At the time the report was made, the Quebec, Montreal and Southern Railway Company ran their freight trains from Noyan Junction to Rouses Point, using the Grand Trunk Railway from Noyan Junction to Lacolle Junction and their own line (Napierville Junction Railway) from Lacolle to Rouses Point. It was pointed out by the Quebec, Montreal and Southern Railway Company that this movement was due to the fact that it had no satisfactory terminal facilities at Noyan Junction. It was submitted by the Chief Operating Officer that the service could be given by the Quebec, Montreal and Southern Railway Company making provision on their present mixed train through to Lacolle Junction as against terminating at Noyan Junction, and picking up passengers at Lacolle Junction in the opposite direction. The matter, generally, was put on the ground that the service could be performed without any additional cost, it being pointed out that no additional equipment would be required as the train carried the equipment through, it being set out that there would be no extra coal or other expenses and no additional train or car-miles involved.

The reason for this service was set out in the Chief Operating Officer's report of September 18, 1918.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated November 12, 1919, concurred in by Deputy Chief Commissioner Nantel and Mr. Commissioners Goodeve and Boyce, holding that as the engine does not go through to Rouses Point the justification for the order has passed and that it be rescinded.

#### SECTION 345 OF THE RAILWAY ACT.

*Memorandum by Chief Commissioner Carvell, dated November 12, 1919, concurred in by Assistant Chief Commissioner McLean.*

After having considered this section very carefully, I have come to the conclusion that the whole purport of the section was to give to the railway companies, within certain limits, the right to carry traffic at free or reduced rates; and to such classes of persons and, in some cases, individuals, as the companies may decide upon, subject in certain cases to the approval and permission of this Board. The whole section is preceded by the following words: "Nothing in this Act shall be construed to prevent." It then refers to five specific classes of persons and a careful examination shows that there is no great change between the present Act and its predecessor, excepting that in sub-clauses (a) and (c) a limitation is placed upon the power of the railway companies and in sub-clauses (d) and (e) an extension is provided for.

## SESSIONAL PAPER No. 20c

Under clause (a) the most which the railway companies can do towards reduced fares for ministers of religion, etc., is to carry them at one-half the regular fare, and in clause (c) the most they can do for members of the provincial legislatures is to carry them free within points in the province to which they belong. It is not clear whether members of the press can be carried free beyond the province in which they reside, but as there is no comma after the word legislatures, and nothing to designate a difference in the two classes, I am rather inclined to the opinion that the limiting words "between points within the province" apply to the latter as well as to the former. Clause (c) also extends the privilege to dependent members of the families of any persons who are entitled to free transportation under section 346 of this Act, and clauses (d) and (e) also extend the right to employees of the Department of Railways and Canals and to the Governor General and staff, etc.

This narrows the question down to the interpretation of the last line of clause (c), viz., "or to such other persons as the Board may approve or permit," and to the proviso immediately following sub-section (e), both of which are to be found in the previous Act. These words evidently mean something, and it is my opinion that a railway company may decide to grant the privilege of free or reduced transportation to any person, or class of persons, subject always to the approval or permission of the Board, and also subject to the proviso herein referred to, which, in my opinion, is a regulating power rather than an enacting one.

To apply this opinion specifically to the request made by the Canadian Railway War Board under date of October 16 last, it would seem to me that the railways would have a right, subject to our approval or permission, to grant free or reduced transportation to those parties mentioned in clauses (b), (d) and (e) as well as to all others. Thus, if the railway companies decide to grant free transportation to the immigration and customs officials of the United States, to the families or former and deceased employees of the railways, and the families of former employees of transportation companies, then, if this Board approves or permits, they will be within the law in granting such transportation.

I am not so clear as to the real intention of Parliament with reference to the proviso hereinbefore referred to because, taken in its general sense, we are given the right to extend, restrict, limit, or qualify the carriage of traffic by the companies as provided under this section, but I have come to the conclusion that this is only meant as a regulating clause and our powers are restricted to extending, restricting, limiting, or qualifying what the companies may propose to do and, therefore, gives us no originating jurisdiction; but when the railway companies come to us asking that certain persons or classes of persons be given the privilege of free transportation, we would have the right to extend, restrict, limit, or qualify the same. If I am right in my general interpretation of the clause, then I think we have the power either to approve or disapprove of all the requests made by the Canadian Railway War Board in their letter of the 16th of October hereinbefore referred to, and, as they seem to me to be proper requests, I am in favour of approving the same and permitting the issuing of transportation as requested.

## COMPLAINT OF MESSRS. O'REILLY AND BELANGER, LIMITED, AND GRAND TRUNK RAILWAY.

This was an application made by Messrs. O'Reilly and Belanger, Limited, coal merchants, for an order under sections 312, 316, 317, 319 and 320, directing the Grand Trunk Railway Company to provide reasonable and proper facilities for the unloading, handling, storing and delivery of the applicant's coal at the coal trestle erected upon the lands of the said Grand Trunk Railway Company, in its station yards at Isabella street, Ottawa; and for a mandatory order directing the said railway company

11 GEORGE V, A. 1921

to forthwith terminate a certain agreement, or lease, in respect to said coal trestle, bearing date October 25, 1916, and made between the said railway company and the Coal Trestle Company, Limited.

The complainants alleged undue discrimination in the matter of proper facilities for the unloading, handling, storing and delivery of the applicant's coal at the coal trestle upon the lands of the Grand Trunk Railway at Isabella street, Ottawa; and asked the Board for an order to forthwith terminate a certain agreement, or lease, bearing date of October 25, 1916, and made between the said railway company and the Coal Trestle Company, Limited.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated December 10, 1919, concurred in by Deputy Chief Commissioner Nantel and Commissioner Boyce, holding that no case of discrimination had been made out against the Grand Trunk Railway Company, and that the Board had no jurisdiction to fix the terms of rental with the Coal Trestle Company, Limited, or to compel the Grand Trunk Railway Company to cancel its agreement with the Trestle Company.

APPLICATION OF THE VILLAGE OF EDAM, SASK., AND C.N.R.

This was an application of the council of the village of Edam, in the province of Saskatchewan, for a crossing over the line of the C.N.R., at a point leading from the southeast corner of the townsite to the quarter pits on the road allowance running north and south between sections 31 and 32-48-19, half a mile west of the village of Edam.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated December 17, 1919, concurred in by Chief Commissioner Carvell, Assistant Chief Commissioner McLean and Commissioners Boyce and Rutherford, holding that in view of the very close connection of interests between the railway company and the townsite companies, and the fact that the building up of these municipalities is in the interest of the railway company in that they tend to develop traffic, the costs of the construction of the crossing should be placed upon the townsite companies, and the cost of operation and maintenance upon the railway company.

SESSIONAL PAPER No. 20c

APPENDIX B.

REPORT OF CHIEF TRAFFIC OFFICER JAS. HARDWELL.

SIR,—I have the honour to submit, for the Fifteenth Annual Report of the Board, a memorandum of the freight, passenger, express, telephone, telegraph and sleeping and parlour-car schedules filed with the Board from November 1, 1904, when, by order of the Board, under the authority of section 311 of the Railway Act, 1903, the railway companies commenced filing their tariffs, to March 31, 1919; and from April 1, 1919, to December 31, 1919, inclusive; also, of the more important orders relating to traffic issued by the Board to December 31, 1919:—

SCHEDULES RECEIVED FROM NOVEMBER 1, 1904, TO AND INCLUDING MARCH 31, 1919.

No. 28972, November 4, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Russell Rural Telephone Company, operating in the counties of Russell and Carleton, Ont.

No. 28983, November 11, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and La Compagnie Electrique, Maniwaki, operating in the county of Ottawa, Que.

## SESSIONAL PAPER No. 20c

No. 29018, November 14, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Corporation of the Township of Huron, operating in the counties of Bruce and Huron, Ont.

No. 29068, November 21, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Mount Forest, Wellington and Grey Telephone Company, operating in the counties of Wellington and Grey, Ont.

No. 29094, December 2, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Rumney Settlement Telephone Company, operating in the county of Victoria, Ont.

No. 29134, December 9, 1919.—Authorizes settlement of accrued demurrage incurred by delays in unloading cars at Winnipeg during the general strike in May and June, 1919, on the basis of \$1 per car per day.

No. 29145, December 12, 1919.—Permits the Grand River Railway to increase its standard maximum passenger fare to 2.875 cents per mile.

No. 29154, December 12, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Donegal Telephone Company, operating in the county of Renfrew, Ont.

No. 29163, December 22, 1919.—Requires the Grand Trunk Railway to establish certain commodity rates on sand and gravel from York, Ont., to various sidings in and around Toronto.

No. 29165, December 19, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Corporation of the Township of Thessalon, operating in the district of Algoma, Ont.

No. 29170, December 20, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Egypt Telephone Company, operating in the county of Ontario, Ont.

General Order No. 277, December 29, 1919.—Prescribes regulations for indicating changes in tariffs of tolls by means of symbols.

No. 29227, December 30, 1919.—Approves agreement for interchange of telephone services between the Bell Telephone Company and the Corporation of the Township of Otonabee, operating in the county of Peterborough, Ont.

General Order No. 276, December 31, 1919.—In the matter of Order in Council P.C. 1863, as amended, and of all tolls lawfully in effect on December 31, 1919; railway companies subject to the jurisdiction of the Board permitted to continue in force, on and from January 1, 1920, the tolls in effect on the said December 31, 1919.

## APPENDIX C.

OTTAWA, March 9, 1920.

DEAR SIR,—I have the honour to submit herewith, for the Board's fifteenth annual report, a synopsis of work performed by the Operating Department during the nine months ended December 31, 1919.

## REPORTING AND INVESTIGATING OF ACCIDENTS ATTENDED BY PERSONAL INJURY OR LOSS OF LIFE.

During the nine months accidents to the number of 1,347, covering 223 persons killed and 1,502 persons injured, were reported to the Board by the various railway companies under its jurisdiction. For particulars, attention is directed to statements 1, 3 and 4.

A perusal of statements Nos. 2, 5 and 6, which are comparative statements of the killed and injured, as between passengers, employees and others; class of accident and railway, reveals a decrease of 41 persons killed and 311 persons injured over the preceding year.

Out of the total of 1,347 accidents reported, as above referred to, 750 were investigated, covering 163 persons killed and 977 persons injured. Statements Nos. 7, 8, 9 and 10 set out in detail the investigations made as regards collisions, derailments, highway crossing accidents, also, accidents the result of working on or under engines. These four statements show a total of 289 investigations, covering 70 persons killed, 584 persons injured. The remainder of the investigations, which number 461, cover 93 persons killed and 393 persons injured, and are spread over accidents covered by the various other headings, referred to in statements 3 and 4.

It will be observed that out of the total of 223 persons killed and 1,502 injured, there were "trespassers" to the number of 64 killed and 68 injured. In this connection reference is made to statement No. 16.

The matter of highway crossing accidents, protection provided, etc., is set out in detail in statements 3, 4, 9, 11, 12, 13, 14 and 15.

It is pointed out that the number of accidents at highway crossings involving automobile traffic is on the increase. A perusal of statement No. 15 shows that during the four years ending March 31, 1919, and nine months ending December 31, 1919, there have been 231 accidents, 15 in 1916, 36 in 1917, 54 in 1918, 66 in 1919, and 60 for the nine months ending December 31, 1919.

## INSPECTION OF SAFETY APPLIANCES.

The work in this connection is largely carried on under the provisions of section 298 of the Act, and General Order No. 102. The year's work in detail is set out in statements Nos. 19, 20, 21-A and B. It is needless to say that the inspection of 45,871 cars embracing defects totalling 2,142 (or 4.67 per cent) entails considerable time and labour, both as regards field work, and the resultant checking, recording and filing of the numerous reports in addition to the correspondence necessary in following up with a view to having the railway companies take the necessary action to have the defects remedied.

## INSPECTION OF MOTIVE POWER.

This division of the work embraces the entire locomotive and tender, and is carried on under sections 298, 299, 300 and 301, of the Railway Act, and General Orders Nos. 12, 31, 66, 78, 102, 107, 131, 171, 199 and 226.

Under General Order No. 78, the so-called "Boiler Inspection Order," some 45,000 report forms comprising the monthly and annual inspections of locomotive boilers and appurtenances have been filed during the nine months.

During the nine months locomotives to the number of 5,676 were inspected by inspectors of this department, with defective engines totalling 1,564 (28 per cent), total defects 1,664. For details reference is made to statement No. 22.

SESSIONAL PAPER No. 20c

The checking and recording of the above-mentioned forms and reports, together with the correspondence involved, naturally creates an extensive line of work.

INSPECTION OF PASSENGER EQUIPMENT, STATION BUILDINGS AND PREMISES.

This work comprises features of safety, cleanliness, accommodation, etc. A large number of matters have been brought to the attention of the proper officials with beneficial results.

TRAIN AND STATION SERVICE, HIGHWAY CROSSING PROTECTION, STATION LOCATIONS, CAR SUPPLY, ETC.

The work under this heading covers a wide range of subjects, and entails in many instances a considerable amount of inquiry and research.

During the nine months complaints and applications numbering 578, which represents 32 per cent of the total filed with the Board, were inquired into and reported upon.

Under this heading it might not be amiss to point out that the matter of car supply in connection with the movement of coal, grain, lumber, fruit, potatoes and hay, required considerable attention.

In conclusion, it might be stated that in order to accomplish the work briefly outlined above, it has necessitated the travelling by the staff of this department of approximately 375,000 miles.

Yours faithfully,

G. SPENCER,

*Chief Operating Officer.*

STATEMENT No. 1.—Statement showing number of passengers, employees and others killed and injured on the various railways in Canada, under the Board's jurisdiction, for nine months ending December 31, 1919.

STATEMENT No. 20.—Statement showing defective safety appliances on freight cars as reported by the inspectors for nine months ending December 31, 1919.

COUPLERS AND PARTS.

Table with 2 columns: Description and Quantity. Includes items like Coupler body broken, Knuckle worn, Lock block broken, etc. Total: 71

Total..... 71

UNCOUPLING MECHANISM.

Table with 2 columns: Description and Quantity. Includes items like Uncoupling lever broken, End casting wrong, Keeper broken, etc. Total: 398

Total..... 398

HANDHOLDS.

Table with 2 columns: Description and Quantity. Includes items like Handhold broken, Handhold bent, Handhold loose, etc. Total: 55

Total..... 55

HEIGHT OF COUPLERS.

Table with 2 columns: Description and Quantity. Includes items like Coupler too high, Coupler too low, Carrier iron loose, etc. Total: 9

Total..... 9

AIR BRAKES.

Table with 2 columns: Description and Quantity. Includes items like Triple valve defective, Release cock missing, Brake cut out, etc. Total: 1,507

Total..... 1,507

LADDERS.

Table with 2 columns: Description and Quantity. Includes items like Ladder round broken, Ladder round bent, Ladder round loose, etc. Total: 71

Total..... 71

SILL STEPS.

Table with 2 columns: Description and Quantity. Includes items like Sill step broken, Sill step bent, Sill step loose, etc. Total: 179

Total..... 179

MISCELLANEOUS.

Table with 2 columns: Description and Quantity. Includes items like Grand Total: 2,382

Grand Total..... 2,382

## APPENDIX D.

OTTAWA, February 16, 1920.

MR. A. D. CARTWRIGHT,  
Secretary, Board of Railway Commissioners for Canada,  
Ottawa, Ontario.

SIR.—I have the honour to submit herewith the report of the Fire Inspection Department for nine months ending December 31, 1919, for the fifteenth annual report of the Board.

## ORGANIZATION.

The plan of co-operation with the Dominion and provincial forest fire protective organizations reported in previous annual reports has been continued. During the past year eighty-five officials of such organizations acted as officers of the Fire Inspection Department, as follows:—

|  |         |
|--|---------|
| British Columbia Forest Branch.....                    | 31 men. |
| Dominion Parks Branch.....                             | 4 "     |
| Dominion Forestry Branch.....                          | 5 "     |
| Ontario Forestry Branch.....                           | 23 "    |
| Quebec Forest Service.....                             | 15 "    |
| New Brunswick Forest Service.....                      | 3 "     |
| Office of Chief Fire and Game Guardian of Alberta..... | 2 "     |
| Office of Fire Commissioner of Saskatchewan.....       | 2 "     |
| Total.....   | 85 men  |

## RAILWAY FIRE PATROLS.

The standardized system of railway fire patrols which railway companies are required to place in effect during the fire season, as outlined in previous reports, was not materially altered. In certain limited territory, a trial is being made of special fire patrols by men detailed from section crews, instead of by extra men who have no other duties. This plan can give satisfactory results only under unusually favourable conditions, such as the adequate staffing of section forces, special overhead supervision by the railway company, clean rights of way and adequate inspection by the Board's local organization. It is very difficult to check the maintenance of such patrols, and the cost to the railway is probably higher than where special men are engaged for the purpose, providing the work is performed conscientiously. On the other hand, where so performed, good results are secured.

## FIRE STATISTICS.

The fire season of 1919 was the most serious which has been experienced by Canada as a whole in many years. Prolonged periods of drought occurred in nearly all parts of the Dominion. The comparatively heavy loss due to railway fires is but an index of what occurred with respect to fires of other origin in all the forest provinces.

In the West, labour troubles resulted in the partial use, during the summer, of certain grades of coal which under normal conditions would have been used only during the winter months. This condition no doubt added somewhat to the number of fires due to locomotive sparks.

SESSIONAL PAPER No. 20c.

A grand total of 1,327 fires, from all causes, were reported as having originated within 300 feet of railway lines subject to the Board during 1919. These fires were distributed throughout the Dominion as follows:—

|     |       |    |      |     |      |          |    |         |           |            |
|-----|-------|----|------|-----|------|----------|----|---------|-----------|------------|

Of the grand total of 1,327 fires reported, 504 covered less than one-fourth acre each, doing no damage, while 823 were larger fires, which burned over 246,987 acres, destroying property valued at \$536,632. Of the larger fires, 77.8 per cent are definitely attributed to railway agencies, 4.9 per cent to known causes other than railways, and 17.2 per cent to unknown causes. A total area of 246,987 acres was burned over, of which 86.6 per cent is chargeable against the railways, 3.7 per cent to known causes other than railways, and 9.7 per cent to unknown causes. Of the total of \$536,632 damage, the railways are definitely charged with 95.9 per cent, while 0.4 per cent of the damage is due to known causes other than railways, and 3.7 per cent to unknown causes.

The grand total of 246,987 acres burned over by these fires is distributed throughout the Dominion as follows:—

|                   |         |        |

| (e) Total.....                       | \$15,269                             | \$ 4,834          | \$42,108                             | \$928,012                             | \$36,618                              | \$41,938            | \$ 2,145    | \$30,875       | \$12,027                                | \$22,709                        | \$ 87             | \$536,622 (1) |

(1) Includes Esquimalt and Nanaimo Railway.  
 (2) Includes Dominion Atlantic Railway.  
 (3) Includes Canadian National Railway lines subject to the Board's jurisdiction. Excludes Canadian Government Railways (Transcontinental, Intercolonial and Hudson Bay Railways).  
 (4) Includes Halifax and South Western Railway.  
 (5) Includes following lines:—Algonia Eastern; Atlantic, Quebec and Western and Quebec Oriental; Boston and Maine; Cumberland Railway and Coal Company; Maine Central; Temiscouata; Western Lower Company of Canada; White Pass and Yukon.  
 (6) Of this amount, \$9,590 is estimated value of station buildings destroyed.  
 (7) Of this amount, \$22,956 is estimated value of buildings and property destroyed when the village of Deer Lake, Ontario, was burned; \$8,368 is value of two railway bridges destroyed.  
 (8) This amount represents value of two railway bridges destroyed.  
 (9) Of this total, \$81,883 represents value of property other than forest growth destroyed.  
 NOTE.—No fires were reported during 1919 as originating within 300 feet of track along the following lines: Ottawa and New York; Quebec, Montreal and Southern. Class A fires are those which cover an area of less than one-fourth acre. Class B fires are those which cover an area of one-fourth acre or more.

## SESSIONAL PAPER No. 20c

## RIGHT OF WAY CLEARING.

The systematic removal of inflammable debris and the cutting and disposal of brush growth on railway rights of way was to a considerable extent limited during the period of the war, due to labour and financial conditions. This line of work is now being given increased attention in many sections of the country and it is anticipated that a creditable showing will be made during the coming year, though labour and financial conditions have not yet ceased to be problems with the railways.

## FIRE PROTECTIVE APPLIANCES ON LOCOMOTIVES.

Officers of the Fire Inspection Department have made 1,860 inspections of fire protective appliances on locomotives operating through forested territory, during the past fire season. Twenty-two per cent of the locomotives inspected were found defective as to some feature of fire-protective appliances.

The following table shows the number of locomotives so inspected and the percentage found defective on the more important railway lines:—

| Railway.  | Number Inspected. | Number Defective. | Per cent Defective. |
|---|-------------------|-------------------|---------------------|
| Canadian Pacific.....                                 | 731               | 292               | 28                  |
| Canadian National.....                                | 623               | 167               | 17                  |
| Grand Trunk Pacific.....                              | 79                | 36                | 46                  |
| Grand Trunk.....                                      | 178               | 18                | 10                  |
| Edmonton, Dunvegan and British Columbia.              | 85                | 7                 | 8                   |
| Great Northern.....                                   | 26                | 12                | 46                  |
| Kettle Valley.....                                    | 21                | 6                 | 29                  |
| Algoma Central and Hudson Bay.....                    | 22                | 3                 | 13                  |
| Algoma Eastern.....                                   | 18                | 3                 | 17                  |
| Atlantic, Quebec and Western and Quebec Oriental..... | 10                | 9                 | 90                  |
| Temiscouata.....                                      | 16                | 4                 | 25                  |

While the showing made on the whole, by the various railway companies, with respect to the maintenance of fire protective appliances on locomotives in an efficient condition, is slightly better than in previous years, there is still room for considerable improvement, particularly on the Halifax and South Western Railway, the Grand Trunk Pacific Railway, and the Canadian Pacific Railway eastern lines in Ontario.

During the fire season of 1919, sparks thrown from locomotives are presumed to have caused 966 fires, or 72.8 per cent of all fires reported. These burned over 213,919 acres and did damage estimated at \$514,557.

There is urgent need for a more effective spark-arresting device than the master mechanics' front end. Experiments along this line have been under way by some of the railway companies, in co-operation with the Operating and Fire Inspection Departments of the Board. The situation is serious and the matter should be brought to a definite conclusion as soon as possible.

## FIRE GUARD REQUIREMENTS.

The fire guard requirements in effect in 1918 were continued and further progress was made in the direction of reducing the width of fire guards to be ploughed in wild lands and fenced grazing lands. The eight-foot optional basis of ploughing guards in these classifications was extended to cover all lines of the Canadian National Railways under the Board's jurisdiction in Alberta, Saskatchewan and Manitoba, and to the Canadian Pacific lines in the same provinces with the exception of the Kelfield, Cutknife, Maple Creek, Bassano and Irricana subdivisions and certain specified portions of the Outlook, Swift Current, Brooks, Langdon and Laggan

11 GEORGE V, A. 1921

subdivisions, where the sixteen-foot standard was to be continued. Conditions were specified under which this optional basis might be made effective by the companies. The special arrangements made in 1918 for the conduct of experiments in specified limited territory were continued as to the main line of the Grand Trunk Pacific Railway between Winnipeg and Edson, and between Edmonton and mileage 70 of the Edmonton, Dunvegan and British Columbia Railway.

The fire hazard during 1919 in the prairie sections of Western Canada was no less serious than was the case in the forested territories. The extreme drought in the Prairie Provinces caused an acute shortage of pasturage and hay feed for the feeding of live stock, and the necessity for preventing the destruction of hay and pasturage by fire was most important. This situation was placed before the railways concerned, and they were urged to observe strictly all the requirements of the Board with respect to fire protection, in order that the loss of pasturage by railway fires might be kept at the lowest possible figure.

The showing made by the various railway companies with respect to the construction and maintenance of fire guards during 1919 is probably the best in several years. Early frosts and snowfalls interfered somewhat with the burning off of rights of way, as also with the completion of ploughing operations in some localities, otherwise a greater mileage of fire guards constructed might have been reported.

#### FIRE GUARD STATISTICS.

The accompanying fire guard statistical report shows 14,256.30 track miles of railway lines in the Prairie Provinces subject to the fire guard requirements, an increase of 18.40 miles over 1918. This is equivalent to 28,512.60 fire guard miles, since fire guards are required to be maintained on both sides of a railway line. The report indicates that 9,947.39 miles of fire guards were constructed or maintained during the past year, and 18,565.21 miles for various reasons were not constructed. Of this, there was exempted by this department 8,490.36 miles; owner of land refused to allow construction, 72.25 miles; land already ploughed, 2,578.46 miles; grain stubble and cultivated hay lands not fire guarded by owner, 5,430.43 miles. Thus, as to a total of 16,571.50 miles of fire guards not constructed, the reasons assigned by the companies were considered acceptable, leaving 1,993.71 miles unaccounted for, but which presumably should have been fire guarded.

SESSIONAL PAPER No. 20c

SUMMARY of Fire Guard Construction and Maintenance by Railways in the Provinces of Manitoba, Saskatchewan and Alberta, 1919.

|  | Edmonton, Dunvegan and British Columbia | Great Northern. | Grand Trunk Pacific. | Canadian National. | Canadian Pacific. | Totals.   |
|--|---|-----------------|----------------------|--------------------|-------------------|-----------|
| Length in track miles.....   | 406.80                                  | 162.38          | 2,002.86             | 5,271.60           | 6,412.72          | 14,256.30 |
| Length in fire guard miles.....  | 813.60                                  | 324.76          | 4,005.60             | 10,543.20          | 12,825.44         | 28,512.60 |
| Fire guards constructed (shown in fire guard miles)—                   |   |                 |                      |                    |                   |           |
| (a) Grain stubble lands (fireguarded by owner).....                    |   | 200.00          | 162.60               | 719.90             | 1,498.83          | 2,581.33  |
| (b) Cultivated hay lands (by owner).....                               |   | 40.00           |                      | 209.90             | 345.76            | 595.66    |
| (c) Fenced grazing lands.....  |   | 49.00           | 655.40               | 563.30             | 1,478.20          | 2,745.90  |
| (d) Wild lands.....  |   | 1.00            | 494.90               | 1,251.50           | 2,277.10          | 4,024.50  |
| Total miles of fire guards constructed.....                            |   | 290.00          | 1,312.90             | 2,744.60           | 5,599.89          | 9,947.39  |
| Fire guards not constructed (shown in fire guard miles)—               |   |                 |                      |                    |                   |           |
| Exemptions <sup>2</sup> .....  | 744.41                                  | 30.00           | 1,202.90             | 3,987.80           | 2,525.25          | 8,490.36  |
| Owner refuses to allow construction <sup>3</sup> .....                 |   |                 | 1.10                 | 20.40              | 50.75             | 72.25     |
| Unnecessary; land already ploughed <sup>4</sup> .....                  |   |                 | 281.00               | 934.70             | 1,362.76          | 2,578.46  |
| (a) Grain stubble lands.....   |   |                 | 1,110.60             | 1,964.30           | 2,029.13          | 5,104.03  |
| (b) Cultivated hay lands (not fireguarded by owner <sup>5</sup> )..... |   |                 |                      | 156.70             | 169.70            | 326.40    |
| Miscellaneous other reasons.....                                       | 69.19                                   | 4.76            | 97.10                | 734.70             | 1,087.96          | 1,993.71  |
| Total miles of fire guards not constructed.....                        | 813.60                                  | 34.76           | 2,692.70             | 7,798.60           | 7,225.55          | 18,565.21 |

<sup>1</sup> Fire guard mileage is double the track mileage, since the construction of fire guards is required on both sides of the track.

<sup>2</sup> Company exempted from fire guard construction, as to portions of line where showing made that such construction is unnecessary or impracticable.

<sup>3</sup> Employees of railway company refused permission, by owner, to enter upon land for purpose of constructing fire guards.

<sup>4</sup> Fire guarding unnecessary, because fields already ploughed.

<sup>5</sup> Fire guarding in grain stubble and in cultivated hay lands required only where the landowner or occupant would undertake to plough guard at the reasonable price specified by the Board.

COMPLAINTS *re* FIRE GUARDS.

No specific complaints were received during 1919.

One application was received from the Canadian Pacific under clause 4, section "C" of the Fire Guard Requirements, requesting permission to enter upon land for the purpose of constructing fire guards, where the land owner refused to allow such construction. The matter was investigated and amicably arranged, no order being required.

Respectfully submitted,

CLYDE LEAVITT,  
Chief Fire Inspector.

## APPENDIX "E".

List of Cases appealed to the Supreme Court of Canada, from February 1, 1904 to December 31, 1919.

| File No. | Subject.  | Decision.        |
|----------|---|------------------|
| 1114     | Montreal Terminal Railway <i>v.</i> Montreal Street Railway, Pius IX Avenue crossing, Montreal. Question of jurisdiction.....   | Allowed.         |
| 1492     | James Bay Railway <i>v.</i> Grand Trunk Railway crossing. Belt line spur. Question of law.....  | Dismissed.       |
| 383      | Ottawa Electric Railway and City of Ottawa <i>v.</i> Canada Atlantic Railway, <i>re</i> Bank Street subway, Ottawa. Question of law.....  | Dismissed.       |
| 1621     | Toronto Railway Company from order of the Board No. 7813, dated July 3, 1909, <i>re</i> high level bridge over the Don Improvement and tracks of the C.P.R., and G.T.R., Toronto. Question of jurisdiction..... | Dismissed.       |
| 588      | <i>Re</i> Toronto Union Station. A. R. Williams expropriation. Question of jurisdiction.....  | Dismissed.       |
| C. 1680  | Essex Terminal and Windsor, Essex and Lake Shore Railroad, crossing in township of Sandwich, Ont. Question of law.....  | Dismissed.       |
| C. 1309  | Robinson <i>v.</i> Grand Trunk Railway, two-cent rate. Question of law.....   | Dismissed.       |
| 689      | Canadian Pacific Railway <i>v.</i> Grand Trunk Railway <i>re</i> branch line, London, Ont. Question of jurisdiction.....  | Dismissed.       |
| 1497     | T. D. Robinson <i>v.</i> Canadian Northern Railway spur at Winnipeg. Question of jurisdiction.....  | Dismissed.       |
| 9527     | Montreal Street Railway <i>re</i> rates, Montreal Royal Ward. Question of jurisdiction.....   | Allowed.         |
| C. 4719  | Department of Agriculture, Province of Ontario <i>v.</i> Grand Trunk Railway, station at Vineland. Question of jurisdiction.....  | Dismissed.       |
| C. 3322  | <i>Re</i> Toronto Viaduct. Appeal by the Canadian Pacific Railway. Question of law.....   | Dismissed.       |
| C. 4897  | <i>Re</i> fencing and cattleguards, Order No. 7473. Appeal by C. N. Ry. Co. Question of jurisdiction.....   | Allowed in Part. |
| C. 4492  | City of Toronto <i>v.</i> Grand Trunk Railway and Canadian Pacific Railway Companies, <i>re</i> commutation rates. Question of law.....   | No action.       |
| C. 2545  | City of Ottawa and County of Carleton, <i>re</i> Richmond Road viaduct. Question of jurisdiction.....   | Dismissed.       |
| 13079    | Grand Trunk Railway <i>v.</i> Canadian Northern Ontario Railway, spur in township of Scarborough, Ont. Question of jurisdiction.....  | Dismissed.       |
| C. 3269  | Grand Trunk Railway <i>v.</i> British American Oil Companies, <i>re</i> oil rates. Question of law.....   | Dismissed.       |

SESSIONAL PAPER No. 20c

## APPENDIX "F".

LIST of General Orders and Circulars of the Board for the nine months ending December 31, 1919.

## GENERAL ORDER No. 262.

*In the matter of the General Order of the Board No. 151, dated November 8, 1915, prescribing the regulations governing baggage car traffic for the observance of every railway company within the legislative authority of the Parliament of Canada, as amended by General Orders Nos. 179, 181 and 191, dated respectively January 29, February 3 and May 26, 1917; and the application of the Canadian Pacific Railway Company for an Order further amending Rule 26 (d) of the said regulations:*

File No. 23328.

A question having been raised as to whether, in view of the punctuation of the section, the words "otherwise the carrier shall not be liable" apply only to the cause of damage or delay, as set out in the second sentence, and not to non-delivery, as set out in the first sentence of the rule; upon reading what is alleged in support of the application to amend, and to make the intention clear,—

*It is ordered:* That rule 26, subsection (d) of the Regulations Governing Baggage Car Traffic be, and it is hereby, further amended by striking out the comma after the word "receptacle" and before the word "otherwise" in the last line of the subsection and substituting therefor a period, making the words "otherwise the carrier shall not be liable" a separate sentence.

H. L. DRAYTON,  
*Chief Commissioner.*

OTTAWA, May 8, 1919.

## GENERAL ORDER No. 263.

*In the matter of the question of standardizing the regulations to be placed in effect on all railways operating in Canada governing the handling of guard rails, vestibule doors, and platforms on passenger cars.*

File No. 22338.

Whereas, the attention of the Board has been called to a number of accidents—in some instances fatal—caused by failure to keep the vestibule doors on passenger cars closed:

Upon reading what has been filed by the Canadian Railway Association for National Defence on behalf of railway companies operating in Canada, and upon the report and recommendation of the Chief Operating Officer of the Board, and in pursuance of the powers conferred upon it by sections 30 and 269 of the Railway Act and all other powers possessed by the Board in that behalf,—

*It is ordered:* That every railway company subject to the legislative authority of the Parliament of Canada, operating a railway by steam power, shall strictly conform

to the following rules and regulations governing the handling of guard rails, vestibule doors, and platforms on passenger cars which are hereby approved, namely:—

|   |  |
|---|--|
| Through and local (except suburban) trains, double track, right hand operation. | When running, all doors and platforms except those on rear right hand side of last car are to be kept closed. When standing, the right hand doors and platforms, only, are to be opened, except when necessary to open left hand doors to receive or discharge passengers. |
| Through and local (except suburban) trains, double track, left hand operation.  | When running, all doors and platforms except those on rear left hand side of last car are to be kept closed. When standing, the left hand doors and platforms only, are to be opened, except when necessary to open right hand doors to receive or discharge passengers.   |
| Through and local (except suburban) trains, single track.                       | All doors and platforms except those on rear of last car are to be kept close when running.  |
| Suburban trains, double track, right hand operation.                            | Doors and platforms on right hand side of train may be kept open and when open are to be securely fastened. Those on left hand side must be kept closed, except when necessary to open them to receive or discharge passengers.  |
| Suburban trains, double track, left hand operation.                             | Doors and platforms on left hand side of train may be kept open and when open are to be securely fastened. Those on right hand side must be kept closed, except when necessary to open them to receive or discharge passengers.  |
| Suburban trains, single track. . . . .  | All doors and platforms may be kept open and when open are to be securely fastened.  |

GENERAL.

|                                   |  |
|-----------------------------------|--|
| Movable guard rails. . . . .      | When there are movable guard rails on non-vestibule or open vestibule cars, guard rails must be kept closed, except that when trains are standing they are to be opened only on the side at which passengers are to be received or discharged. |
| Vestibule curtains. . . . .       | When cars are equipped with vestibule curtains these appliances are to be kept closed and are not to be uncoupled until trains stop at terminal or when change is to be made in consist of train.  |
| Observation cars. . . . .         | When rear car is observation car side gates and platforms must be kept closely when running.   |
| Tail gates, chain or bar. . . . . | Tail gate, chain or bar at rear of last car in train must invariably be kept closed.   |

2. "Suburban trains" as used in this order means, and applies only to, trains within commutation limits when carrying commutation traffic.

H. I. DRAYTON,  
Chief Commissioner.

OTTAWA, May 7, 1919.

GENERAL ORDER No. 264.

*In the matter of the application of the Bell Telephone Company of Canada, hereinafter called the "applicant company," for an Order permitting an increase in rates of twenty per cent (20 %) on all tolls, rates, and charges for exchange telephone service; for a revised schedule of long distance tolls; for a charge to be known as "service connection charge"; and a charge for moving telephone stations and other equipment; all as set forth in the tariffs of tolls accompanying the application and filed with the Board under case No. 955.*

Upon hearing the application at the sittings of the Board held in Ottawa on the 8th and 22nd days of January, 1919, and the 12th day of February, 1919, and in Toronto and Montreal on the 13th and 16th days of January, 1919, respectively, in the presence of counsel for the applicant company, the union of Canadian municipalities,

## SESSIONAL PAPER No. 20c

and the corporations of the cities and towns following, namely, Montreal, Toronto, Hamilton, Ottawa, Quebec, London, Windsor, Brantford, Outremont, Westmount, Levis, Granby, Brockville, and Verdun; the Boards of Trade of Toronto, Montreal, and Cornwall, the municipalities of North Gower and Marlborough, and the Proprietors' League of Montreal being represented at the hearings, the evidence of experts offered both in support of and in opposition to the application, and what was alleged; and upon reading the written statements, reports, and submissions of experts filed on behalf of the applicant company and the respondent corporations, as well as the reports of chartered accountants, made after examination of the applicant company's books which were available to them by the direction and under the authority of the Board's order; no objection being made to the long distance tolls as filed,—

*It is ordered*, That (a) the revised increased tolls for long distance service, (b) an increase of ten per cent (10%), instead of twenty per cent (20%), on all tolls, rates, and charges for exchange telephone service and charges incidental thereto, and (c) the charges for moving telephone stations and other equipment, all as set out in the application filed with the Board under said case No. 955, be, and they are hereby, authorized and allowed.

2. That the "Service Connection Charge," so-called, as applied for, be disallowed.

3. That where exchange services are at present installed, the increased tolls hereby authorized and allowed may become effective on July 1, 1919.

4. That the increased tolls hereby authorized and allowed for long distance service, for moving telephone stations and other equipment, and where new exchange services are installed subsequent to the date of this order and prior to July 1, 1919, may become effective on one week's notice.

H. L. DRAYTON,  
*Chief Commissioner.*

OTTAWA, May 19, 1919.

---

GENERAL ORDER No. 265.

*In the matter of the application of the Canadian Freight Association, on behalf of the railway companies subject to the jurisdiction of the Board, under section 321 of the Railway Act, for approval of a proposed Supplement No. 12 to the Canadian Freight Classification No. 16, containing certain increased, reduced, and additional ratings, on file with the Board under file No. 19367.87.*

Notice having been given by the railway companies in the *Canada Gazette* as required by section 321 of the Railway Act, and to the mercantile organizations enumerated in the general order of the Board No. 153, dated November 4, 1915, and the proposed changes having been considered at a conference of the representatives of the Grand Trunk, Canadian Pacific, and Canadian National Railways, the Canadian Manufacturers' Association, and the Montreal and Toronto Boards of Trade, held at Montreal on the 9th day of April, 1919, when various objections filed with the Board were considered, the proposed changes were agreed to, modified, or eliminated; and upon the consideration of what has been filed and upon the report and recommendation of the Chief Traffic Officer of the Board,—

*It is ordered*: That the proposed supplement No. 12, to the Canadian Freight Classification No. 16, as finally revised and submitted for approval by G. C. Ransom, chairman of the Canadian Freight Association, by his letter dated May 28, 1919, be, and it is hereby, approved.

H. L. DRAYTON,  
*Chief Commissioner.*

OTTAWA, June 9, 1919.

---

11 GEORGE V, A. 1921

## GENERAL ORDER No. 266..

*In the matter of the Railway Act and amending Act, 7-8 Edward VII, chapter 61, section 4, and the tariffs of telegraph companies.*

File No. 10041.90.

*It is ordered:* That, subject to such order or orders as the Board may from time to time issue, all telegraph companies within the legislative authority of the Parliament of Canada be, and they are hereby, authorized to charge the telegraph tolls published in their respective tariffs filed with the Board.

H. L. DRAYTON,  
*Chief Commissioner.*

OTTAWA, June 17, 1919.

## GENERAL ORDER No. 267.

*In the matter of section 246 of the Railway Act, as amended by chapter 37 of the Acts 7-8 George V, section 4, for the carrying of wires and cables along or across the tracks of railway companies under the jurisdiction of the Board; and the application of the Canadian National Railways for an order amending the Standard Conditions and Specifications for Wire Crossings, approved by the General Order of the Board No. 231, dated May 6, 1918, made therein.*

Case No. 4704.1.

Upon its being represented to the Board by the Canadian National Railways that the pay of inspectors for inspecting over-crossings and underground lines is fixed by said Standard Conditions and Specifications at three dollars per day, and that the actual cost of such inspections to the railway companies is eleven dollars per day; the Grand Trunk and Canadian Pacific Railway Companies concurring in the above representations,—

*It is ordered:* That the said Standard Conditions and Specifications for Wire Crossings, as approved by the general order of the Board No. 231, dated May 6, 1918, be, and they are hereby, amended by striking out the words "three dollars" after the word "exceed" and before the word "per" in the sixth line of paragraph 4 of part 1 of said Conditions and Specifications, and substituting therefor the words "eleven dollars"; by adding after the word "applicant" in the sixth line of said paragraph 4 the words "such payment to cover both wages and expenses"; by striking out the figures "\$3" after the word "exceeding" and before the word "per", in the eighth line of paragraph 4 of part 2 of said Conditions and Specifications, and substituting therefor the figures "\$11"; and by adding, after the word "applicant" in the eighth line on said paragraph 4, the word "such payment to cover both wages and expenses."

H. L. DRAYTON,  
*Chief Commissioner.*

OTTAWA, June 27, 1919.

SESSIONAL PAPER No. 20c

## GENERAL ORDER No. 268.

*In the matter of the application of the Express Traffic Association on behalf of the express companies within the legislative authority of the Parliament of Canada, for general increase in rates; also the applications of the cities of Montreal, Toronto, Winnipeg, London, Lachine, Walkerville, Ottawa, Vancouver, Regina, Fort William, Prince Albert, and Halifax, the University of Saskatoon, residents of Outremont, and the Exhibition Association, Limited, of Edmonton, for increased free collection and delivery areas; the applications of the village of Bancroft, Ont.; and the town of Bridgewater, Nova Scotia, for the establishment of a free delivery service; and the application of the express companies for restricted collection and delivery limits in the city of Quebec.*

File No 2904G.

Upon hearing the applications at the sittings of the Board held at Ottawa, Toronto, Montreal, Vancouver, Victoria, Nelson, Vernon, Lethbridge, Calgary, Edmonton, Saskatoon, Regina, Winnipeg, Fort William, Sudbury, and Moncton, on the 7th, 8th, 18th, and 24th days of January and the 19th day of March, 1919, the 13th day of January and the 5th day of February, 1919, the 16th day of January, 1919, the 14th day of February, 1919, the 17th day of February, 1919, the 21st day of February, 1919, the 19th day of February, 1919, the 24th day of February, 1919, the 25th day of February, 1919, the 26th day of February, 1919, the 28th day of February, 1919, the 1st day of March, 1919, the 3rd day of March, 1919, the 5th day of March, 1919, the 7th day of March, 1919, and the 24th day of March, 1919, respectively, in the presence of counsel for and representatives of the Express Traffic Association, the Canadian Express Company, the Dominion Express Company, members of the Boards of Trade of the cities of Ottawa, Toronto, Montreal, Vancouver, Lethbridge, Calgary, Edmonton, Saskatoon, Regina, Winnipeg, Charlottetown, and Summerside, the towns of Yorkton and Kenora, the Canadian Manufacturers' Association, the National Dairy Council, the Ottawa Wholesale Fruit Shippers, the Montreal Chamber of Commerce, the Montreal Produce Merchants' Association, the Canadian Fish Association, the Canadian Fish and Cold Storage Company, the Department of Fisheries, the Canada Food Board, the International Harvester Company, the Marconi Wireless Telegraph Company, the British Columbia Fruit Growers Association, the Wholesale Fish Dealers Association of British Columbia, the Canadian Fish Company, the greenhouse industry, the Commissioner of Fisheries for the Government of the province of British Columbia, the Gordon Head Company of Victoria, the Hatzic Fruit Growers Association, the British Columbia Growers, Limited, the Kootenay District Fruit Growers, the Department of Agriculture for the province of British Columbia, the Northern Okanagan Creamery Association, the Salmon Arm Farmers Exchange, the Kootenay Lake Farmers Institute, the Arrow Lake Farmers' Institute, the Crystal Dairy of Lethbridge, the Milk and Cream Shippers of Calgary, the Swift Canadian Company, the United Farmers of Alberta, the Saskatoon Pure Milk Company, the Saskatoon Brewing Company, the Retail Merchants' Association of Saskatchewan, the Saskatchewan Co-operative Creameries, the Western Canada Dairymen's Association, the Regina Bread Shippers, the Steele Briggs Seed Company, the Vipond Fruit Company, the Crescent Dairy Company, the Milwood Cream Producers, and the Belmont Cream Producers, other shippers appearing in person, the evidence adduced, and what was alleged; and upon reading the written submissions filed, judgment, dated July 17, 1919, was delivered by the Chief Commissioner and concurred in by the members of the Board, copy of said judgment being attached hereto,—

11 GEORGE V, A. 1921

*It is ordered:* That, subject to the terms of the said judgment of July 17, 1919, which is hereby made part of this order, the tariffs issued under the authority of and in conformity with the judgment be, and they are hereby, required to be published and filed at least five days previous to the date on which they are to become effective.

*And it is further ordered:* That the express freight collection and delivery plan outlined in the judgment be given effect to, and charts of the boundaries thereunder be posted for the information of the public, with the least delay consistent with the ascertainment by the companies of the necessary data and the acquirement of any necessary additional equipment.

W. B. NANTEL,  
*Deputy Chief Commissioner.*

OTTAWA, July 25, 1919.

---

GENERAL ORDER No. 269.

*In the matter of the Regulations regarding Plans and Specifications required to be filed with the Board, dated January, 1919, being standard rules for the construction of highway, farm, wire, and pipe crossings, and general requirements for interlocking appliances at rail-level crossings, junctions, and drawbridges.*

Case No. 4704.1.

Upon its being represented to the Board by the Grand Trunk Railway Company that the pay of inspectors for inspecting all crossings should be increased to \$11 a day instead of \$3, as provided in the case of wire crossings by the general order of the Board No. 267, amending the "Standard Conditions and Specifications for Wire Crossings," the Canadian National Railways and the Canadian Pacific Railway Company concurring in the above representations,—

*It is ordered:* That the said Regulations of the Board regarding Plans and Specifications required to be filed with the Board be, and they are hereby, amended by striking out the words "three dollars" after the word "exceed," in the sixth line of paragraph 7, page 14, and before the word "per," and substituting therefor the words "eleven dollars"; and by adding after the word "applicant," in the sixth line of the said paragraph 7, the words "such payment to cover both wages and expenses."

A. S. GOODEVE,  
*Commissioner.*

OTTAWA, August 7, 1919.

---

GENERAL ORDER No. 270.

*In the matter of the Order of the Board No. 10453, dated May 3, 1910, dealing with the location of markers on the passenger trains of the Grand Trunk Railway Company; and General Order No. 127, dated July 6, 1914, directing that cabooses of all railway companies subject to the jurisdiction of the Board be equipped with marker sockets as provided by the order.*

Files Nos. 13455 and 13455.2.

Upon its appearing that railway companies have marker sockets at the corners of the roof on some of their passenger cars, in addition to the lower position; upon the report of the Chief Operating Officer of the Board, that, in his opinion, and with

## SESSIONAL PAPER No. 20c

a view to standardization in equipment and practice, the requirements as to passenger cars and cabooses should be the same,—

*It is ordered* as follows:—

1. When passenger cars and cabooses are equipped with marker sockets in the lower position (the said lower position to be at such elevation as will permit of lamps and flags being placed therein from the platform or floor of the car without the use of steps), markers shall be carried in such lower sockets.

2. All passenger cars and cabooses hereafter constructed shall be equipped with marker sockets in the lower position.

3. All passenger cars and cabooses now in use, not equipped with marker sockets in the lower position, shall be so equipped on or before May 1, 1920.

4. The said Order No. 10453, dated May 3, 1910, and General Order No. 127, dated July 6, 1914, are hereby rescinded.

W. B. NANTEL,

*Deputy Chief Commissioner.*

OTTAWA, August 7, 1919.

---

GENERAL ORDER No. 271.

*In the matter of the Canadian Freight Classification and the express Classification for Canada, and sections 322 and 360 of the Railway Act, 1919:*

File No. 25639.

*It is ordered* as follows, namely:—

1. Any reissue of the Canadian Freight Classification, or of the Express Classification for Canada, or any supplement thereto, or any supplement to the issue of either now in force, shall be submitted in printed proof form for the approval of the Board before it is made effective.

2. Should such proposed reissue or supplement remove any goods from a lower to a higher class, or in any other way add to the cost of transportation of any goods, notice of the submission thereof shall be published by the applicant in the next two succeeding issues of the *Canada Gazette*, in the following form:—

Notice is hereby given that the.....did on the .....day of .....19...., submit to the Board of Railway Commissioners for Canada, for its approval, the Canadian Freight Classification (or the Express Classification for Canada) No. ...., (or Supplement No..... to the Canadian Freight Classification No. ...., or to the Express Classification for Canada No. ....)."

3. (a) Unless, for special reasons, exemption be granted by the Board, the following symbols shall be used in the said proof, and in the approved classification or supplement, namely:—

An asterisk to denote an addition.

A large dot to denote an increase in the previous rating, or charge, or cost of transportation.

A solid triangle to denote a reduction in the previous rating, or charge, or cost of transportation.

A dagger to denote any other change.

(b) Supplements shall show against each increase or reduction a reference to the previously approved item.

4. The application to the Board shall be accompanied by—

(a) Three copies of the said proof.

(b) The reasons for proposed changes involving increased cost of transportation.

(c) A copy of the notice furnished to the King's Printer for publication in the *Canada Gazette*.

5. One copy of the said proof and of the said notice for publication shall be furnished by the applicant to the following bodies, with the request that fully explained objections, if any, to proposed changes involving increased cost of transportation be filed by them with the Board of Railway Commissioners within thirty days from the receipt of the said proof and notice:—

The Canadian Manufacturers' Association.

The Ontario Grocers' Guild.

The Manufacturers' Association of British Columbia, Vancouver, British Columbia.

The Fruit Growers' Association of Ontario.

The Montreal Chamber of Commerce.

The Boards of Trade of—

Belleville, Ontario

Brandon, Manitoba.

Windsor, Ontario.

Winnipeg, Manitoba.

Woodstock, Ontario.

Also, in the case of the freight classification, to the railway companies which are not members of the Canadian Freight Association.

6. Previous orders or regulations of the Board conflicting herewith are hereby rescinded.

S. J. McLEAN,  
*Assistant Chief Commissioner.*

OTTAWA, September 10, 1919.

SESSIONAL PAPER No. 20c

## GENERAL ORDER No. 272.

*In the matter of carriers' liability in connection with outbound freight traffic during interswitching operations:*

File No. 6713.158.

Whereas, by Order No. 7562 (General Order No. 41) dated the 15th day of July, 1909, the Board prescribed conditions and limitations to be endorsed upon the forms of bill of lading therein approved for use in Canada; and it having developed that shippers and carriers are not always receiving the protection of the said conditions and limitations during the time when freight, in carloads, is being interswitched by the "terminal carrier" to the "line carrier" under the terms of the Board's General Interswitching Order No. 252, dated the 26th day of October, 1918; and it appearing to the Board that such protection should be provided for,—

*It is ordered:* That those terminal carriers that do not issue the bill of lading for the entire movement of such freight to its destination, and which are subject to the jurisdiction of the Board, shall give the shipper a local bill of lading on the appropriate form provided for in the said General Order No. 41, covering the movement by interswitching service to the point of transfer to the line carrier that issues the bill of lading to the destination; or, if preferred and in lieu thereof, shall give the shipper what is commonly known as an interline or switching ticket or receipt, which shall contain the words, "received subject to the conditions of the company's bill of lading, which are made a part hereof."

S. J. McLEAN,

*Assistant Chief Commissioner.*

OTTAWA, September 19, 1919.

## GENERAL ORDER No. 273.

*In the matter of the application of the Grand Trunk and the Canadian Pacific Railway Companies, hereinafter called the "applicants," for an Order extending the time for one year from the 30th September, 1919, within which they may equip their freight cars with safety appliances as required by the General Order of the Board No. 128, dated July 20, 1914:*

File No. 11654.

Upon hearing the matter at the sittings of the Board held in Ottawa, October 7, 1919, the applicants, the Canadian National Railways, Brotherhood of Locomotive Engineers, and Brotherhood of Locomotive Firemen and Enginemen being represented at the hearing, and what was alleged,—

*It is ordered:* That the railway companies subject to the jurisdiction of the Board be, and they are hereby, granted an extension of time until the 30th day of September, 1920, within which to make the changes required under the said General Order No. 128, dated July 20, 1914; the railway companies to continue their present practice of filing with the Board monthly reports of the progress made in complying with the requirements of the said order.

F. B. CARVELL,

*Chief Commissioner.*

OTTAWA, October 8, 1919.

## GENERAL ORDER No. 274.

*In the matter of the application of the Canadian Railway War Board, on behalf of railway companies subject to the jurisdiction of the Board, for free transportation under section 345 of the Railway Act, 1919:*

File No. 496.26.

Upon reading the application dated the 16th day of October, 1919, and considering what has been urged in support thereof, it is ordered that the railway companies of Canada subject to the jurisdiction of the Board be permitted, until further order, to carry free of charge the following persons, viz:—

- (a) Department of Immigration of Dominion of Canada.  
For such representatives of the department as may be required by the minister or deputy minister.
- (b) Departments of Immigration and Customs of the United States.  
For such representatives of the departments as may be required by the Commissioner or Deputy Commissioner of Immigration or Collector or Deputy Collector of Customs in charge of the district.
- (c) Fire Rangers.  
Fire Rangers within their respective districts, employed or authorized by Provincial Governments.
- (d) Families of former and deceased employees of railways.
- (e) Former employees of transportation companies and their families.
- (f) Deputy ministers of departments of the Federal Government, and those having the rank of deputy ministers.

F. B. CARVELL,  
*Chief Commissioner.*

OTTAWA, November 20, 1919.

## GENERAL ORDER No. 275.

*In the matter of indicating changes in tolls in freight, passenger, express, telephone, and telegraph schedules:*

File No. 19907.

Upon its appearing to the Board that comparison of freight, passenger, express, telephone and telegraph schedules, with those which they supersede or amend, should be facilitated; and in pursuance of the powers conferred upon the Board by section 324 of the Railway Act, 1919; and upon the report and recommendation of the Chief Traffic Officer of the Board,—

*It is ordered:* That all freight, passenger, express, telephone, and telegraph tariffs, and supplements thereto, applying between points in Canada, or from a point in Canada to a foreign country, hereafter filed with the Board, shall, except as hereinafter provided, indicate advances thereby made by the symbol "A" and reductions by the symbol "R," with the necessary explanatory note, in the following manner, namely:—

1. In schedules which show the rates opposite the stations: The proper symbol to be shown against each rate, or each rule or regulation, changed.
2. In schedules in which the rates appear in a table separated from the station list:—
  - (a) Unless the station groupings have been varied relatively to their rates, the proper symbol to be shown in the rate table in the manner prescribed in section 1 hereof;

## SESSIONAL PAPER No. 20c

- (b) If the station groupings have been varied relatively to their rates, the proper symbol to be shown against the reference on the station page to the rate table and against each rule or regulation changed.

Provided that if it is found impracticable in a certain case to indicate changes by either of the methods herein prescribed, application may be made to the Board, accompanied by a printer's proof of the proposed schedule, for relief from the provisions of this order in such case.

*And it is also ordered* that the character of the schedule be shown at the top of the title page, thus:—

“Advance,”  
 “Reduction,”  
 “Reissue,”  
 “New Rate or (Rates).”

and so on, as the case may be.

*And it is further ordered* that the order of the Board No. 16900, dated the 27th day of June, 1912, be, and the same is hereby, rescinded.

W. B. NANTEL,  
*Deputy Chief Commissioner.*

OTTAWA, December 16, 1919.

## GENERAL ORDER No. 276.

*In the matter of Order in Council P.C. 1863, as amended, and of all tolls now in effect by tariffs lawfully published and filed:*

File No. 28678.

In pursuance of the powers conferred upon the Board by section 325 of the Railway Act, 1919,—

*It is ordered:* That, subject to the provisions of the Railway Act, 1919, the tolls of the railway companies subject to the jurisdiction of the Board, in effect as of this date, are hereby continued in effect on and from January first, A.D., 1920.

F. B. CARVELL,  
*Chief Commissioner.*

OTTAWA, December 31, 1919.

## CIRCULAR No. 176.

*Weighing of cars.*

OTTAWA, April 9, 1919.

File 8799.13.

The Board has had its Operating Department for some time past investigating the methods and practices of the railways under its jurisdiction in connection with the manner in which cars are placed and weighed on track scales. Tests have been made of the scales at various points on the different railways by weighing cars when standing free, uncoupled at both ends, coupled on one end, and when the deck of the scale permits, coupled at both ends.

The report and recommendations of the Board's Chief Operating Officer as the outcome of these inquiries is as follows:

“The best results are obtained where one person is employed to supervise and check the weighing of cars and that person should be a ‘sworn in.’ This

11 GEORGE V, A. 1921

person need not be engaged as a weighmaster, exclusively, but a suitable person already working in some position on the staff should be instructed by the company's general officer having jurisdiction, and this person should have the power to instruct the men how to place the cars and supervise and take the record himself from the scale beam.

"Each company, in its own interests, should go over the facilities to see that it gets the best arrangement for protecting the scales from the severe winter conditions, water, etc."

The Board desires to have the comments of the various railway companies upon the foregoing recommendations, together with a concise statement as to the practice now followed by each railway, with a view to considering and adopting some uniform system which will work satisfactorily to both the shippers and the railways.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

OTTAWA, May 27, 1919.

CIRCULAR No. 177.

*Fire Extinguishers on Steam Railways.*

Case No. 1858.

Railway companies, operated by steam, subject to the jurisdiction of this Board, are required to furnish the following data, within thirty days of the date of this circular, covering fire extinguisher equipment on their respective lines, viz:—

| Type of Car.                  | Total Number of Cars. | Number Equipped one Ex. | Number Equipped two Ex. | Remarks. |
|-------------------------------|-----------------------|-------------------------|-------------------------|----------|
| 1. Observation . . . . .      |                       |                         |                         |          |
| 2. Compartment . . . . .      |                       |                         |                         |          |
| 3. Sleeping . . . . .         |                       |                         |                         |          |
| 4. Dining . . . . .           |                       |                         |                         |          |
| 5. First-class . . . . .      |                       |                         |                         |          |
| 6. Second class . . . . .     |                       |                         |                         |          |
| 7. Colonist . . . . .         |                       |                         |                         |          |
| 8. Combination . . . . .      |                       |                         |                         |          |
| 9. Through Mail . . . . .     |                       |                         |                         |          |
| 10. Through Baggage . . . . . |                       |                         |                         |          |
| 11. Through Express . . . . . |                       |                         |                         |          |
| 12. Cabooses . . . . .        |                       |                         |                         |          |
| 13. Total . . . . .           |                       |                         |                         |          |

- 14. What is the average cost of a fire extinguisher at this date?
- 15. How many different types in use? Give names.

In replying, it is desired that the information be given in the order and by the number shown herein.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

SESSIONAL PAPER No. 20c

OTTAWA, May 27, 1919.

## CIRCULAR No. 178.

*Fire Extinguishers on Electric Railways.*

Case No. 1853.

Electric railways, subject to the jurisdiction of this Board, are required to file within thirty days of the date of this circular replies to the following questions with respect to the equipment of their different cars with fire extinguishers, viz:—

1. If an order is issued requiring all passenger carrying cars on your railway to be equipped with fire extinguishers.
2. How many cars on your line would be affected?
3. How many cars have you at the present time equipped with fire extinguishers?
4. What is the average cost of an extinguisher at this date?

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

OTTAWA, June 23, 1919.

## CIRCULAR No. 179.

*Resuscitation from apparent death from electric shock.*

Files 10247 and 12016.

Attention is hereby directed to Circular No. 37, dated May 3, 1909, and Circular No. 119, dated July 29, 1913, issued by the Board relative to specific cases where railway employees were apparently killed by electric shock, and referring to the necessity of public education in regard to the possibility of saving lives by means of artificial respiration and the advisability of having the Rules for Resuscitation from Electric Shock universally learned.

These rules have been recently revised by the National Electric Light Association and were issued as a supplement to the *Electrical World* of New York on June 14, 1919.

The Board directs your attention to this recent revision and to the desirability of having these rules circulated broadcast; also requests that it be advised on or before July 15, 1919, as to what action has been taken.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

OTTAWA, June 30, 1919.

## CIRCULAR No. 180.

*Watchmen at crossings where there are more than four tracks, when gates are out of order.*

File 29157.

The Board has considered the replies received from the various railways in answer to its letter of March 4, on this subject, and is of the opinion that it will be sufficient for the present if the railway companies will undertake to appoint two watchmen when gates are out of order at a crossing where there are more than four tracks, and when

11 GEORGE V, A. 1921

the traffic or other conditions justify the same for the adequate protection of the public.

The Board requests that the railway companies file an undertaking on the lines as set out herein, together with a statement in detail of the crossings involved.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

---

OTTAWA, October 3, 1919.

CIRCULAR No. 181.

*Filling in of trestles by railways.*

File No. 29672.

I am directed by the Board to ask that railway companies, subject to its jurisdiction, show cause why a general order should not be made requiring railway companies to obtain permission from the Board before filling in trestles which landowners or farmers had made use of as undercrossings.

It frequently happens that after a railway starts filling in a trestle some interested landowner writes to the Board that his rights to an undercrossing are being infringed and requesting an investigation that could easily have been made before the work started, if the railway had notified the Board that it intended to undertake the work.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

---

OTTAWA, October 29, 1919.

CIRCULAR No. 182.

*Inspection and Testing of railway steam boilers, other than locomotive boilers.*

File 29110-1.

The attention of the Board has been drawn by provincial authorities to the existing conditions with regard to the inspection of railway steam boilers other than locomotive boilers, such inspections not having been performed by provincial inspectors in one or two of the provinces for the reason that the railway companies claim that in complying with the orders of this Board they have fulfilled their obligations, the result being that the protection aimed at by the different Acts is defeated and the public is not safe-guarded.

The Board desires that railway companies, subject to its jurisdiction, consider the situation and file with the Board an expression of opinion on the whole question raised and as to whether such inspections should be made by provincial authorities, or otherwise.

By order of the Board.

A. D. CARTWRIGHT,  
*Secretary.*

SESSIONAL PAPER No. 20c

OTTAWA, October 30, 1919.

## CIRCULAR No. 183.

*Condition of hand brakes on electric cars.*

File 9610.

The Board's Operating Department have examined into the condition of hand brakes on air equipped electric cars and, in some cases, it has been found that they are not kept in proper working order. With a view to remedying the situation it is suggested that the following addition be made to clause 1 of General Order No. 56, after the word "appliances":—

"Which must be maintained in good condition".

The Board would be glad to have, at an early date, the views of electric railway companies under its jurisdiction upon the proposed amendment.

By order of the Board.

A. D. CARTWRIGHT,

*Secretary.*

OTTAWA, November 20, 1919.

## CIRCULAR No. 184.

*Reporting of accidents.*

File No. 45.

Reports covering accidents attended by personal injury are, in many cases, being addressed to the secretary. Railway companies, subject to the Board's jurisdiction, are requested to give instructions that these accident reports be addressed to the Chief Operating Officer, Board of Railway Commissioners, Ottawa, Ont., in accordance with the requirements of General Order No. 244, dated July 26, 1918.

By order of the Board.

A. D. CARTWRIGHT,

*Secretary.*

OTTAWA, November 26, 1919.

## CIRCULAR No. 185.

*Smoke nuisance from railway stationary plants.*

File 23177.

Complaint has been made to the Board of serious nuisance arising in cities by reason of the befouling of the atmosphere by dense or opaque smoke emitted from the stationary plants of railways in such municipalities.

The Board desires to be informed by the railway companies subject to its jurisdiction, within thirty days of the date of this circular, whether they are agreeable to the issuance of a general order extending the application of General Order No. 18 to stationary plants and requiring that such stationary plants be equipped so as to prevent the unnecessary and unreasonable emission of dense or opaque smoke, failing which a hearing of all parties involved will be held and a decision arrived at in the matter.

By order of the Board.

A. D. CARTWRIGHT,

*Secretary.*

# REPORT

OF THE

## BOARD OF RAILWAY COMMISSIONERS FOR CANADA

---

*To the Governor in Council:*

Pursuant to the provisions of section 31 of the Railway Act, 1919, the Board of Railway Commissioners for Canada has the honour to submit its Sixteenth Report for the year ending December 31, 1920.

Since the publication of the last report the following amendments have been made to the Railway Act, 1919:—

*“Chapter 65, 10-11 George V. An Act to Amend the Railway Act, 1919.  
Assented to 1st July, 1920.*

“His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

“1. Section six of the Railway Act, 1919, chapter sixty-eight of the statutes of 1919, is amended by adding thereto the following subsection:—

“(2) The provisions of paragraph (c) of this section shall be deemed not to include or apply to any street railway, electric suburban railway or tramway constructed under the authority of a provincial legislature, and which has not been declared to be a work for the general advantage of Canada otherwise than by the provisions of the said paragraph. Provided that this subsection shall not affect or come into force with respect to any street railway, electric suburban railway or tramway in the province of British Columbia until the expiration of one year from the passing of this Act.”

Also the following Act:—

*“Chapter 66, 10-11 George V. An Act to Amend the Railway Act, 1919.  
Assented to 1st July, 1920.*

“His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

“1. The Railway Act, 1919, chapter sixty-eight of the statutes of 1919, is amended by inserting the following section as section seventy-one A, immediately after section seventy-one thereof:—

“71. A (1) The Board shall have power to do and authorize such acts and things and to make from time to time such orders and regulations as the Board, by reason of real or apprehended scarcity of coal or other fuel supplies in Canada, may deem necessary or advisable for the provision of such supplies and for the distribution, control and disposition thereof.

11 GEORGE V, A. 1921

"(2) Without restricting the generality of the foregoing terms, it is declared that the powers hereinbefore conferred upon the Board shall extend to the trading in and to the exportation, importation, production and manufacture of coal and other fuel supplies.

"(3) All orders and regulations made under this section by the Board shall have the force of law, and may be varied, extended, or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended, or revoked, neither the previous operation thereof nor anything duly done thereunder, shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accruing, or incurred thereunder be affected by such variation, extension or revocation.

"(4) This section shall continue in force until the last day of the next succeeding session of Parliament and no longer."

### PUBLIC SITTINGS OF THE BOARD

The applications include a great variety of matters falling within the jurisdiction of the Board under the Railway Act, varying from the complaint of a private individual to weightier matters of general public interest affecting the community as a whole.

| Provinces                  | Number |
|----------------------------|--------|
| Ontario.. . . . .          | 45     |
| Quebec.. . . . .           | 5      |
| Manitoba.. . . . .         | 4      |
| Saskatchewan.. . . . .     | 4      |
| Alberta.. . . . .          | 6      |
| British Columbia.. . . . . | 6      |
| Nova Scotia.. . . . .      | 1      |
| New Brunswick.. . . . .    | 2      |
| Total.. . . . .            | 73     |

The applications include a great variety of matters falling within the jurisdiction of the Board under the Railway Act, varying from the complaint of a private individual to weightier matters of general public interest affecting the community as a whole.

### FORMAL AND INFORMAL MATTERS

The number of informal matters dealt with by the Board, as distinguished from matters heard at public sittings, constitutes a considerable percentage of the total applications and complaints dealt with by it, that is to say, of a total of 3,770 applications and complaints received and dealt with by the Board 91 per cent was disposed of without the necessity of such formal hearing. These informal complaints, dealt with and settled without the necessity of a hearing, entail in many instances a considerable amount of inquiry and consideration on the part of the Board's officials, and cover a wide range of subjects, as, for example, a complaint of a more or less trivial nature to a matter of general public interest affecting the community as a whole, or involving the application of some general principle, regarding the railway rates.

### RAILWAY GRADE CROSSING FUND

In accordance with the provisions of subsection (5) of section 262 of the Railway Act, 1919, provision was made that the sum of \$200,000 each year, for ten consecutive years from the 1st day of April, 1919, was appropriated and set apart from the consolidated Revenue Fund for the purpose of aiding in the providing by actual

SESSIONAL PAPER No. 20c

construction work of protective safety, and conveniences for the public in respect of highway crossings of the railway at rail level, in existence on the said 1st day of April, the said sums to be placed to the credit of a special account to be known as "The Railway Grade Crossing Fund," to be applied by the Board, subject to certain limitations set out in the Act, solely towards the cost (not including that of maintenance and operation) of actual construction work for the purpose specified.

In dealing with such crossings, the Board issued, between the 1st day of April, 1909, and the 31st day of December, 1920, 443 Orders, providing for 497 crossings, as follows:—

|  |     |
|--|-----|
| By Electric bells . . . . .                              | 262 |
| Gates . . . . .  | 113 |
| Subways . . . . .  | 52  |
| Overhead bridges . . . . .                               | 24  |
| Diversion of highways . . . . .                          | 32  |
| Closing of streets . . . . .                             | 7   |
| Removal of view obstructions . . . . .                   | 5   |
| Shelter . . . . .  | 1   |
| Towers . . . . .   | 3   |
| Wig-wags . . . . .                                       | 5   |
| Bell and wig-wag . . . . .                               | 6   |
| Diversion highway and removal view obstruction . . . . . | 1   |
| Bell and removal view obstruction . . . . .              | 1   |

It will be seen by comparing the total number of crossings protected with the Fifteenth Annual Report of the Board, that the increase for the twelve months ending December 31, 1920, in the number of crossings protected, number 19, made up as follows:—

|  |   |
|--|---|
| By Bells . . . . .                                       | 4 |
| Gates . . . . .  | 2 |
| Subways . . . . .  | 1 |
| Bridges . . . . .  | 1 |
| Diversion highways . . . . .                             | 4 |
| Removal view obstructions . . . . .                      | 1 |
| Wig-wag . . . . .  | 3 |
| Bell and wig-wag . . . . .                               | 3 |
| Diversion highway and removal view obstruction . . . . . | 1 |
| Bell and removal view obstruction . . . . .              | 1 |

NOTE.—19 crossings and 21 protections consequent on account of 2 bells at one crossing and 3 diversions and one subway for 3 crossings.

It will be noted that under the new consolidated Railway Act provision is made that the total amount of money to be apportioned and directed and ordered by the Board to be payable from the annual appropriation, shall not in the case of any one crossing exceed twenty-five per cent of the cost of the actual construction work in providing such protection, and shall not in any such case exceed the sum of \$15,000, and that no such money shall in any one year be applied to more than six crossings on any one railway in any one municipality, or more than once in any one year to any one crossing.

Subsection (3) of section 262 of the consolidated Railway Act provides that in case any province contributes towards the said fund, the Board may apportion, direct and order payment out of the amount so contributed by such province, subject to any conditions and restrictions made and imposed by such province in respect of its contribution.

GENERAL DECISIONS AND RULINGS OF THE BOARD

Submitted herewith, epitomised, are some of the more important matters dealt with by the Board at its public sittings for the year ending December 31, 1920. The principal judgments of the Board will be found under appendix "A" to this report.

## GENERAL ORDERS

The following is a brief summary of some of the matters dealt with under the Board's General Orders:—

Direction with respect to freight traffic, that all railway companies subject to the Board's jurisdiction publish and file tariffs providing for certain allowances per car from the ascertained weights of loaded cars, subject to the condition that the said allowances shall not operate to reduce the net weights of the loadings of the cars below the minimum carload weights provided for in the tariffs applicable thereto.

Direction that the Board's General Order No. 173, dated October 26, 1916, be amended to permit increases in the existing charges for heating refrigerator cars by the carriers in addition to the freight rates pertaining to the loadings thereof, and also in addition to the charges, if any, for the use of the said cars.

Direction that the Board's General Order No. 260, dated the 17th March, 1919, in regard to the regulations for the transportation by freight of dangerous articles other than explosives, be amended by striking out the second paragraph of clause "J" of the rule and substituting therefor the provisions set out in the Board's General Order No. 287.

Direction that the Board's General Order providing for Standard Conditions and Specifications for Wire Crossings, dated the 6th May, 1918, be amended by striking out paragraph 4 of part 1 and providing that the wages of the inspector employed by the railway company shall not exceed \$11 per day, to be paid by the applicant, such payment to cover both wages and expenses, and that when the applicant is a municipality and the work is on a highway under its jurisdiction, the wages of the Inspector shall be paid by the railway company.

Direction that all railway companies subject to the Board's jurisdiction adopt and put into force, not later than the 1st June, 1920, certain rules relative to the inspection of locomotives and tenders, as set out in the Board's General Order No. 289.

Direction in regard to the regulations to be prescribed for the issue and recording of free transportation by railway companies subject to the jurisdiction of the Board, in accordance with the particulars set out in the Board's General Order No. 290.

Direction that all locomotives of railway companies subject to the jurisdiction of the Board be equipped with a seat for the brakeman and that the seat provided be of a comfortable design and where practicable equipped with back and window arm rest; and that such accommodation be provided by the 1st May, 1921.

Direction that the Board's General Order No. 50 in regard to the furnishing of temporary doors for cars loaded with grain, as amended by the Board's General Order No. 184, be amended by compelling the railway companies to furnish car doors to enable cars to be used for traffic in accordance with the allowances set forth in the Board's General Order No. 294.

Direction that the Regulations for the Transportation by Express of Acids, Inflammables, Oxidizing Substances, etc., on file with the Board, be approved subject to certain changes and additions, as set forth in the Board's General Order No. 296.

Direction that the telegraph companies subject to the Board's jurisdiction be permitted to file with the Board for its consideration tentative schedules.

Direction of the Board that the forms of live stock contract and special contract with attendants in charge of stock be approved in accordance with the terms of the Board's General Order No. 298.

Direction of the Board prohibiting on and after the 1st August, 1920, the exportation of coal from Atlantic, St. Lawrence river and gulf ports of Canada, except to the United States or to Newfoundland, unless otherwise permitted in accordance with regulations promulgated by the Board.

## SESSIONAL PAPER No. 20c

Direction in the matter of the International Railway rates, fares and charges, as affected by an Order of the Interstate Commerce Commission of the United States, dated July 29, 1920, and declaring that the proportions of through rates, fares and charges between the United States and Canada, fares in both directions, in effect at the date of the order, accruing within Canada, may, by general or blanket supplement to existing tariffs, be increased to the extent that the through rates, fares, and charges shall conform to the increases authorized by the said order of the Interstate Commerce Commission; except on coal and coke, increases on which are reserved pending the judgment of the Board in the application of Canadian carriers for increased rates within Canada.

Direction of the Board, in pursuance of the powers conferred upon it by chapter 66 of the Acts of Parliament of Canada, 1920, authorizing certain regulations governing the control of fuel supplies, as set out in the Board's General Order No. 314.

Direction of the Board in the matter of expediting the transportation performance of coal-carrying equipment in Canada, and under the powers conferred upon it by chapter 66 of the Acts of Parliament of Canada, 1920.

Direction of the Board that the proper charge for milling-in-transit within Canada of grain, the product of which is reshipped to the United States, be one cent per one hundred pounds on and after the 26th August, 1920.

Direction of the Board that the railway companies withdraw Special Instruction "E" from their respective working timetables and thereafter observe the Uniform Code of Rules for Canadian Railways approved by the General Order of the Board No. 42, dated the 12th July, 1909.

Direction of the Board that all cattle passes hereafter constructed by railway companies be at least 5 feet wide and 6 feet high, which dimensions are required to be adopted as a standard for cattle pass construction unless otherwise ordered by the Board.

CANADIAN MANUFACTURERS ASSOCIATION AND TORONTO BOARD OF TRADE *v.* CANADIAN EXPRESS TRAFFIC ASSOCIATION*Stations-Flag-Express-Traffic-Caretaker.*

The Board refused to direct that at every flag station at which express matter is or may be received, there should be an agent or employee to receive and take care of such express matter, but in dealing with the appointment of a caretaker at a flag station in future, one of the functions of the caretaker should be to take care of the express traffic. Flag Station Case 8 C.R.C. 151.

The matter was heard at Ottawa, October 21, 1919.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated March 22, 1920, concurred in by the Chief Commissioner, Deputy Chief Commissioner, and Commissioners Goodeve and Boyce. 26, Can. Ry. Cases, 35.

UNITED GRAIN GROWERS *v.* CANADIAN NATIONAL RYS.

## 1. Jurisdiction-Refund-Traffic-Movement-Tolls-Legal.

The Board has no jurisdiction to direct refunds provided the traffic movement is in compliance with legal tariffs of tolls.

## 2. Jurisdiction-Negligence-Liability-Claim-Loss and Damage-Carrier-Court of Competent Jurisdiction.

The Board has no jurisdiction to pass upon the question of the liability of a carrier for negligence, either as bearing on the matter of loss or damage, or on a bare

statement of liability, which may or may not be used as a basis for further action. The remedy in cases of negligence must be sought by action in a Court of competent jurisdiction.

Application for an order directing the respondent to grant compensation for loss occasioned by delivery to Thunder Bay Elevator instead of Paterson's as directed.

The application was heard at Winnipeg, November 15, 1919.

Complaint of the United Grain Growers, Limited, Winnipeg, that the Canadian National Railways have refused compensation for loss occasioned by delivery to the Thunder Bay Elevator instead of to Paterson's Elevator, as directed, car C.N.R. 44458, grain ex Deepdale, December 5, 1918, consigned to the United Grain Growers, Limited, Port Arthur, care Canadian National Railways Terminal Elevator.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated January 12th, 1920, concurred in by the Chief Commissioner and Commissioner Rutherford. 26, Can. Ry. Cases, 26.

#### CONSOLIDATED GAS, ELECTRIC AND POWER COMPANY V. CANADIAN PACIFIC RAILWAY COMPANY

##### 1. Jurisdiction—Tolls—International-Joint—Movement—Outbound—Inbound.

The jurisdiction of the Board with regard to tolls begins at the international boundary on an inbound movement and ends there on an outbound movement. In actual practice the Board usually deals with international joint tariffs of tolls for an outbound movement only and does not interfere with the tariff properly filed under United States practice for the inbound movement.

*Continental Prairie and Winnipeg Oil Cos. v. Canadian Pacific et al, Ry. Cos.*, 13 C.R.C. 156, at p. 161; *Essex Terminal Ry. Co. v. Grand Trunk et al, Ry. Cos.*, 22 C.R.C. 301, at p. 305 followed.

##### 2. Carriers—Participating—Toll—Basis—Movement—Mileage.

Where participating carriers in the United States, interested in two-thirds of the mileage movement are concerned in the proper scope and extent of the tariff basis, they should be referred to the United States jurisdiction for the appropriate finding and remedy within that jurisdiction. Complaint against the tolls on bog iron are charged by the respondent via connecting carriers from points in Quebec to Baltimore, Md., U.S.A.

After the preliminary hearing the application was disposed of on material on file with the Board.

The facts are fully set out in the Judgment of Assistant Chief Commissioner McLean, dated January 19, 1920, concurred in by the Deputy Chief Commissioner and Commissioners Goodeve and Rutherford. 26, Can. Ry. Cases, 11.

#### CITY OF ST. BONIFACE V. CANADIAN PACIFIC RAILWAY COMPANY

##### 1. Railway Crossed by Highway—Cost of Protection—Railway Grade Crossing Fund—No Contribution—Railway Act, 1919, Section 262 (1).

Where a highway is opened across a railway and protection is required, the full cost of protecting the crossing is imposed upon the municipality without any contribution from the Grade Crossing Fund, sec. 262 (1), but where it is not necessary to deal with the question of protection at the outset, the Board may at a later date consider the matter from the standpoint of the respective volumes of traffic on the highway and railway and deal with it accordingly.

*Town of St. Pierre v. G.T.R.* 13 C.R.C. 1, distinguished.

Application for an order authorizing the opening of Rue Messier across the tracks of the respondent in the city of St. Boniface.

## SESSIONAL PAPER No. 20c

The application was heard at Winnipeg, December 2, 1919.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated February 13, 1920, concurred in by the Chief Commissioner, Deputy Chief Commissioner and Commissioners Goodeve and Boyce. 26, Can. Ry. Cases, 45.

## IN re EXPRESS TOLLS

1. Jurisdiction—Express Companies—Facilities—Stations—Discretion—Unjust Discrimination—Carriage—Railway Act, section 352—Railway Act, 1919, section 364.

The amendment in section 364, former section 352, "and may order that all such goods as the Board may think proper shall be carried by express," has the effect of removing the discretion the express companies formerly had, and prohibits unjust discrimination between goods as to carriage. The Board has no jurisdiction to direct express companies to install or reinstate at a station or stations, express facilities.

2. Jurisdiction—Express Companies—Tolls—Contract Limiting Liability—Railway Act 1919, section 365.

The Board's jurisdiction over express companies is confined to tolls, contracts limiting liability and directing what goods shall be carried by express.

*Canadian and Dominion Express Cos. v. Commercial Acetylene Co.*, 9 C.R.C. 170, at p. 174, followed.

Informal Ruling of the Board, March 24, 1920. 26, Can. Ry. Cases, 32.

## GRAND TRUNK RAILWAY COMPANY v. KITCHENER AND WATERLOO STREET RAILWAY COMPANY

## Protection—Apportionment of Costs—Public Interest.

Where the Board clearly intended by Order No. 5885 that the respondent should bear the costs of protecting the crossing (other than that borne by the applicant under the order of the Railway Committee of the Privy Council dated October 10, 1895) and it has become necessary in the public interest (owing to conditions over which the respondent has no control) that the crossing should be protected during both day and night, a fair apportionment of the costs would be that 50 per cent should be borne by each of the parties interested.

*Grand Trunk Ry. Co. v. Kitchener and Waterloo Street Ry. Co.*, 24 C.R.C. 13.

Application for an order rescinding No. 5885 and directing the respondent to pay 50 per cent of the wages of the watchman employed at the diamond crossing at King street, Kitchener, Ont.

The application was heard at Kitchener, January 12, 1920.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated January 29, 1920, concurred in by the Chief Commissioner, the Assistant Chief Commissioner and Mr. Commissioner Boyce. 26, Can. Ry. Cases, 40.

## O'REILLY &amp; BELANGER v. GRAND TRUNK RAILWAY COMPANY

## Carriers—Facilities—Terminal Station—Traffic—Freight—Unloading and Delivery—Completion—Unjust Discrimination—Railway Act, 1919, section 316

Under section 316 of the Railway Act, 1919, the duty of a carrier to furnish facilities at the terminal station relates merely to the unloading and delivery of freight traffic, and does not include facilities for sale, thus the prohibition against unjust

11 GEORGE V, A. 1921

discrimination in furnishing facilities does not apply to the refusal of a carrier to allot space to enable a coal dealer to carry on business on advantageous terms with his competitors.

*Cunco v. G.T.R. Co.*, 18 C.R.C. 414, *followed*.

Application for an order directing the respondent to provide reasonable and proper facilities for the unloading, handling, storing and delivery of coal at the coal trestle, and to terminate a certain agreement or lease in respect of the said trestle made between the respondent and the Coal Trestle Company.

The application was heard at Ottawa, December 2, 1919.

The facts are fully set out in the judgment of Mr. Commissioner Goodeve, dated December 10, 1919, concurred in by the Deputy Chief Commissioner and Mr. Commissioner Boyce. 26, Can. Ry. Cases, 20.

UNITED GRAIN GROWERS AND MUNICIPALITY OF FALHER V. MUNICIPALITY OF DONNELLY *et al.*

1. Stations—Location—Distance Apart—Good Railway Practice—Western Canada.

The principle of establishing stations six to eight miles apart has been recognized for many years as good railway practice in Western Canada.

2. Carriers—Discretion—Siding—Between Stations.

The Board refused an application for the establishment of a siding about equal distance between two stations 7.6 miles apart, declining to interfere with the discretion of the railway company in the development of its interests.

Application for an order authorizing the use of the present temporary industrial siding at Falher, on the Edmonton, Dunvegan and British Columbia Railway.

The application was heard at Edmonton, November 28, and Regina, December 1, 1919.

The facts are fully set out in the judgment of the Chief Commissioner, dated March 22, 1920, concurred in by Assistant Chief Commissioner McLean and Commissioners Boyce and Rutherford. 26, Can. Ry. Cases, 53.

## APPEALS FROM DECISIONS OF THE BOARD

For the year ending December 31, 1920, there was one appeal made to the Governor-in-Council, and one appeal to the Supreme Court of Canada from the decisions of the Board.

With reference to the appeal to the Governor-in-Council, this was an appeal of the city of Windsor for rescission of the Board's Order No. 30028 authorizing the Canadian Pacific Railway Company to construct tracks to proposed freight-shed, at grade, across the unopened portion of Caron avenue, Windsor. The appeal was dismissed.

The appeal to the supreme Court was on a question of jurisdiction in the matter of the British Columbia Electric Railway Company's application for increased fares, and this appeal is still pending.

## ORDERS, GENERAL ORDERS AND CIRCULARS.

The total number of orders issued for the year ending December 31, 1920, was 1292. The number of general circulars issued by the Board, directed to all railway companies subject to its jurisdiction was 5. The general orders as distinguished from other orders issued by the Board are those affecting all railway companies subject to

SESSIONAL PAPER, No. 20c

its jurisdiction. It will be noted that the number of general orders issued by the Board for the year ending December 31, 1920, was 52.

A list of the general orders and circulars for the year ending December 31, 1920, will be found compiled under appendix "F" to this report.

JUDGMENTS OF THE BOARD

A summary of the principal judgments of the Board delivered between the 1st January, 1920, and the 31st December, 1920, will be found under appendix "A".

APPLICATIONS TO THE BOARD

The total number of applications, including informal complaints made to the Board for the year ending December 31, 1920, was 3,770.

TRAFFIC DEPARTMENT OF THE BOARD.

In the Traffic Department of the Board the number of tariffs received and filed for the year ending December 31, 1920, was as follows:—

|  |               |
|--|---------------|

The total number of tariffs filed from February 1, 1904, to December 31, 1920, was 944,747.

The details in regard to the tariffs will be found under appendix "B" to this report.

ENGINEERING DEPARTMENT OF THE BOARD

In the Engineering Department of the Board a large number of inspections were made covering the whole Dominion. These inspections for the year ending December 31, 1920, number 197, and cover inspections for the opening of a railway for the carriage of traffic, pursuant to the requirements of section 276 of the Railway Act, inspections of culverts, highway crossings, cattle-guards, road crossings, bridges, subways and general inspections falling within the scope of the work of the Engineering Department of the Board.

OPERATING DEPARTMENT OF THE BOARD

Under the work of this department is included the inspection of locomotive boilers and their appurtenances, the inspection of safety appliances on cars and locomotives, the investigation into accidents causing personal injury or loss of life, the reporting on the location of stations, matters of protection at highway crossings, and train and station service performed by the railway companies.

Under appendix "C" will be found a full and detailed report of the Chief Operating Officer of the department.

ACCIDENTS AND ACCIDENT INVESTIGATIONS

Owing to the fact that the report of the Board's Chief Operating Officer in connection with the fifteenth report of the Board was for a period of nine months ending the 31st December, 1919, this being necessitated by an amendment to the Railway

11 GEORGE V, A. 1921

Act altering the date of the report of the Board from the 31st March, to the 31st December in each year, it is not deemed practicable to make any comparison with the previous year.

Full particulars of passengers and employees killed and injured, and other general information in regard to trespassers killed and injured, accidents at protected and unprotected crossings, etc., will be found under appendix "C."

## FIRE INSPECTION DEPARTMENT OF THE BOARD

As reported in previous annual reports, the work of the Fire Inspection Department has been carried on in co-operation with the various Dominion and provincial fire-protective organizations.

During the fire season of 1920, a grand total of 1,732 fires from all causes were reported as having originated within 300 feet of the railway track in forested territory, along lines subject to the jurisdiction of the Board. Of this total, 30 per cent occurred in British Columbia, 28 per cent in the Prairie Provinces, 29 per cent in Ontario, 8 per cent in Quebec, 2 per cent in New Brunswick and 3 per cent in Nova Scotia.

Of the grand total, 745 fires covered less than one-fourth acre each, and did no damage, while 987 larger fires are reported to have burned over 106.853 acres and destroyed forest growth and forest products valued at \$222,931, and other property valued at \$75,913, a total of \$298,844. Of these fires, 85.6 per cent are definitely attributed to railway agencies, 3.5 per cent to known causes other than railways, and 10.9 per cent to unknown causes.

Of the total area burned over, 92.3 per cent is chargeable to railway causes, 1.2 per cent to known causes other than railways, and 6.5 per cent to unknown causes.

Of the total damage, 93.9 per cent is chargeable to railway causes, 2.3 per cent to known causes other than railways, and 3.8 per cent to unknown causes.

Of the 1,483 fires which the railways are definitely charged with having caused, 1,414 fires are attributed to sparks from locomotives and 69 fires to employees.

The fire protective appliances on 2,269 locomotives operating in forested territory were inspected by officers of the Fire Inspection Department during the fire season of 1920. The fire protective appliances on 406 locomotives were found defective, being 18 per cent of the total inspected.

The Fire-Guard Requirements, applicable to the Prairie Provinces, were revised and reissued under date of April 20, 1920. Under this revision, the option was granted the railways of handling the construction of fire-guards in wild lands and fenced grazing lands on the basis of an eight foot ploughed strip instead of a sixteen-foot ploughed strip, except as to certain specified territory. The statistical fire-guard report for 1920 shows that 9,101.9 miles of fire-guards were constructed or maintained in the Prairie Provinces.

Under appendix "D", will be found a full report of the Chief Fire Inspector, together with summaries of fire reports, inspection of locomotives and fire guard construction.

## ROUTINE WORK OF THE BOARD

### RECORD DEPARTMENT

Since the publication of the last annual report there has been no change in connection with the clerical staff of this department.

Below is given a table setting forth the number of applications filed, and letters received, during the year ending December 31, 1920, together with the number of orders issued:—

|  |        |
|--|--------|
| Number of applications made. . . . .           | 3,770  |
| " " filings received during the year. . . . .  | 32,270 |
| " " out-going letters during the year. . . . . | 26,980 |
| " " Orders issued during the year. . . . .     | 1,292  |

SESSIONAL PAPER No. 20c

THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA

RECORD ROOM

STATEMENT showing the applications made to the Board under the various Sections of the Railway Act, for the year ending December 31, 1920

Senior Filing Clerk.

## APPENDIX "A"

PRINCIPAL JUDGMENTS OF THE BOARD FOR THE YEAR ENDING  
DECEMBER 31, 1920

## MILK RATES—SUSPENSION OF CERTAIN TARIFFS

*Judgment of Commissioner Boyce, dated December 18, 1919, concurred in by Chief Commissioner Carvell, Assistant Chief Commissioner McLean and Commissioner Rutherford, Deputy Chief Commissioner Nantel and Commissioner Goodeve dissenting.*

Application is made by the National Dairy Council for suspension of the following tariffs, for shipment of milk in passenger, or mixed passenger and freight train service (baggage cars), viz:—

1. Canadian Pacific Ry. Co.'s Tariff, C.R.C. No. E. 25.
2. Grand Trunk Ry. Co.'s Tariff, C.R.C. No. E. 2750.
3. Canadian National Ry. Co.'s Tariff, C.R.C. No. E. 29.
4. New York Central R.R. Co.'s Tariff, C.R.C. No. 249.
5. Quebec, Montreal & Southern Ry. Co.'s Tariff, C.R.C. No. 271.
6. Napierville Junction Ry. Co.'s Tariff, C.R.C. No. 113.
7. Montreal & Southern Counties Ry. Co.'s Tariff, Supplement No. 2 to C.R.C.

No. 22.

The first four tariffs were proposed to be made effective June 1, 1919; the fifth and sixth on June 15, and the seventh on the 25th of June, 1919.

The complainant points out that the present rates for the milk service for which the proposed tariffs provide substantial increase in charges, are found in C.P.R. Tariff C.R.C., No. E 2847, at page 20.

The substance of the objection to the proposed rates is that they are excessive; that the present rates afford adequate remuneration to the railways for the services performed in and about the carriage of this universal food commodity; that the present rates are all the traffic will, or should, bear; and that any increase is without justification, and would have the effect of increasing the cost to the consumer, of an essential food commodity. The Board of Trade of the city of Toronto joined in the objection, and, at the hearing, the Farmers' Dairy Company, Toronto, and the Ottawa Dairy Company, the Montreal Dairy Company, and the Border Chamber of Commerce, Windsor, were also represented.

Upon the representations of the applicant, and after interim submissions by the railways, and, pending a hearing and disposition thereupon, the Board, by order, suspended the operation of the tariffs, and, since the hearing, the railway companies concerned were required by the Board to submit statements of the tariff showing:—

1. The nature and extent of the milk movement to representative points—Montreal, Quebec, Ottawa, Toronto, Hamilton, London, Windsor, and any other representative points, upon the railway concerned in maintaining proposed tariff, to which the traffic moves.
2. The earnings on these movements at the proposed new rates, and the earnings on the old rates.
3. The extent, nature, and particulars of any factors, alleged to have contributed to the increased cost of the traffic, and necessitating, and alleged to justify the increase in rates—

SESSIONAL PAPER No. 20c

the delivery of which has occasioned some delay in getting the case ready for disposition.

The baggage car service for carriage of milk was inaugurated in 1886. The basis of these rates, then, were as follows:—

|   |                           |
|---|---------------------------|
| For 40 miles, or less. . . . .              | 15 cents per 8-gallon can |
| Over 40 miles and up to 80 miles . . . . .  | 20 cents per 8-gallon can |
| Over 80 miles and up to 120 miles . . . . . | 25 cents per 8-gallon can |

A revision of these rates went into effect May 1, 1891, as follows (Tariff 165):—

|                                      |                            |
|--------------------------------------|----------------------------|
| For distances 40 miles and under,    | 15 cents per 8-gallon can. |
| For distances 41 miles to 150 miles, | 20 cents per 8-gallon can. |

The effect of the revision being to effect a reduction of rates of carriage over 80 miles by 5 cents per 8-gallon can, with an extension of the maximum distance from 120 to 150 miles at 5 cents less per can than the rates of 1886 provided for.

In 1893 these rates were again varied in connection with a proposed change in the rates as to 4-gallon cans, as follows:—

|                            |                            |
|----------------------------|----------------------------|
| For 40 miles, or less,     | 8 cents per 4-gallon can.  |
| For 41 miles to 150 miles, | 11 cents per 4-gallon can. |

In June, 1911, the Board heard the application, made by the Montreal Milk Shippers' Association, asking (a) that the railway companies give a rate of 8 cents for a 4-gallon can and 15 cents for an 8-gallon can, respectively, up to 75 miles, and 11 cents for a 4-gallon can and 20 cents per 8-gallon can for all distances over 75 miles, that is, increasing the distances over which the rates prescribed in the tariff of 1893 on 4-gallon cans were effective, and, consequently, effecting a reduction in rate on the 4-gallon can; and (b) that certain conditions of carriage of the milk traffic be prescribed. By its Order, No. 15413, dated September 26, 1911, disposing of this application, the Board directed, *inter alia*, that on and after the first day of September, 1912, the railway companies should not be required to accept for transportation any cans of milk of less capacity than 8 gallons, whether containing milk or empty. This order effected a cancellation of the rates filed in 1893 on 4-gallon cans, by abolishing the traffic in that quantity, leaving the rates on 8-gallon cans as prescribed by Tariff 165, May 1, 1891, cited above. The order further prescribed conditions of carriage of the traffic, which had not theretofore been settled, and which had been the subject of frequent complaint and disputes between the shippers and carriers. As related to the history and growth of the traffic, the evidence at the hearing has some bearing on the present application and will be referred to hereafter. The conditions of carriage are substantially those prescribed by the tariff now attacked. By reference to these conditions, it will be seen, *inter alia*, that the shipper must properly mark and secure his can, and attach to it a milk ticket and shipping tag, and shall load the cans at the shipping point, and the shipper is required to have his milk at the point of shipment, properly way-billed, at least fifteen minutes before the arrival of the train on which it is to be shipped, and consignees are required to take delivery from the door of the baggage car. At flag stations billing is to be done by shippers; empty cans are to be returned by the railway company, to shipping points, free of charge—but, if such number more than 20, shippers must provide one man at shipping point to assist in their unloading. If over 40 cans the shipper is to provide two men; the railway company is to continue the issuance of milk tickets, and shall not be liable for loss of, or damage to, or delay in, any shipment of milk, or can, unless resulting from negligence of the company, its servants or agents.

It will be observed that the conditions of carriage reduce the service to be performed by the railway company to practically that of mere carriage of the commodity. The railway is relieved of the expense incident to loading and unloading,

and, to a large extent, that of billing. Its liability as a common carrier is also minimized and restricted. It is, as regards this traffic, no insurer, and the implied undertaking to carry the commodity safely is restricted to acts resulting from negligence of itself, its servants or agents. The burden, service and responsibility of the carrier are in this special arrangement shared between shipper and carrier, and it is urged, not without some considerable force, that the shippers' contribution to the service of carriage, beyond those duties resting upon a shipper in an ordinary contract of carriage, is very little less than, if not equal to, that of the carrier. In an ordinary transaction of carriage the shipper's duty is performed when he has delivered his package to the carrier at the latter's receiving station and has obtained a shipping receipt for it. Under the special conditions governing the contract for carriage of milk in baggage cars, the shipper, instead of the carrier, must attend to the ticketing or billing (in some instances) of the consignment, and load it himself, or employ others to load it, into the baggage car. On reaching its destination the consignee must be on hand on the arrival of the train to take delivery at the door of the baggage car. If he does not perform this work himself he must employ others to do it, and, both by shipper and consignee, there is a service of value, and involving expense, which expense increases proportionally with the expense of any handling or expense of carriage by the railway company. The railway performs no service to the commodity during transit. If the weather be hot there is no icing; if extremely cold, no heat is included in the service. If damage results from the absence of icing, or of heat, the carrier is not responsible. In short, the carrier has practically performed his duty when it has given space in the baggage car of its passenger trains to a milk shipment, ticketed and loaded by the shipper, and to be unloaded by the consignee at destination.

With no modification of these conditions of carriage, and with none in contemplation (as counsel for the Canadian Pacific Railway states to the Board) the tariffs now attacked are submitted, and which proposed to substitute the following rates for those now in force under the old tariffs just referred to, viz:—

EIGHT-GALLON CANS, IMPERIAL MEASURE—(C.P.R. PROPOSED TARIFF)

| Miles                                    | Rates    |
|--|----------|
| Not over 10 miles . . . . .              | 17 cents |
| Over 10, but not over 20 miles . . . . . | 18 cents |
| “ 20, “ “ “ 30 “ . . . . .               | 19 cents |
| “ 30, “ “ “ 40 “ . . . . .               | 20 cents |
| “ 40, “ “ “ 50 “ . . . . .               | 21 cents |
| “ 50, “ “ “ 60 “ . . . . .               | 22 cents |
| “ 60, “ “ “ 70 “ . . . . .               | 23 cents |
| “ 70, “ “ “ 80 “ . . . . .               | 24 cents |
| “ 80, “ “ “ 90 “ . . . . .               | 25 cents |
| “ 90, “ “ “ 100 “ . . . . .              | 26 cents |
| “ 100, “ “ “ 110 “ . . . . .             | 27 cents |
| “ 110, “ “ “ 120 “ . . . . .             | 28 cents |
| “ 120, “ “ “ 130 “ . . . . .             | 29 cents |
| “ 130, “ “ “ 140 “ . . . . .             | 30 cents |
| “ 140, “ “ “ 150 “ . . . . .             | 31 cents |

The Grand Trunk Railway Company and the Canadian National Railway Company carry the tariff up to 350 miles on the same scale; the Montreal and Southern Counties Railway Company carry the tariff up to 50 miles on the same scale; the Quebec, Montreal and Southern Railway Company and the Napierville Junction Railway Company carry the tariff to 250 miles on the same scale; and the New York Central Railroad Company carry the tariff up to 60 miles on the same scale.

There is some evidence as to the average distance of haul to different milk centres—e.g., Mr. R. D. Hughes, General Manager of the Farmers' Dairy Company, says (p. 8116), that the longest haul to Toronto in summer would be 60 miles, in winter about 140 miles. The average in summer would be 35 miles; in winter 100 miles.

## SESSIONAL PAPER No. 20c

The representative of the Montreal Dairy Company says (p. 8116), that the average haul is about one-half up to 40 miles and the other half between 85 and 101 miles.

Mr. Nancekivell, of the Chamber of Commerce, Windsor, says (p. 8119), that 80 per cent of the milk supply of Windsor comes from Oxford county, Ingersoll and Woodstock, which means a haulage of from 130 to 140 miles.

These haulage figures, furnished in a general way, when applied to the centres affected, would mean the increases in tariff as follows: viz:—

|  |                |
|--|----------------|
| Toronto, summer, 35 miles, average increase                | 33.3 per cent. |
| Toronto, winter, 100 miles, average increase               | 30 per cent.   |
| Montreal, summer, 40 miles, average increase               | 33.3 per cent. |
| Montreal, winter, 35 to 101 miles, average increase        | 30 per cent.   |
| Windsor, winter and summer (80 per cent) 130 to 140 miles, | 50 per cent.   |

These are very general estimates appearing in the evidence, of mileage, given at the hearing. With a view to greater accuracy, as to mileage movements, take the average mileage of each railway to the centres to which the traffic moves—taken from statements filed by the railways since the hearing. The figures given are not indicative of the volume of traffic moving within the mileages given. That analysis will be dealt with further on.

1. *Canadian Pacific Railway Company—*

|                                     |       |
|-------------------------------------|-------|
| (a) Montreal, average mile. . . . . | 57.2  |
| (b) Ottawa, average mile. . . . .   | 40.34 |
| (c) Windsor, average mile. . . . .  | 62.36 |
| (d) Quebec, average mile. . . . .   | 32.03 |
| (e) Toronto, average mile. . . . .  | 72.04 |
| All centres, average mile. . . . .  | 60.25 |

2. *Grand Trunk Railway Company—*

|                                       |       |
|---------------------------------------|-------|
| (a) Montreal, average mile. . . . .   | 51.69 |
| (b) Ottawa, average mile. . . . .     | 32.56 |
| (c) Windsor, average mile. . . . .    | 91.77 |
| (d) Quebec, average mile. . . . .     | 97.38 |
| (e) Sherbrooke, average mile. . . . . | 23.98 |
| (f) Brockville, average mile. . . . . | 41.26 |
| (g) Hamilton, average mile. . . . .   | 20.90 |
| (h) London, average mile. . . . .     | 26.28 |
| (i) Toronto, average mile. . . . .    | 60.41 |
| All centres, average mile. . . . .    | 54.53 |

3. *Canadian National Railways—*

|                                       |       |
|---------------------------------------|-------|
| (a) Montreal, average mile. . . . .   | 39.05 |
| (b) Quebec, average mile. . . . .     | 35.80 |
| (c) Garneau, average mile. . . . .    | 21.80 |
| (d) Brockville, average mile. . . . . | 16.80 |
| (e) Trenton, average mile. . . . .    | 36.50 |
| (f) Toronto, average mile. . . . .    | 56.46 |
| All centres, average mile. . . . .    | 45.20 |

4. *New York Central Railway Company—*

|                                     |       |
|-------------------------------------|-------|
| (a) Montreal, average mile. . . . . | 34.86 |
| (b) Ottawa, average mile. . . . .   | 30.83 |
| All centres, average mile. . . . .  | 40.69 |

The other railways concerned, viz., the Quebec, Montreal and Southern, the Napierville Junction Railway, and the Montreal and Southern Counties Railway did not furnish the information upon which a similar analysis could be made.

11 GEORGE V, A. 1921

From the figures given above, as to the mileage movements, to different eastern centres, indicated by the railways statements, the following appears to show the general averages of distances of haul to those centres of all railways concerned, and furnishing information:—

| Centre                  | General average distance<br>of movements |
|-------------------------|--|
| 1. Montreal . . . . .   | 45-70                                    |
| 2. Ottawa . . . . .     | 34-44                                    |
| 3. Windsor . . . . .    | 77-06                                    |
| 4. Quebec . . . . .     | 53-07                                    |
| 5. Sherbrooke . . . . . | 23-98                                    |
| 6. Brockville . . . . . | 29-03                                    |
| 7. Hamilton . . . . .   | 20-90                                    |
| 8. London . . . . .     | 26-28                                    |
| 9. Toronto . . . . .    | 58-53                                    |

In further analysis of the statements furnished by the railways as to the mileage of the traffic to the six principal and representative centres, the following table will indicate the number of shipping points on each railway making return, located within the 10-mile zones proposed by the schedule:—

SESSIONAL PAPER No. 20c

STATEMENT OF TRAFFIC MOVEMENTS BETWEEN ZONES, 10 TO 150 MILES, TO PRINCIPAL CENTRES OF TRAFFIC.

| Miles                    | Montreal. |        |        | Toronto |        |        | Ottawa |        |        | Quebec |        |        | Windsor |        | Brockville |        |        | Totals |

11 GEORGE V, A. 1921

The above analysis shows that the movements from the various tariff zones to all the centres named took place in the ratio and percentage following, viz:—

|      |                | Percentage Percentage Percentage |       |        |
|------|----------------|----------------------------------|-------|--------|
| From | 10 to 20 miles | 9.45                             | ..... | .....  |
| "    | 20 " 30 "      | 15.67                            | ..... | .....  |
| "    | 30 " 40 "      | 14.68                            | ..... | .....  |
|      |                | <hr/>                            |       |        |
| "    | 10 " 40 "      | .....                            | 39.80 | .....  |
| "    | 40 " 50 "      | 12.44                            | ..... | .....  |
| "    | 50 " 60 "      | 7.96                             | ..... | .....  |
|      |                | <hr/>                            |       |        |
| "    | 40 " 60 "      | .....                            | 20.40 | 60.20  |
| "    | 60 " 70 "      | 8.96                             | ..... | .....  |
| "    | 70 " 80 "      | 7.21                             | ..... | .....  |
|      |                | <hr/>                            |       |        |
| "    | 60 " 80 "      | .....                            | 16.17 | 76.37  |
| "    | 80 " 90 "      | 7.46                             | ..... | .....  |
| "    | 90 " 100 "     | 5.72                             | ..... | .....  |
|      |                | <hr/>                            |       |        |
| "    | 80 " 100 "     | .....                            | 13.18 | 89.55  |
| "    | 100 " 150 "    | .....                            | 10.45 | 100.00 |

Applying the mileage percentages above mentioned to the scale of mileage zones of the tariff now in force, the percentage of the mileage movements from those zones, according to the statements furnished by the railways, would be:—

|                        |                |
|------------------------|----------------|
| For 40 miles and under | 39.80 per cent |
| " 41 " to 150 miles    | 60.20 " "      |

And applying the percentages to the mileage zones, proposed in the new tariffs, now under consideration, the following would result as to percentage of the mileage movements from those zones, respectively, to the centres—

|                    |                |
|--------------------|----------------|
| From 0 to 40 miles | 39.80 per cent |
| " 0 " 50 "         | 52.24 " "      |
| " 0 " 60 "         | 60.20 " "      |
| " 0 " 70 "         | 69.16 " "      |
| " 0 " 80 "         | 76.37 " "      |
| " 0 " 90 "         | 83.83 " "      |
| " 0 " 100 "        | 89.55 " "      |
| " 0 " 150 "        | 10.43 " "      |

And the average of the zone haul to each of the centres respectively, would work out upon the same table, as follows:—

SESSIONAL PAPER No. 20c

AVERAGE OF ZONE HAUL TO EACH OF THE CENTRES.

| Centre          | 0 to 40 M. |           | 40 to 50 M. |           | 50 to 60 M. |           | 60 to 70 M. |           | 70 to 80 M. |           | 80 to 90 M. |           | 90 to 100 M. |           | 100 to 150 M. |           |

NOTE: The figures in columns—on line marked (a) indicate percentage of traffic to and within the zone area given.  
 The figures in columns—on line marked (b) indicate addition of zone traffic to percentage of traffic to zones preceding.

11 GEORGE V, A. 1921

The above results are not intended to be an analysis of the volume of traffic moving between the mileage zones mentioned, but to indicate, apart from the volume of traffic carried between and attributable to certain zones, the average zone movement of the traffic.

I will now consider, in the light of what information is furnished by the railways, the volume of traffic moving between the respective zones, with a view to ascertaining, with as much accuracy as figures furnished will allow, between what zone areas the burden of increase proposed will be carried.

The shipments in cans to the larger centres shown in the railway statements, viz., Montreal, Toronto, Ottawa, Quebec, Windsor and Brockville, would (when extended upon an equal annual basis), show a total, on an annual basis (estimated), of 2,174,582, of 8-gallon cans moving to the centres mentioned. (No date under this head being furnished by any other railways than the C.P.R., G.T.R., and C.N.R.):—

| District   | C.P.R.  | G.T.R.  | C.N.R.  | N.Y.C.R.                 | Total     |
|--|---------|---------|---------|--------------------------|-----------|
| Montreal.....  | 496,226 | 545,688 | 42,869  | No. of cans<br>not given | 1,084,783 |
| Toronto.....   | 464,040 | 355,716 | 113,264 | "                        | 933,020   |
| Ottawa.....  | 18,720  | 36,780  | None.   | "                        | 55,550    |
| Quebec.....  | 35,766  | 8,682   | 23,990  | "                        | 68,438    |
| Windsor.....   | 8,658   | 18,378  | None.   | "                        | 17,036    |
| Brockville.....  |         | 9,732   | 6,123   | "                        | 15,855    |
|  |         |         |         |                          | 2,174,582 |
| Number of cans (on same estimated annual basis) shipped to other points..... |         |         |         |                          | 25,326    |
| Total annual number of cans carried (estimated).....                         |         |         |         |                          | 2,199,908 |

A glance at the above figures will show how largely Montreal and Toronto bulk as the centres of milk distribution. Together the shipments total 92.78 per cent of the total movements given by the railways, or 42.90 per cent to Toronto, 49.88 per cent to Montreal, and 7.22 per cent to other centres shown. These figures and percentages it is to be observed, are not in any sense an accurate statement of the whole traffic; but are based upon what data has been furnished by the various railways interested in supporting their proposed tariffs, and by extension of their figures upon an annual basis, when furnished only for two representative months. They are, however, close enough for analytical purposes.

## SESSIONAL PAPER No. 20c

According to a statement furnished by the Canadian Pacific Railway Company, the rates now proposed would effect increases upon the present schedule according to the percentages following, viz:—

| Mileage proposed          | Present rate | Proposed rate | Increase per can | Increase percentage |
|---------------------------|--------------|---------------|------------------|---------------------|
|                           | cents        | cents         | cents            |                     |
| Not over 10 miles.....    | 15           | 17            | 2                | 13.3                |
| Over 10, not over 20..... | 15           | 18            | 3                | 20.0                |

| “ 90 “ 100.....           | 20           | 26            | 6                | 30.0                |
| “ 100 “ 110.....          | 20           | 27            | 7                | 35.0                |
| “ 110 “ 120.....          | 20           | 28            | 8                | 40.0                |
| “ 120 “ 130.....          | 20           | 29            | 9                | 45.0                |
| “ 130 “ 140.....          | 20           | 30            | 10               | 50.0                |
| “ 140 “ 150.....          | 20           | 31            | 11               | 55.0                |

The percentage of increase shown by the above table present some striking features having regard to the percentages of zone haul of the traffic to the six centres shown in the statement of average zone haul. Applying the percentages of increase of proposed rates over existing rates in the latter to the average of zone haul, it is manifest that the ordinary and well established principles of ratemaking, especially when applicable to zone hauls, are either departed from, or suffer some distortion. While long haul rates are, in proportion, cheaper than short haul rates, that element, at least, is wanting in the tariff now proposed to be based upon 10-mile haulage zones. One would expect that rates built upon that principle would increase with the number of zones covered by the total haul. The application of the tables drawn from the statements of traffic, etc., offered by the railways in support of the proposed tariff, show that, while this principle is adhered to in part, it is departed from, and in a way that largely discriminates against the volume of the traffic. In determining the fairness of the proposed increase of rates, for the carriage of so vital a food commodity, upon which a very large supply business has been built up, greater burdens rest upon the railways in their justification, and in their examination regard must be had, primarily, to the bearing, pro rata, the proposed new rates have upon the important traffic built upon the basis of the old rates. An analysis of the can mileage returns given show the following distribution of zone hauls to the large centres of Montreal and Toronto, which as I have shown bear so large a proportion of the whole traffic:—

\*It is to be noted that slight difference in totals above from those on preceding page is due to errors of addition in statements furnished by railways.

SESSIONAL PAPER No. 20c

The application of the proposed rates to the new zone haulage of the traffic, shows the following results applicable to the centre of Montreal:—

|              |                |   |
|--------------|----------------|---|
| In zone haul | 0 to 40 miles, | 32.92 p.c. of traffic would pay 33.3 p.c. Increase. |
| "            | " 40 " 50 "    | 17.22 " " 5.0 " "                                   |
| "            | " 50 " 60 "    | 6.63 " " 10.0 " "                                   |
| "            | " 60 " 70 "    | 11.13 " " 15.0 " "                                  |
| "            | " 70 " 80 "    | 13.04 " " 20.0 " "                                  |
| "            | " 80 " 90 "    | 3.31 " " 25.0 " "                                   |
| "            | " 90 " 100 "   | 9.41 " " 30.0 " "                                   |
| "            | " 100 " 150 "  | 6.34 " " 45.0 " "                                   |

Substantially the same scale of increase is applicable to the Toronto traffic. A percentage (approximate) of 33½ per cent of the Montreal, and 33 per cent of Toronto traffic; fully 75 per cent of Ottawa; 95 per cent of Brockville; 75 per cent of Quebec; and about 6 per cent of the Windsor traffic representing 52.83 per cent (in round figures 53 per cent) of the total traffic moving to the six centres, in the traffic returns, moves in the zone 10 to 40 miles, and would, therefore, bear 33.3 per cent of the increased rates. Beyond that 10 to 40-mile zone the movements become light and scattered, as appears by the table showing average of zone haul, the additional 47 per cent of the traffic being distributed over zones from 50 to 150 miles. And yet, as the zone distances increase over 40 miles, and the traffic is divided into smaller portions between zones, and begins to dwindle as distances from centre increase, the burden of increase of rate that traffic bears sharply decreases, in the 40 to 50-mile zone (carrying 17.22 per cent of the traffic) to 5 per cent; in the 50 to 60-mile zone (carrying 6.63 per cent of the traffic) to 10 per cent; in the 60 to 70-mile zone, (carrying 11.13 per cent of the traffic) to 15 per cent; and in the 70 to 80-mile zone (carrying 13.04 per cent of the traffic) to 20 per cent; thus throwing the burden of increase of 33.3 per cent in rates upon the larger volume of traffic, moving within the shorter distances, and distributing the lighter increases (5 per cent to 20 per cent) amongst the lighter traffic moving between the zones having the longest haul.

Reference may be made to the revenue derived from this traffic, i.e., to Montreal and Toronto, in relation to total revenue shown by the railways filing tariffs. The statements of the C.P.R. and G.T.R. giving the figures, are for January and July, 1919, as representative months, so the figures are extended on an annual basis without specific regard to accuracy of calculation, but as giving a general indication as to the proportion these centres are contributing to the whole revenue shown:—

| REVENUE          |                     |                     |                     |
|------------------|---------------------|---------------------|---------------------|
|                  | Total               | Montreal            | Toronto             |
| C.P.R. . . . .   | \$185,514 60        | \$ 87,549 10        | \$ 87,420 30        |
| G.T.R. . . . .   | 180,754 50          | 104,759 40          | 62,967 60           |
| C.N.R. . . . .   | 31,081 55           | 6,480 85            | 20,671 35           |
| N.Y.C.R. . . . . | 19,607 60           | 14,102 58           | .....               |
|                  | <u>\$416,958 25</u> | <u>\$212,891 93</u> | <u>\$171,059 35</u> |

\$383,951 28

Or 92.08 per cent of the total traffic.

The gross earnings from the milk traffic in Canada as shown by railway statistics for 1918, appears to be:—

|                   |              |
|-------------------|--------------|
| For 1917. . . . . | \$538,486 32 |
| For 1918. . . . . | 550,416 08   |

by which it appears that about 69.76 per cent of the revenue from the milk traffic of Canada is derived from Montreal and Toronto traffic.

11 GEORGE V, A. 1921

It is argued that the proposed schedule is with a view, first, of establishing the 10-mile zones of haul for this traffic as a more feasible and workable plan of handling the traffic, and secondly, of adjusting and equalizing the rates as between the zones, but the effect, as above indicated, of its application to a traffic which, inaugurated, under special conditions in 1886, has steadily grown to substantial proportions under the rates now in force, is not to be lost sight of in considering the general reasonableness of the proposed schedule as applied to the whole traffic. As I have before pointed out, the burden of establishing the reasonableness of the proposed change is clearly upon the railways proposing the change, and the condition of the traffic under consideration is such as to call for a strict application of the principles referred to in *Dominion Sugar v. Canadian Freight Association*, 14 C.R.C., p. 188, and emphasized in *Canadian Freight Association v. Caldwell*, 15 C.R.C., 156, in which latter case at p. 157, Mr. Commissioner McLean, in delivering the judgment of the Board, said at p. 157:—

“The Board has laid down, in various decisions that where a rate which has been for sometime in force was increased, the burden of proving that such increase was reasonable was on the railway, it being held that a rate established in the first instance by a railway of its own volition was presumptively reasonable, and that it was incumbent upon the railway, if such initial rate was reasonable, to show with reasonable conclusiveness what changed conditions, or increase of operation justified the advance of the rate.”

And, in the *Pender* case, file 10720, where the rule was applied, it was required that the information as to changed conditions and cost should be as to the particular commodity on which the rate increase had been made.

While this principle was not followed in the Board's judgment in *International Paper Company v. G.T.R., C.P.R., and C.N.R. Companies*, 15 C.R.C., p. 111, the presumption was by the majority of the Board, held to be subject to the qualification that operating costs have not materially advanced. In the dissenting judgment of Mr. Commissioner McLean he says:—

“The Board, however, has laid down the position that when a rate is increased the burden is upon the railway to justify this increase; and it has further held that general allegations as to the increase of cost of service, etc., are not conclusive, as to the reasonableness of the rate. Personally, I am of the opinion that the railway should adduce particular information as to the increase of the particular costs affecting the traffic in question, if increase of cost is to have any adequate weight in justifying the reasonableness of the rate attacked. In a recent decision of the Interstate Commerce Commission, *Geo. A. Hormel & Co., v. Chicago, Milwaukee & St. Paul Ry. Co., et al*, 26 I.C.R. 1, at p. 114, the following language occurs:—

“Defendants introduced some testimony as to the increased cost of transportation by reason of higher price of equipment and greater wages paid employees, but such statements can have little weight when presented in the abstract with no attempt to allocate charges or consider corresponding reductions in the cost of transportation resulting from greater efficiency.”

The principle, therefore, remains as the Board has always held, that wherever particular costs are available in justification of an increase of a long standing rate, they should be furnished, and their absence subjects the railway to the presumption stated. I shall refer later on to the specific nature of the information required by the Board to be furnished in this case, and the effect of its not being forthcoming is considered both with regard to the application of the special circumstance, of the presumption referred to, and to the special features of the rate arrangement herein referred to.

SESSIONAL PAPER No. 20c

Having pointed out in the foregoing analysis of the information as to the traffic submitted by the railways in support of the increase what, from the information submitted, would appear to be inequalities which would result from the application of the proposed rates to the important traffic built up on the present rates it will be useful to consider the extent to which the proposed schedule is justified by the arrangements of the railways, and how far they have satisfied the onus resting upon them to establish their reasonableness and necessity.

## II

The grounds upon which the railways seek to justify the proposed tariffs may be briefly stated as follows:—

- (a) The increased cost of the service to the railways.
- (b) The increased price of milk since present rates effective.
- (c) The increase in the volume of traffic—entailing upon the railways the expense of further facilities for carrying and handling the traffic.

Were the milk rates based upon the ordinary conditions as to service, liability, and other elements, that attach to relations between shipper and carrier, the grounds referred to as the basis of the new, and increased, rates, if established by the railways, upon which the onus rests, would be entitled to every consideration. But, the history of the traffic from its inception in 1886, and from thence forward shows that, it was *“a very exceptional arrangement, and was conditional from its inception upon the shipper and consignee performing certain acts which they would not be required to perform in ordinary shipments of freight or express.”*

See evidence of Mr. J. O. Apps, General Baggage Agent, C.P.R., at hearing of complaint of Montreal Milk Shippers' Association, volume 130, p. 5142.

To the same effect is the following evidence given by Mr. Apps, reported, volume 130, p. 5140-41:—

“(Q.) The arrangement under which these rates were established involved, from its inception, did it not, the performance of certain services by the shippers and consignees?

“(A.) Yes.

“(Q.) What did they consist of?

“(A.) That the shipper should load the full can on the incoming journey and that the consignee would take delivery at the car door on arrival at destination.

“Commissioner McLEAN: Were those conditions the outcome of an agreement in the first instance, or were they something imposed by the railway?

“(A.) I understand it was an arrangement made in 1886.”

That exceptional condition—which, in a very large measure, removes the traffic from the ordinary elements of consideration and makes it largely dependent upon performance of reciprocal and exceptional obligations foreign to the ordinary relations of shipper and carrier, was further emphasized, in the same case, at p. 5199, by the following statement of Mr. Beatty, then appearing as counsel for the C.P.R.:—

“As I explained this morning, there is no doubt but that the reciprocal services performed by the carrier and shipper in respect of this peculiar commodity, handled in the way in which it was and is handled, was part of the arrangement whereby these very low rates and this fast service were obtained.”

At the time that these statements were made on behalf of the railways (June 22, 1911) the railways were opposing an application to the Board by the shippers for a lower rate; for the continuation, at a lower rate, of the 4-gallon movement, estab-

lished in 1893; and for more stringent conditions as to the railways responsibility for the shipments and carriage. All that is now urged as reasons for increasing the rates were then urged by the railways as a reason for *not reducing* them—no suggestion of an increase of rates being then offered by the railways.

The railways argued the increased cost of the service, alleging that it had increased considerably since the original and reciprocal arrangement was entered into.

Mr. Beatty says, volume 130, p. 5143—to the witness—Apps:—

“Q. Is this application tantamount to a reduction in rates?

“A. Yes.”

And at p. 5144, Mr. Beatty further said:—

“I think we can assume this, that all transportation charges have increased the cost of handling the average number of tons per mile that we handle, in the course of a year, having increased, about 80 per cent since 1886, that the cost of handling these identical trains upon which the milk is carried has increased in somewhat the same proportion.”

The same complaint as to the unremunerativeness of the traffic to the railways was argued, in defence of the then, and now, existing rates, by Mr. Beatty, at pp. 5199 and 5200 (volume 130).

The complaint as to increase in cost of operation, had it been considered a factor, was well grounded then (in 1911), as regards percentage of increased operating cost, 1885-1910.

|  |                      |
|--|----------------------|
| In 1885, operating cost per mile was . . . . . | \$2,229 00           |
| “ 1910, “ “ “ “ “ . . . . .                    | 4,869 00             |
|  | or 100 per cent plus |

so that Mr. Beatty was well within the mark in stating that cost of handling this traffic (considered a part of general traffic) had increased 80 per cent since this reciprocal and special arrangement was made in 1885, but he based it upon no claim or suggestion, that because of it the rates established upon the reciprocal agreement he propounded as a defence against the reduction of those rates, should thereby be increased.

The situation as regards the reciprocal agreement as to this traffic remains to-day—as it was in 1886—the only result of the hearing referred to being an Order, No. 15413, September 26, 1911, referred to in the earlier part of this opinion, and that, by consent of the parties (see judgment of the then Assistant Chief Commissioner, July 24, 1911), the conditions of traffic were settled upon in the form in which they appear to-day.

It is true that the railways complained, in 1911, as they do now, that the business was unremunerative, and that they did not want it—but, as Mr. Beatty said, in 1911 (volume 130, p. 5200):—

“We recognize that the system has grown up to such an extent that it is very difficult to change it, but if there is any way by which we could change it, we would be the most pleased people in the world.”

The closing words of counsel for the C.P.R. on that occasion are important, as showing the attitude of the railways upon the question (volume 130, p. 5200):—

“Now it seems clear to me that the logical way for the Board to deal with the matter is this: these rules which have been agreed to have never been tried; the shippers’ association admit, as the railways admit, that they were never given real effect to, because they were never insisted upon either by the carriers, or attempted to be lived up to by the shippers. The Board is impressed

SESSIONAL PAPER No. 20c

with the fact that these are reasonable rules and if the Board will say now, test these rules for three or four months, see that an absolute compliance with each term of each rule is required of the shippers by the carriers, then if that does not relieve the situation as complained of by the applicants, *this application can be renewed.*"

The application, it is to be borne in mind, was by the shippers, *inter alia*, for a *reduction* of the rates. The consent disposition effected by Order No. 15413 apparently worked satisfactorily, as the application was not renewed. The traffic, in the meantime, has substantially increased.

The increased price of milk to the consumer was dealt with at the hearing of the case in 1911. It was referred to again, not as a reason for increasing the existing rates, but as justifying them and as a reason why the application for their reduction should not be granted. It is alleged by the railways that the cost of milk to the consumer had increased since 1886 by 40 per cent (volume 130, p. 5145). Mr. Flintoft now argues at the hearing of this case—volume 310, pp. 8126-7—that the price of milk has increased 62 per cent since 1911, and that the rates per quart in the larger cities stated was then:—

|                | Cents |
|----------------|-------|
| Vancouver..... | 15    |
| Calgary.....   | 14    |
| Winnipeg.....  | 13    |
| Ottawa.....    | 13    |
| Montreal.....  | 14    |
| Toronto.....   | 14    |
| Quebec.....    | 14    |
| St. John.....  | 14    |

Variations in this price in some of the centres named have taken place. The price to the consumer of this essential food commodity is, always has been, and probably always will be, from its very nature, fluctuating. Eggs, butter, meat, and several other food commodities of universal consumption show rapid fluctuations in price, largely upward of late years, yet the increase in price to the consumer of such food commodities has never, of itself, justified an application by the railways for permission to increase the cost of their carriage—even as ordinary freight—much less would such circumstances of fluctuation be a factor in aiding the railways to justify the increased tolls asked under the special and reciprocal arrangement under which this traffic has been carried for 33 years, during which time the fluctuations in price must have been very considerable. I would unhesitatingly say that the justifiability of considering this as a factor has not been established.

It is also argued that the conditions of carriage, the increased volume of the traffic, entailing, as is alleged, increased expense to the railways in the handling, billing, carrying, and delivering of milk, are all factors justifying the increased rates asked for. As to the conditions of carriage, the weight of the argument is difficult to see. The present conditions, which the railways do not propose to change, are the result of the application by the shippers in 1911, and as I have pointed out, were agreed to by the railways, and have been acted upon without complaint for upwards of eight years. It was never argued, until now, that because of them the rates should be increased. We were urged (volume 130, p. 5200) to give them a trial and if not satisfactory, after trial, the then current application by the shippers for a *reduction of rates* and more stringent conditions of carriage, might be renewed. The application was not renewed, the conditions mutually agreed upon appear to have been mutually satisfactory in their operation, and it would, it seems to me, not only be unreasonable, but unjust to base a claim upon them now for the increases asked for by the railways.

The arguments as to increased volume of traffic justifying the increased rates deserves but a further passing comment. It is a factor always sought for by the

11 GEORGE V, A. 1921

railways, and an element which operates in reduction, rather than increase, of cost of carriage. It was admitted, as I have shown, at the hearing in 1911, by counsel for the C.P.R., that the milk traffic had grown to such an extent that it was difficult to change the system under which it had been carried since 1886 (volume 130, p. 5200). It has grown substantially since then, and, with the growth of the country must proportionally increase. It is no more an argument to-day in favour of increasing the rates than it was in 1911 in favour of retaining the present rates against an application to reduce them, and, in my opinion, it lacks the merit of consistency.

The railways further argue that the cost of handling this traffic has been further increased by the necessity imposed upon the railways of furnishing further facilities, additional baggage cars, more clerical work in billing, etc., and more men in handling returned empties, and shipments at junction points, and that with the upward curve of wages and costs generally, these must be offset by an increase in revenue. This argument is largely answered by what I have said in a previous paragraph as to conditions of carriage. The railways agreed to those conditions. They accepted, as incident to the burdens of a traffic they say they did not relish, the results of those conditions is so far as they imposed additional burdens upon them with all that they involved, present and future, as part of the reciprocal obligations which are the basis of this special traffic. This is clearly set forth in the following statement, by Mr. Flintoft at the hearing. Evidence, volume 310, p. 8122:—

“In the year 1911 the basis of milk rates was protested and very thoroughly enquired into, as a result of which the Board issued order number 15413, which upheld the basis of rates and laid down certain regulations in regard to the carriage of the milk traffic, which generally increased the burden of service upon the carriers, in connection with various features, such as loading and the giving of receipts and taking care of the traffic generally.”

Although the burden of proof is on the railways, under the decisions referred to, of showing extra cost attributable to the particular commodity carried under the tariff proposed to be increased, where, as is shown in this case, the tariff has been in force for so long a time, and, particularly, under the special reciprocal conditions upon which it was originated in 1886, and thereafter maintained, I am unable to find any evidence of increased cost attributable to this traffic. The railways have contented themselves with references to the well-known high level and upward trend of every factor of cost of operation generally, asking the Board to apply its knowledge of such to the special commodity in question. I do not read the decisions cited as justifying such a procedure. Even if, on the decisions referred to, it is alleged that general representations as to increased cost are sufficient to rebut the presumption as to the unreasonableness of an increased rate as compared with the theretofore existing rate of long standing, the special reciprocal conditions of the tariff on which the traffic was built and maintained would render it essential, as regards this particular case, that the burden of proof be fully satisfied by the railways. I cannot find any suggestion that for the specific purpose of serving this traffic the railways have had to build and put in use any additional baggage cars. It is true that loading platforms have had to be erected by the railways. They would be infinitesimal in cost in ratio to the volume of traffic and increased revenue derived therefrom. They would, also, be part of the burden the railways assumed in 1886 when entering into the reciprocal arrangement, and which they confirmed by the acceptance of the conditions of the order disposing of the application to reduce their rates. The milk moves largely on local trains, in baggage cars. If, in any specific cases (and they are not mentioned) an additional baggage car had to be put on a train to serve the milk traffic it would only be because the volume of movement necessitated the additional accommodation for milk, as it might do in the case of baggage. But, however that

SESSIONAL PAPER No. 20c

may be, the Board cannot, and should not, in a case like the present, be asked to presume that extra accommodation and service was, in specific cases, or in a percentage of cases to be guessed at, provided by the railways, and by some means, other than by evidence which it is clearly the duty of the railways to furnish, to arrive at the additional cost involved.

The whole situation—based upon the inauguration of the traffic 33 years ago—and continued practically uninterrupted ever since—is exceptional and cannot be regarded or be dealt with upon the same principles as an ordinary traffic rate. It is, as the railways squarely admit, founded as to the details of service upon special and reciprocal obligations of shipper and carrier. The Board can ignore the arrangement, if it were thought unduly onerous, but, even if the evidence pointed towards such a conclusion (and in my opinion it does not) the fact that the railways in 1911, confirmed the original arrangement, with the changed conditions of carriage, preclude any such conclusion as to the unreasonableness of the arrangement so far as either party was concerned. The service involves special features foreign to the ordinary contract of carriage, and cannot be said to be unfair to the railways. It involves services to be performed by the shipper, foreign to the ordinary contract of carriage, in consideration of which the railways agreed upon a low rate of remuneration for what services they would have to perform, practically reducible to the giving of space in its baggage cars for the cans of milk loaded therein by the shippers, and the carriage and delivery of them at the baggage car door at destination to the consignees. What the railways ask is that the value of their service shall be increased proportionately with general increases of cost of the general operation of railways. But the value of the special and unusual services contributed by the shipper and consignee, have increased in the same proportion, yet no consideration is given to that extra cost. My view is that the services, respectively, of shipper and consignee, contributed under the special arrangement for this traffic and which were the considerations, originally, and during 33 years, for the alleged low scale of tariff, are, proportionately and relatively, as valuable to-day as factors in the arrangement as they were when it was originally made. To say that the services of the railways were to be appraised now at a higher relative value than in 1886, 1891, or 1911 to those of the shipper and consignee would have the effect of destroying that reciprocal contribution of service which the railways admit was the foundation of the original special arrangement, and would disturb its balance in a manner unfavourable and unfair to the shippers.

Although possibly different considerations might suggest themselves were the railways asking to place this traffic upon a different basis, thereby ridding themselves of the original and reciprocal obligations, yet as they affirm the arrangement, while seeking to better its terms at the expense of the other parties to it, I can only deal with the situation as one resting upon the same reciprocal obligation with a view to preserving the equities, or relative rights of each party.

The railway companies (C.P.R. and G.T.R.) submitted since the hearing, statements purporting to show the earnings of the milk traffic for representative months on a car-footage and car-mileage basis, as follows:—

STATEMENT SHOWING TOTAL REVENUE FROM MILK TRAFFIC,  
EASTERN LINES, JANUARY AND JULY, 1919

C. P. R.—

|  |              |
|--|--------------|
| 1. Total revenue—Present. . . . .                                | \$30,919.10  |
| Proposed. . . . .  | 39,079.96    |
| 2. Total car foot miles. . . . .                                 | 6,807,579    |
| 3. Plus 25 per cent working space in the case of L.C.L. traffic. | 8,064,691    |
| 4. Revenue—  |              |
| Per car foot—Present. . . . .                                    | 3,834 mills  |
| Proposed. . . . .  | 4,845 mills  |
| Per car mile, 60-foot cars—Present. . . . .                      | 23.004 cents |
| Proposed. . . . .  | 29.07 cents  |

11 GEORGE V, A. 1921

STATEMENT OF MILK TRAFFIC, JANUARY AND JULY, 1919, SHOWING EARNINGS,  
CAR FOOT MILES AND CAR MILE

G. T. R.—

|   |             |
|---|-------------|
| 1. Total revenue—Present.. . . . .  | \$30,125.75 |
| Proposed.. . . . .  | 36,396.85   |
| 2. Total car foot miles.. . . . .   | 7,182,481   |
| 3. Plus 25 per cent for working space in case of L.C.L. traffic.. . . . . | 8,559,395   |
| 4. Per car foot mile—Present.. . . . .                                    | 3.519 mills |
| Proposed.. . . . .  | 4.252 mills |
| Per car mile—60-foot cars—Present.. . . . .                               | 21.11 cents |
| Proposed.. . . . .  | 29.07 cents |

These statements are prepared upon the same basis and are submitted in support of an argument that the same principles as to earnings applicable to express cars should be applied to baggage cars and the milk traffic therein. Mr. Flintoft refers in this connection to the judgment in the Railway Mail Rates and Express Rates Case, and argues that traffic carried in baggage cars should be paid for and be treated in all respects as regards car mileage earnings as that carried by express car. I have referred to, and emphasized the fact that the general well known principles of rate making do not, by reason of the special circumstances and the nature of the special reciprocal arrangement under which this traffic is carried, apply to the tariffs proposed and, consideration of the argument advanced is not, therefore, necessary to the conclusion I have arrived at. I would, however, observe that, in so far as, in the special circumstances reviewed as regards this traffic it is necessary to deal with that contention, it would appear, as a primary difficulty, that this is not express traffic.

The contention that a baggage car, utilized for this special purpose is to be treated as in the same class as a mail or express car, in my opinion need not be passed upon here.

The railways gave no particulars as to the increased cost at the hearing. They referred only to the increased cost of operation generally, and, as incident to that, and without giving particulars thereof, to the alleged general factors tending to increase cost. I have dealt with these general factors, and am without data, figures, or particulars to deal further with any other question of increased cost applicable to this traffic. After the hearing, and by letter, dated September 13 last, the railways were notified that the Board considered that the proposed increase in rates indicated in tariffs filed, and held under suspension, had not been so clearly and sufficiently supported and justified as to warrant any other order being made except for continuance of suspension of the tariffs. That the Board considered that the railways had not discharged the onus resting upon them of showing the necessity for increased rates or reasonableness of tariff; and the railways were required to submit and serve upon the opposite parties, statements of the traffic, showing, *inter alia*:—

“3. The extent, nature and particulars of any factors alleged to have contributed to the increased cost of the traffic, and necessitating and alleged to justify, the increase in rates.”

Beyond such general factors as have been put forward and which have been dealt with in the foregoing pages, no particulars of the specific increased cost are forthcoming as a result of the Board's direction. Having disposed of what has been put forward as alleged justification of the tariffs, I am of opinion that the railways have not discharged the onus imposed upon them of justifying the tariffs as to the reasonableness of the increases asked, or with respect to the specific traffic, as to the necessity for such increased revenue as is asked.

Reference was made by Mr. Scott, counsel for the National Dairy Council, at the hearing, and subsequently, to the New England rates for milk carriage, and to

SESSIONAL PAPER No. 20c

the effect of the decisions of the Interstate Commerce Commission, in Milk and Cream Investigation (Case No. 8588) I.C.C.R. 40, p. 699; Hood v. Delaware & Hudson Co. (Case No. 765) I.C.C.R. 43, p. 375.

In the conclusion I have come to, it is not necessary to do more than to point out that the traffic mentioned is carried under lesser rates and with more service by the railways than is the Canadian traffic. Mr. Marshall filed a statement of these rates, which I quote to the extent of 150 miles.

RATES ON MILK

COMPARISON of Present and Proposed Canadian Rates per 8 Imperial Gallon Can with present "New England" Scale of Rates per 40 Wine Quarts (8½ Imperial Gallon) Can.

| Miles<br>Not over | Present<br>Canadian<br>Cts. | Proposed<br>Canadian<br>Cts. | New England<br>Cts. |
|-------------------|-----------------------------|------------------------------|---------------------|
| 10.. . . . .      | 15                          | 17                           | 11-4                |
| 20.. . . . .      | 15                          | 18                           | 11-4                |

| 90.. . . . .      | 20                          | 25                           | 19-7                |
| 100.. . . . .     | 20                          | 26                           | 19-7                |
| 110.. . . . .     | 20                          | 27                           | 21-3                |
| 120.. . . . .     | 20                          | 28                           | 21-3                |
| 130.. . . . .     | 20                          | 29                           | 22-8                |
| 140.. . . . .     | 20                          | 30                           | 22-8                |
| 150.. . . . .     | 20                          | 31                           | 24-2                |

It will be noted that these rates include heat in winter and refrigeration in summer and return of empty containers, services not performed by the Canadian railways, and all involving a large percentage of the cost of carriage. About 80 per cent of the Canadian milk traffic moves from 0 to 80 miles; 93 per cent up to 100 miles. Comparison of the rates, with consideration of the extra, and valuable, service by the American roads, to conserve this important food in the best condition for consumption by the consumer, will indicate the barren nature of the service proposed to be given in Canada at a higher rate of carriage. It is true that these rates have temporarily, been increased by 25 per cent, but, with that increase, they are lower than the Canadian proposed rates, plus the valuable service mentioned. The volume of the traffic carried is said to justify the low rates. The same argument, viz: the steady increase of traffic in Canada upon the present rates, would serve to refute the necessity for any increase in Canadian rates.

The milk traffic did not participate in any of the general rate increases. No application was made with respect to it. If the arguments advanced at the hearing, and subsequently, with regard to the largely increased cost of the traffic in common with and upon the same basis as all other traffic, had been applicable to this special reciprocal arrangement, there would have been no good reason why this traffic should not have been dealt with on that application. But I am of opinion that it was not so dealt with by the railways because it was regarded as a special feature of traffic, built, as counsel for the railway admits, upon a special reciprocal arrangement, and so maintained, not carried on freight trains, or by express, and not being entitled, from its nature, to share in the increase granted such general traffic upon the basis of advances in cost of carriage and operating generally.

Reference has been made by counsel for the railways to the judgment of Sir Henry Drayton, when Chief Commissioner of this Board, in the Express Rates Case (July 17, 1919). I refer to the disposition of commodity rates particularly cream, by the judgment, and quote the following from page 164:—

11 GEORGE V, A. 1921

"I am ready to admit that the value of all commodities has been very greatly increased since commodity rates first came in, and that one of the elements in rate making relates to the value of the commodity carried and to the increased risk undertaken. As against the shippers and vendors of these articles of daily necessity, there is no difficulty in the express companies justifying a reasonable increase. I do not think, however, that the matter ought to be so considered at the moment. The companies will obtain a fair measure of increase in their first-class and second-class rates. That increase, it is hoped, will prove sufficient to properly maintain the companies and the business; but whatever increase is placed on these commodities would form a reason, (a comparatively small one it is true in most instances, but still a reason) for further increases in the charge made to the consumer. In the past experience it would appear that the increase in charge to the consumer would be much greater than the increased cost per pound or per pint of the commodity. The cost of living is still mounting. As I see it, it is not to the public interest, and not in the interests of the express companies themselves, to afford the excuse that a raise in the price of transportation of these essential commodities would give for still higher charges against the public. Over and above the essential interest of the consumer, a further and very real ground for withholding increases in these commodity rates, unless it proves to be absolutely necessary, lies in the position of the producer. The commodity rates are the producer's rates. He produces in quantity and ships in bulk. On the pound unit of production, his resultant profit is small. His costs have greatly increased. I would dismiss the companies' applications, in so far as the commodity rates are concerned, entirely, subject to the right of the companies, should it be found impossible for them to make both ends meet, to renew the application. I have mentioned only the chief commodity rates, but would deal with all on the same basis."

The quotation is singularly applicable in relation to the present application. Where the late Chief Commissioner says: "The companies will obtain a fair measure of increase in their first and second class rates," the same might be said of the railways, relatively to their general increases. And the reference to the increase in producers costs are also pertinent here.

The zone feature of this traffic is deserving of consideration from shipper and carrier. At present there are but two zones, 0 to 40 miles; 40 to 150 miles. The proposed tariff covers the more extended zones mentioned. Mr. Scott for the National Dairy Council, suggests 25-mile zones. It might be desirable for shippers and carriers to consider this feature, and possibly consideration of the analysis of the traffic may lead to some such improvement in this respect. This is a matter for consideration of shippers and carriers in case of the traffic generally. In my opinion there should be an order disallowing all the traffic in question.

*Judgment of Commissioner Goodeve, dated February 12, 1920. Concurred in by Deputy Chief Commissioner Nantel.*

I regret that I cannot concur fully in all the findings in the judgment of Mr. Commissioner Boyce.

My impression from the evidence is that owing to the largely increased cost of transportation generally, that this traffic should bear its fair proportion of that increase. I do not think, however, that this amount can be arrived at by an analysis of the statements of costs submitted by the railways.

As pointed out in Commissioner Boyce's judgment, this traffic is carried in a peculiar manner, and a portion of the costs that would be attributable to ordinary traffic does not apply to this case.

SESSIONAL PAPER No. 20c

The railways were asked to submit statements that would furnish the necessary data showing the increases that would apply to this particular traffic. They failed to do this. Without this information, and in view of that portion of the judgment dealing with Commodity Rates in the Express Rates Case, as quoted by Commissioner Boyce in his judgment, I agree that the tariffs should be disallowed.

BROADVIEW RATEPAYER'S ASSOCIATION, BURNABY, B.C., *re* BRITISH COLUMBIA ELECTRIC RAILWAY RATES

*Judgment of Assistant Chief Commissioner McLean, dated December 23, 1919. Concurred in by Chief Commissioner Carvell and Commissioner Rutherford.*

At the sittings of the Board in Vancouver on November 22, 1919, complaint was made of the rates, particularly those affecting Horne Payne and Crown Avenue stations. As expressed by Mr. Collier, one of the parties applicant—

“This has been argued before by the solicitor for the municipality, but the Ratepayer's Association instructed me to come and make a formal protest before this Board as to what we consider an exorbitant increase that was granted the company on this line last June. Previous to that we had a fifty cent rate ticket in existence. I will mention Horne Payne and Crown Avenue stations. At Horne Payne the rate was 5 cents a ride, Crown avenue 6 cents, buying a book costing \$3. The new rate to Horne Payne is 7 cents, an increase of 2 cents; the new rate to Crown avenue is 9 cents, an increase of 50 per cent, which we consider is exorbitant. The company in their statement listed the old rate on the basis of a ten-ride ticket, which in the case of Crown avenue would read 7½ or 75 cents for a ten-ride ticket. So far as we were concerned, using that station, the ten-ride ticket was practically non-existent, so that to us the old rate was 6 cents and the new rate is 9 cents.”

The stopping-points particularly referred to are located on the Burnaby Lake line, of the British Columbia Electric Railway. The Burnaby Lake line, in terms of its charter, is the Vancouver, Fraser Valley and Southern.

The application of the British Columbia Electric Railway Company for increases in passenger rates on the line in question was dealt with by the Board in its judgment of November 14, 1918.

In the increases for which sanction was asked were certain commutation rates. The rates herein involved fall in this class. The following detail sets out the former rate and the rate for which sanction was asked:—

COMMUTATION RATES

VANCOUVER, FRASER VALLEY AND SOUTHERN RAILWAY COMPANY

| Miles                      | Between Vancouver and New Westminster |          |      |               |          |  |
|----------------------------|---------------------------------------|----------|------|---------------|----------|--|
|                            | 10-ride adult                         |          | Mls. | 10-ride adult |          |  |
|                            | Old rate                              | New rate |      | Old rate      | New rate |  |
| 4.9 Horne Payne . . . . .  | \$0.50                                | \$0.70   | 9.8  | \$1.25        | \$1.50   |  |
| 5.5 Crown Avenue . . . . . | 0.75                                  | 0.90     | 9.2  | 1.25          | 1.50     |  |

The figures as to earnings and expenses were carefully analyzed at the time, and the conclusion was unescapable that the various increases involved were justified; and, accordingly, a sanction which covered the rates herein complained of was given.

At the hearing in Vancouver, additional information as to this condition of the line was submitted by the railway.

Intimation was given at the hearing by the Chief Commissioner that on the showing made it was improbable that the line could carry on on lower rates.

11 GEORGE V, A. 1921

While it cannot be said that there was much, if anything new in the way of evidence as showing that lower rate basis was justifiable at the present on the line in question, the urgent submissions as to the effect of the rate increases has caused the matter to stand for further consideration. Further consideration, however, in view of the fact that no change for the better in the condition of the line in question has been shown as compared with the date when the original judgment was given simply emphasizes the fact that the increases allowed are still justifiable.

UNITED GRAIN GROWERS, LIMITED, WINNIPEG, MAN., *re* COMPENSATION FOR LOSS ON CAR OF GRAIN, CANADIAN NATIONAL RAILWAYS

This was a complaint of the United Grain Growers, Limited, of Winnipeg, Man., setting forth that the Canadian National Railways had refused compensation for loss occasioned by delivery to the Thunder Bay Elevator at Port Arthur instead of to Paterson's Elevator, as directed in connection with car C.N. 44458, grain ex Deepdale, December 5, 1918, consigned to the United Grain Growers, Limited, Port Arthur, car of C.N.R. Terminal Elevator.

The complainants claimed that they suffered a loss of 6 cents per bushel on 1,083 bushels, total \$64.98. The following were the points on which their contention turned:—

(1) It is alleged that the railway company did not carry out instructions for placing cars and that it should, therefore, be held responsible and pay for its mistakes, as it is unfair that the farmer should be the one to suffer for the railway's negligence.

(2) It is contended that section 8 of the Grain Bill of Lading is not a defence for the railway on the facts herein involved.

(3) It is alleged that the railway company received the necessary switching instructions in ample time, but through the railway's error caused by its own "culpable negligence," delivered the cars otherwise than ordered by the applicant.

(4) It is contended that instead of the movement concerned being a diversion it really came under the switching arrangement.

(5) Application is made that instruction be issued to the Canadian Northern Railway to refund the amount involved.

(6) It is stated that if the Board has no power to direct such a refund by the railway then it is asked that the Board should rule whether or not the matter should have been properly classed as a diversion or a switching arrangement.

The railway company's statement set forth its contention as to legal obligations. It was held that the Board had no power under the Railway Act, to direct refunds, and that the application as presented was, in effect, one asking for a ruling that the railway company had been negligent; that was to say, the Board was being asked to pass upon the liability of the railway. It was further noted that as had frequently been pointed out, the powers of the Board while very general in their scope, must be dealt with as found within the four corners of the Railway Act, and it has also been pointed out in many rulings of the Board, that no jurisdiction is given it to deal with loss and damage claims. It was further pointed out that the Board has no authority to pass upon the question of liability either as bearing upon the matter of loss or damage or as bearing upon a bare statement of liability which may or may not be used as a basis for further action; that the remedy where the matter of loss or damage is concerned, must, if the parties are unable to satisfactorily adjust it, be sought by action in a court of competent jurisdiction. Consequently, the Board had no power to grant the relief asked for.

The facts are fully set out in the judgment of Assistant Chief Commissioner McLean, dated January 12, 1920, concurred in by Chief Commissioner Carvell and Mr. Commissioner Rutherford. 26, Can. Ry. Cas., 26.

## SESSIONAL PAPER No. 20c

GRAND RIVER RAILWAY COMPANY. DIVERSION LINE, TOWNSHIP OF WATERLOO AND CITY OF KITCHENER, ONT.

This was an application of the Grand Trunk Railway Company for approval of a location plan filed with this Board, the object being to divert the location of a portion of their railway through the city of Kitchener, and was heard by the Board at Hamilton on the 29th day of October last, at which the city of Kitchener and the Hydro-Electric Commission of Ontario were represented by counsel as well as the applicants.

It appeared that the applicant company was the successor to the Berlin, Waterloo and Lake Huron Company, which was an amalgamation of two other companies created by legislation of the province of Ontario, and which by the provisions of C. 85 of the Statutes of Canada, 1919, became entirely under the jurisdiction of this Board, and that the Board was the only tribunal having the authority to approve or dismiss the application.

At the hearing of the application, it appeared that the opposition came from the Hydro-Electric Commission, rather than from the city of Kitchener, the contention being that the Hydro-Electric Commission had a prior location by reason of a general scheme entered into as far back as 1916 for building an electric railway from Toronto to London; that the Hydro-Electric Commission by reason of this general scheme, contend that they had a prior location over Cedar Grove avenue, which instead of running along the general line north of the Grand Trunk, runs directly from the Grand Trunk north to King street.

The facts are fully set out in the judgment of Chief Commissioner Carvell, dated January 17, 1920, concurred in by Mr. Commissioner Boyce, holding that it was unnecessary to enter into the question at present as to what amounts to priority in location, and that the Hydro-Electric Commission had done nothing to prepare the plan referred to, whereas the applicant company actually had on the ground, the rails and ties, and was awaiting permission of the Board to commence construction, and that, therefore, the application should be granted subject to all the rights which the city of Kitchener possessed as to protection of Cedar Grove avenue crossing, as well as all other public streets, which the right of way should cross in completing proposed diversion.

CONSOLIDATED GAS, ELECTRIC LIGHT AND POWER COMPANY OF BALTIMORE, MD., *re* RATES ON BOG IRON ORE.

*Judgment of Assistant Chief Commissioner McLean, dated January 19, 1920. Concurred in by Deputy Chief Commissioner Nantel and Commissioners Goodere and Rutherford. 26. Can. Ry. Cas., 11.*

Application was made in the following terms:—

“The Consolidated Gas, Electric Light and Power Company of Baltimore, State of Maryland, United States of America, hereby applies to the Board for an order and reparation under sections 317-318 of the Railway Act in conformity with the facts hereinafter set forth.

“The complaint of the above named complainant respectfully shows:—

“1. THAT the Consolidated Gas, Electric Light and Power Company of Baltimore is a corporation incorporated under the laws of the State of Maryland, United States of America, and said corporation is engaged in the manufacture, distribution and sale of gas and electricity for illuminating, power and heating purposes.

"2. THAT the defendants above named are common carriers engaged in the transportation of passengers and property, wholly by railroad, between points in the Dominion of Canada and points in the United States of America.

"3. THAT the above named complainant uses approximately six thousand tons of bog iron ore annually in connection with the purification of gas, and that for the past two years said ore has been obtained from Point du Lac, province of Quebec, Dominion of Canada.

"4. THAT pursuant to complainant's application, the Canadian Pacific Railway Company, connecting lines concurring, published, effective February 4, 1918, in Supplement number fifteen, Canadian Pacific Railway Company tariff E. 2946, C.R.C. E 3281, I.C.C. E. 1939, commodity rate of 20 cents per 100 pounds applying on bog iron ore, in carloads, minimum weight 60,000 pounds, from Three Rivers, province of Quebec, Dominion of Canada, to Baltimore, State of Maryland, United States of America, for routing via Canadian Pacific Railway Company to Prescott, Ontario, thence via Canadian Pacific Car and Passenger Transfer Company to Ogdensburg, New York, thence via New York Central Railroad to Newberry Junction, Pennsylvania, thence via Baltimore and Ohio Railroad to Baltimore, Maryland. By virtue of the intermediate clause in the tariff said rate was applicable on bog iron ore from Point du Lac, Quebec, to Baltimore, Maryland. Said rate was re-published in Canadian Pacific Railway Company tariff E 3183, C.R.C. E 3495, I.C.C. E 2028 applicable on bog iron ore from Red Hill, Quebec, to Baltimore, Maryland, applying via the same route subject to the intermediate clause in the tariff permitting application of said rate on bog iron ore from Three Rivers and Point du Lac, Quebec, to Baltimore, Maryland. Last named tariff is still in effect.

"5. THAT, effective June 25, 1918, the Board of Railway Commissioners for Canada, by Special Permission Number 76, authorized Canadian railroads to increase freight rates from points in the Dominion of Canada to points in the United States to the same extent as those in the reverse direction ordered by the McAdoo Award known as the United States Railroad Administration General Order Number 28. Said orders provided a specific increase of 30 cents per net ton on iron ore. Rates on other commodities not specifically provided for were increased 25 per centum.

"6. THAT notwithstanding the fact that the said orders provided a specific increase of 30 cents per net ton on iron ores, the defendants did not apply such increase of 30 cents per net ton on bog iron ore, but illegally and unjustly have applied the general increase of 25 per centum, thereby making the present rate 25 cents per 100 pounds from Red Hill, Quebec, to Baltimore, Maryland, instead of 21½ cents per 100 pounds, as authorized by the said United States General Order Number 28 and Canadian Special Permission Number 76. Said increase of 25 per centum was published in Special Supplement Number 1 to Canadian Pacific Railway Company's Tariff E 3183, C.R.C. E 3495 I.C.C. E 2028.

"7. THAT the defendants have alleged as an excuse for their said illegal act the pretension that bog iron ore is not an iron ore and that it is not used as iron ore.

"8. THAT, in fact, bog iron ore is an iron ore contemplated in the increase of rates on iron ores provided for by the aforementioned Special Permission Number 76 and General Order Number 28, wherein iron ores are referred to in the plural.

"9. THAT bog iron ore is a variety of iron ore called limonite and limonite is the commonest form of iron ore. (See Geological Survey of Canada, 1909, page 94; Butler's Hand Book of Minerals, page 102; Proceedings of the Canadian Mining Institution, 1912, at page 241).

## SESSIONAL PAPER No. 20c

"10. THAT the ultimate use to which a product is put is not a matter which would justify the carrier in making a tariff contrary to the order of the Board.

"11. THAT the carrier has no interest in the uses to which commodities transported by it shall be put in order to enjoy a transportation rate.

"12. THAT since June 25, 1918, 14,203,986 pounds of bog iron ore have been shipped to complainant from Point du Lac, Quebec, on which complainant has been compelled to pay, and has paid under protest, freight charges, based on the rate of 25 cents per 100 pounds, and by reason of the application of the said rate of 25 cents per 100 pounds instead of the rate of 21½ cents per 100 pounds, complainant has suffered loss and damage to the extent of \$4,971.39.

"13. That complainant will in future require further large shipments of bog iron ore from Point du Lac and other points in the province of Quebec.

"14. That by reason of the facts hereinabove alleged, complainant has been subjected to the payment of rates for transportation which were when exacted, and still are, unjustly discriminatory in violation of Sections 317-318 of the Canadian Railway Act.

"Wherefore complainant prays that an Order do issue restraining the defendants from exacting the said rate of 25 cents per 100 pounds on bog iron ore from Point du Lac, Quebec, and other points to which the said rate now applies, to Baltimore, Maryland, and requiring them to substitute therefor the legal and authorized rate of 21½ cents per 100 pounds for the said commodity between the said points."

At the hearing, counsel for the applicant said the application was for an interpretation of the McAdoo Order on bog iron ore. It was set out that the Board's Special Permission No. 76 made provision that the order was to be reciprocal. The contention of the applicant was that his commodity came under the list of commodities enumerated in the McAdoo Order. It was pointed out that on page 6, section 2, of that order, it was provided that certain articles should be increased by the amount set opposite each. Reference was made to the fact that there was provision for 30 cents per net ton of 2,000 pounds on iron ores. It was set out that bog iron ore shipped from points near Three Rivers to Baltimore was concerned in the present application. The contention was made that this commodity should have been included under iron ores, thus being subject to an increase of 30 cents per net ton, while as a matter of fact it had been put under the general increase of 25 per cent, which had the effect of increasing the rate from 20 cents per 100 pounds to 25 cents.

The contention of the railway was that bog iron ore was carried as a special item entirely distinct from ordinary iron ore.

The question was raised as to the bog iron ore being used for different purposes than those arising in connection with iron ores as ordinarily referred to. The railway pointed out that there was a difference in use. The answer made by counsel for applicant was that the ultimate use to which the article is put is not a matter of concern to the railway.

Representation was made by counsel for the Canadian Pacific that the rate as charged was in accordance with the practice as approved and the interpretation as given by the United States Railroad Administration. The following excerpt from the evidence is pertinent:—

"Mr. FLINTOFT: When the matter arose in the summer of 1918, Mr. Macdonnell had our attorney at Washington communicate with the United States Railroad Administration, drawing attention to the fact that the rates on iron pyrites had been advanced the full 25 per cent, and that we had a deposit of bog iron ore on our rails that was moving to Baltimore, and asked him to

11 GEORGE V, A. 1921

enquire from the United States Railroad Administration as to whether it should be treated as an iron ore under the general item, or whether it should be treated specially and subjected to the 25 per cent advance. The reply was, having submitted the matter to the Railroad Administration, they advised him that his understanding of the rates was correct, and that has been confirmed by more recent communications with Mr. Campbell of the Eastern Freight Traffic Committee of the United States Railroad Administration, in reply to enquiries from Mr. Ransom who confirmed the understanding that this should be treated separately from the ordinary iron ore for smelting purposes."

It was further stated by counsel for the Canadian Pacific Railway Company that this railway was in the unfortunate situation that the United States Railroad Administration made the rates, and that this organization in interpreting its own action refused to join in anything less than a 25 per cent advance.

In the course of the hearing, at pp. 8406, 8407, the following remarks were made by the Chief Commissioner:—

"The CHIEF COMMISSIONER: . . . On the face of it, one would think this complaint ought to be given effect to. But the underlying and the real intent of the order was, as the complainant states, to adopt absolutely in Canada the advances the railways obtained, as nearly as might be, under the McAdoo Order.

"We have not before us tariffs one way or the other which would show whether Mr. McAdoo, in interpreting his own order (and he is the man who should interpret it) treats bog iron ore in the same way as ordinary iron ore, or whether he thinks the definition "bog" as against ordinary iron is such a distinction as should remove it from the iron ore clauses or not. Apparently bog iron has taken a higher classification than ordinary iron. On the other hand, there are lots of ores—and it well may be that the use of the word "iron" by Mr. McAdoo in his order was for the purpose of covering all iron ore movements, never mind what their classification might be, whether pyrites, bog iron, oxide of iron or anything else.

"If this case turns entirely upon the question of the American tariffs, as no tariff has been filed here, the Board will have to find out for itself what tariffs have been filed in American territory.

Apart from such action on the part of the American authorities, I would have said the complaint is well founded."

Since the hearing, written submissions have been made by the parties bearing on the interpretation of the provisions of the McAdoo Order as affecting the commodity in question. As showing the contradictory nature of what has been submitted, reference may be made to the following extract from a communication from applicant's solicitors:—

"After exhaustive inquiry, we have been unable to find any American decision on the point raised at the argument.

"We are instructed that Mr. Williams, the assistant secretary of the Eastern Traffic Committee of New York, advised the manager of the Consolidated Company's Traffic Department that the committee was of the opinion that the Consolidated Company's contention was sound and that bog iron ore should only be subjected to the 30 cents per ton increase but it was the practice of the Committee to follow the decision of the Canadian authorities on traffic originating in Canada."

## SESSIONAL PAPER No. 20c

Apparently there has been some misunderstanding as to the position taken by the Mr. Williams referred to in the preceding extract, for the following letter is filed with the Board:—

## CANADIAN FREIGHT ASSOCIATION

MONTREAL, QUE., August 7, 1918.

File No. 1128.

Mr. H. E. MACDONNELL, A.F.T.M.,  
C.P.R., Montreal

DEAR SIR:—

*Bog Iron Ore—Canada to U.S. Ports*

“In reference to our conversation at meeting on the 5th. Attached hereto you will find copy of letter from Mr. Ziegler, Traffic Manager of the Consolidated Gas, Electric Light and Power Company of Baltimore, dated July 23, addressed to Mr. Campbell of the Eastern Freight Traffic Committee. For your information I quote from Mr. Campbell's letter of July 28, in connection therewith:

“In letter of July 23, the statement that the writer had intimated that our Committee was convinced that their contentions were sound and well founded, is incorrect. No such intimation was made.”

Yours truly,

G. C. RANSOM,

*Chairman.*

“Further, as bearing on the contradictory statements submitted, the submission of the Canadian Pacific Railway Company is as follows:—

“I find that on the request of our Mr. H. E. Macdonnell, Mr. George F. Snyder, our Attorney at Washington, has made enquiry of the Railroad Administration as to its interpretation of General Order No. 28, and for the Board's information I enclose copies of the correspondence which has taken place.

“As to the nature of the commodity, the following extract from a letter from Mr. Ben Campbell, Chairman of the Eastern Freight Traffic Committee of the Federal Controlled Lines, New York, to Mr. Ransom of the Canadian Freight Association of July 2, 1919, will be of interest:

“Bog Iron Ore, although called an ore, is, in fact, *not an ore*. It is called an ore for the reason that it has a very slight available metallic content. It is principally obtained from the hills in Canada, from which it is shovelled up and is used almost exclusively as a gas purifying agent. It can, however, be refined to make a mineral paint. This paint is, however, of a very low grade.

From the above, it would appear that Bog Iron Ore does not compete with the ores which are reduced for their metallic content, and it would also appear that Bog Iron Ore is of somewhat lower value than ores which are used for their metallic content.

“That the United States Railroad Administration does make a distinction between iron ores used for smelting purposes and those used for other purposes is clear from the fact that the rate for iron pyrites, which is a well known iron ore, was increased 25 per cent and not 30 cents per ton. I enclose a copy of the tariff giving effect to this increase (I.C.C., N.Y.C. No. 9440) and of the cancelled tariff (I.C.C., N.Y.C., No. 7023).

“Seeing that the United States Railroad Administration has given an interpretation of the Order confirming this company's attitude, the matter should now be beyond doubt.”

11 GEORGE V, A. 1921

The letter as above set out is in reply to and comment on a copy of the letter of the Secretary of the Interstate Commerce Commission, to which reference is made below.

Prior to the correspondence from the Canadian Pacific Railway Company, as above set out, the Board, with a view to obtaining exact information on the contentious question involved, under date of July 10, 1919, sent the following letter to the secretary of the Interstate Commerce Commission:—

“General Order No. 28 of the Director General, U.S.R.R. Administration, increased the rates on iron ores (note the plural) by 30 cents per net ton. Special Permission No. 76 of this commission followed authorizing the application of the increases of the McAdoo Order on international traffic in the reverse direction from Canada.

“Bog iron ore is shipped in considerable quantities from the province of Quebec to United States destinations, and the carriers on this side have given effect to their interpretation of the order by increasing the bog iron ore rates by 25 per cent, and complaint having been made, the contention is advanced by the carriers that the specific increase of 30 cents per ton was intended by the order to apply only to ores for smelting, the bog variety being used for other purposes.

“Will you be good enough to inform me whether the question has come before your Commission, or has arisen in another way, and, if so, what decision has been made? Will you also inform me whether bog iron ore rates between points in the United States, filed with your Commission, carry the general advance of 25 per cent, or the specific advance of 30 cents per net ton? The Board's information is that bog iron ore deposits are being worked in your country, and understands that the material moves particularly from some of the southern States.”

A reply was duly received, the material points of which are as follows:—

(a) That as the question involved an interpretation of an order of the Director General, it would be more appropriate for the Railroad Administration to interpret the order, at least as a primary matter.

(b) That, generally speaking, the tariffs published by carriers in the United States do not specifically name rates on bog iron.

(c) The Mineral Research section of the Department of the Interior advises that bog iron is properly classified as brown ore, commonly known as limonite.

(d) It was stated that advice was given to the commission by a member of the Traffic Section of the Railroad Administration that it was not aware of any tariffs which limited the increase of 30 cents per ton on iron ore to ores for smelting purposes only, and that, in terms of this information, the rates on iron ore were apparently increased by Order No. 28 to 30 cents per ton, without regard to the use of the ore.

Under date of August 23, 1919, the Board received the following letter from applicant's solicitors:—

“With further reference to the above matter, we are instructed that the United States Railroad Administration follows the decision of the Canadian authorities in applying rates on shipments to points in the United States, which originate in Canada. They will therefore apply either the general increase of 25 per cent or the specific increase of 30 cents per ton to the rate on bog iron ore, according to the decision of the Canadian authorities. The Canadian Freight Association states that it is not prepared to take any action in the matter pending the disposition of it by the Board.

## SESSIONAL PAPER No. 20c

"The writer understood at the hearing that the Board would issue the order prayed for, i.e., that bog iron ore be subjected to the rate increase on other iron ore, which is 30 cents per net ton unless the United States Railroad Administration had previously decided otherwise."

The understanding of the writer, as set out, that the rate was to be 30 cents per net ton, unless the United States Railroad Administration had previously decided otherwise, was not in strict accordance with the discussion which took place. By reference to the interim judgment, set out in an earlier connection, the matter stood until the Board was satisfied as to what had in fact been the arrangement adopted under the United States tariffs on the same article.

In reply to this the applicant's solicitors were advised under date of September 11, 1919, as follows:—

"Referring to your letter of the 27th August, I am directed to state that at the hearing of this matter on the 8th of July last it was pointed out by the Chief Commissioner that there was involved the question of tariff practice by the United States Railroad Administration, and the construction by that administration of the question whether bog iron ore was properly given the same rate as iron ores or whether it was properly placed under another rate; and it was pointed out that it would be necessary to obtain information on this point. The Board took the matter up with the United States rate authorities, but the information so far received is not conclusive. Representations are before the Board both from the railway and the applicant as to the position taken by the United States Railroad Administration in the matter. The representations so filed are contradictory; and the Board is endeavouring to obtain a final and definite statement as to the practice and construction. The matter will be dealt with as soon as this is received."

In reply to a letter to the Director of the Division of Traffic of the United States Railroad Administration, setting out the same material as was contained in the letter to the Secretary of the Interstate Commerce Commission, the Board was advised, under date of September 26, by Mr. Chambers, the Director of the Division of Traffic of the Railroad Administration, as follows:—

"I beg to advise that it was not our intent when issuing General Order 28 to apply the flat increase of 30 cents per ton to mineral products other than the ores commonly used by furnaces for making iron.

"We have never made any definite ruling on this subject and are without information as to how the rates on bog iron ore or bog ore were advanced, but believe it is described in most of the tariffs as bog ore and that the rates were advanced 25 per cent.

Under date of October 6, applicant's solicitors asked for a resume of the contentions of the Canadian Pacific as to the position taken by the United States Railroad Administration in the matter. This was supplied.

Supplementary matter was submitted by the applicant's solicitors under date of November 12, 1919.

As bearing on the definition of bog iron ore, a letter was submitted from the Acting Director of the United States Geological Survey, the material portion of which is as follows:—

"Bog ore is a form of brown iron ore, or hydrous iron oxide, and in the canvass of the Geological Survey for statistics of iron ore no attempt is made to secure data relating to bog ore except by the general class of brown ore.

11 GEORGE V, A. 1921

It is, therefore, not possible to state the extent of the mining and use of bog iron ore. However, if it is found sufficiently pure it is usable as a source of iron.

"You are probably aware that a porous variety of limonite (brown iron ore, including bog ore) is used in the purification of illuminating gas."

As to the use of bog iron ore in smelting, a letter was submitted from Penniman & Browne, Analytical and Consulting Chemists, Baltimore, which, after giving some information as to iron pyrites, sets out the following paragraph regarding bog iron ore:—

"Bog iron ore is the material used in charcoal furnaces on account of its freedom from objectionable impurities. In large operations, it is not used on account of the expense and difficulty in obtaining it in sufficient quantity and because it is too soft to stand the heavy burden of the modern large furnace using coke."

There were also submitted copies of various schedules of tariffs filed with the Interstate Commerce Commission, these being certified by the Secretary of the Interstate Commerce Commission, under the seal of said commission, to be true and correct extracts from the schedules.

In summary, these may be said to cover information as to five tariffs of the Louisville and Nashville, covering rates on brown ore on intrastate movements in Alabama. The originating points shown are Champion, Ida, Jenifer, Mountain Crook, Mount Pinson, and Fort Deposit; the destination points are Alabama City, Attalla, Birmingham, North Birmingham, and Thomas.

Extracts from the Southern Railway System mineral-ore tariffs are filed. The rates in question are both intrastate and interstate. The tariffs quote rates on iron ore, but I find no reference in the extracts as given to brown ore. Extracts from the tariffs of the Alabama Great Southern Railroad quoting rates on intrastate movements in Alabama are also filed. Here again, while rates on iron ore are given, I find no reference to brown ore.

There are also filed certain schedules which are signed by the Secretary of the Alabama Public Service Commission and certified under the seal of that commission as showing the C.L. rates in Alabama as specified in the exhibits. Rates on brown ore are shown between the same originating and destination points as are set out in connection with the Louisville and Nashville points above.

Details of the tariff authorities concerned not having been supplied to the Canadian Pacific Railway Company by the applicant's solicitors, request was made to the Board by the Canadian Pacific Railway Company to have these furnished. This was done, the Board under date of November 28, 1919, writing as follows:—

"I have yours of the 19th instant and have made a copy of the extracts from the tariffs certified by the secretary, Interstate Commerce Commission, and the secretary of the Alabama Public Service Commission, which I enclose herewith, and which give the tariff authorities for the statement that bog iron ore is being listed in the tariffs of the railroads operating in the district of the United States where bog iron ore is mined as brown ore."

Under date of January 9, 1920, the Canadian Pacific Railway Company replied as follows:—

"Referring to yours of the 31st ultimo,

"I have now had the tariffs which you sent me checked over. Where iron ore is mentioned, there is, of course, nothing further to be said with regard to

## SESSIONAL PAPER No. 20c

the increase of 30 cents per ton, which, it is acknowledged, is the increase authorized on that commodity by the U.S.R.A. General Order No. 28.

"Wherever in these tariffs brown ore is mentioned, the increase is also 30 cents per ton, and the question is, therefore, whether this "brown ore" is the same as what we described as "bog iron ore" shipped from Point du Lac or Red Mill, Quebec, to Baltimore, Maryland. Our officials have enquired of the traffic officials of the Southern Railway at Birmingham, and are advised that the iron ore described as brown ore in these tariffs moving to Alabama, Tennessee and Kentucky smelting points is a smelting ore pure and simple and is not used for any other purpose, and the traffic officials of the Louisville and Nashville Railway state that no such commodity as bog ore is known in their territory. It is at the same time well known that bog iron ore from Point du Lac or Red Mill is shipped to various destinations in the United States, not for smelting purposes, but for purifying purposes, and in some cases both to United States points and to Canadian points for paint making purposes.

"As regards Mr. Mathewson's statement in paragraph 5 of his letter to you of the 12th November, that bog iron ore is used extensively for smelting purposes at Three Rivers among other places, our investigation shows that not one ton of Red Mill or Point du Lac ore is shipped to Three Rivers for smelting purposes, nor can we trace any such shipments having been made for years, our enquiries having gone back as far as twelve years ago.

"I wish to add that we have checked up shipments of crude bog iron ore moving to the United States points from January 1 to July 7 of this year, and find that, to the following points, earloads, as enumerated, have been shipped under the regular sixth class rates without our having received a complaint, which sixth class rates had been increased automatically 25 per cent under U.S.R.A. General Order No. 28:—

| To                             | No. of Cars. |
|--------------------------------|--------------|
| Philadelphia, Pa. . . . .      | 1            |
| Chester, Pa. . . . .           | 6            |
| Harbour Junction, R.I. . . . . | 3            |
| Westfield, Mass. . . . .       | 1            |
| Soo, Mich. . . . .             | 1            |
| Augusta, Me. . . . .           | 1            |
| Weber, Ill. . . . .            | 2            |
| DeKalb, Ill. . . . .           | 1            |
| Washington, D.C. . . . .       | 3            |
| Milwaukee, Wis. . . . .        | 1            |

During the same period ten cars had been shipped to Baltimore, Md.

"Furthermore, in order to stimulate shipments of bog ore to United States points for purifying purposes, we, in some cases, applied to our American connections to be allowed to adopt on this class of business 83.33 per cent of the sixth class rate, and this they consented to in the case of shipments to Baltimore and five other points. (See Item 265 C.P.R. Tariff E-3183, C.R.C. 3495, page 28). It is, therefore, quite obvious that in order to maintain the relationship the present rate should be 83.33 per cent of the present sixth class, which naturally and automatically was advanced the full 25 per cent according to General Order No. 28. If, at the present time, an application were made for a reduced rate for any reason whatever, our American connections would not consent to anything lower than 83.33 per cent of the present sixth class rate.

11 GEORGE V, A. 1921

"In conclusion, I would repeat that we cannot find any bog iron ore moving between points in the United States under commodity rates. If there is a movement between such points, it would be only under the proper class rates advanced 25 per cent.

"As I have already stated to the Board, the bog iron ore from Point du Lac and Red Mill is used for clarifying illuminating gas and may be used for paint-making purposes, and is not a smelting ore at all.

"I submit that this is really the controlling consideration, and that on this ground the complaint should be dismissed.

Summarizing the material which has been set out at length, the following conclusions are available:—

- (1) Apparently bog iron ore is not separately listed.
- (2) Scientific authorities regard brown ore as being an inclusive term covering bog iron ore and other iron ores not specified.
- (3) There is nothing before the Board showing conclusively that bog iron ore has actually moved under the brown ore rate.
- (4) Reference has been made to the bog iron ore as moving in the southern portions of the United States. The Southern Classification has no reference either to brown ore or to bog iron ore.
- (5) The informal understanding of the Secretary of the Interstate Commerce Commission, as already referred to, is that apparently the increase of 30 cents per ton was not dependent upon the uses of the ore.
- (6) On the other hand, the general opinion of the Traffic Director of the United States Railroad Administration is that it was not the intention to have the increase of 30 cents per ton apply on mineral products other than to ores commonly used by furnaces for making iron; and there is, further, an expression of understanding that the rates on bog ore were advanced 25 per cent.
- (7) The supplementary submissions of applicant's solicitors do not show that bog iron ore has moved or is moving in the United States on the brown ore rates.
- (8) As set out in the letter of the Canadian Pacific, the responsible traffic officials of the railroads concerned set out, in the one case, that the brown ore referred to is a smelting ore, pure and simple, and is not used for any other purpose (in this connection the statement of Penniman & Browne, already referred to, may be borne in mind); and, in the other case, that no such commodity as bog ore is known in their territory.

In accordance with the position set out in the interim judgment, a full endeavour has been made to ascertain the intention as embodied in tariffs. The Board has received much information which is so contradictory that it is not possible to form a conclusion as to what the real intention was. The obtaining of further written submissions would, apparently, only add to the mass of contradictory statements which has accumulated.

In a matter of international rates, the jurisdiction of the Board begins at the international boundary on the movement into Canada and ends there on the movement out of Canada. This is a well-established proposition.

*Continental, Prairie and Winnipeg Oil Cos., v. Canadian Pacific Ry. Co., et al,*  
13 *Can. Ry. Cas.*, 156, at p. 161.

*Essex Terminal Ry. Co. v. G.T., M.C., Wabash & New York Central Ry. Cos.,*  
22 *Can. Ry. Cas.*, 301, at p. 305.

At the same time, "as a matter of practice, the Board in the past has dealt with international joint tariffs having regard to the outward movement only, and, speaking generally, has not interfered in any way with any tariff properly filed under American

## SESSIONAL PAPER No. 20c

practice applying to the joint movement into Canada. The result is that a situation which otherwise might have presented difficulties has worked out along satisfactory lines and without friction." *Essex Terminal Ry. Co., etc., ut supra, p. 304.*

The Interstate Commerce Commission in *I. & S. Docket No. 1155, Heated Car Service Regulations, 50 I.C.C., 620*, made reference in the examiner's report as to the United States jurisdiction terminating at the international boundary, and he so held in the matter involved. Reference may be made to *Black Horse Tobacco v. I.C.R. Co., 17 I.C.C. 588; Ernergy & Co. v. B. & M.R.R., 38 I.C.C., 636*. In dealing with the question of international rate practice, Commissioner Harlan, who wrote the judgment which was accepted by the commission, said at p. 622:—

"For some years joint through rates from Canadian points to interior domestic points have been regarded as being within the general control of the Canadian Commission, while joint rates from domestic points to interior Canadian points are left under the general control of this Commission. The origin and scope of this understanding between the two commissions is explained in "*International Paper Co. v. D. & H. Co., 33 I.C.C., 270*. It is also referred to in *Rates on High Explosives to G.T. Ry. System Stations, 33 I.C.C., 567*, and was followed in *Aetna Powder Co. v. Wabash R.R. Co., 39 I.C.C., 199*. It has proved to be an efficient working arrangement and will not be departed from by this commission on light grounds, although we have felt it necessary to point out that our jurisdiction extends to the service of our domestic lines performed within the United States and to the charges therefor, and that where circumstances seem to make such a course necessary we would require the domestic carrier to withdraw from participation in joint through rates to and from Canadian interior points and to establish a local or proportional rate to and from the border."

It will be noted that while in agreeing in the practice, the Interstate Commerce Commission in no way recedes from the position that as a matter of jurisdiction its power to regulate the United States' portion of the rate is absolute; and it has, in fact, from time to time so acted notwithstanding the informal *modus vivendi* above referred to.

The distance from Red Mill, where the shipment originates, to Baltimore is 651 miles. The movement is over the Canadian Pacific and three American lines—the N.Y.C., P. & R., and B. & C. The haul on the Canadian Pacific is 34.5 per cent of the total mileage involved.

The jurisdiction of the Interstate Commerce Commission over the haul within the United States is undoubted. What is involved is the determination of the meaning and application of a United States tariff basis, which, as a matter of reciprocity, has been made applicable on the movement from Canada to the United States. The preponderance of United States mileage is such, on the movement in question, that the United States railways interested in two-thirds of the mileage movement are concerned in the question of what is the proper scope and intent of the tariff basis concerned.

I am of the opinion that the applicants should be referred to the United States jurisdiction for their appropriate finding and remedy within that jurisdiction. Thereafter, the matter as affecting the Canadian Pacific, may, if any further action by way of finding any remedy is necessary, be developed before this Board on written submissions. If such further application should be made, the submissions, if any, so made, will be considered in connection with the existing record.

CANADIAN MANUFACTURERS' ASSOCIATION RE AVERAGE DEMURRAGE AS EXTENSION TO CANADIAN  
CAR SERVICE RULES

*Judgment of Assistant Chief Commissioner McLean, dated January 26, 1920. Con-  
curred in by Chief Commissioner Carrell, and Commissioners Boyce, Goodeve  
and Rutherford. 25, Can. Ry. Cas., 386.*

I

Application is made for average demurrage. More specifically it is set out that the demurrage on all cars held for loading or unloading shall be computed on the basis of the average time of detention to all cars released during each calendar month. The method of computation outlined is that a credit of one day shall be allowed for each car released within the first twenty-four hours of free time. A debit of one day shall be charged for each twenty-four hours, or fraction thereof, that a car is detained beyond the first forty-eight hours of free time. Not more than one day's credit is to be allowed on any one car, and in no case is more than five days' credit to be applied in cancellation of debits accruing on any one car, thus making a maximum of seven days, including Sundays and holidays, that any car may be held free.

At the end of the calendar month, the total number of days credited will be deducted from the total number of days debited, and the demurrage charge per day charged on the remainder. If the credits equal or exceed the debits, no charge is to be made for the detention of the cars, and no payment is to be made to the consignor or consignee in respect of such excess of credits. Credits in excess of debits of any one month are not to be considered in computing the average detention for another month.

Those taking advantage of the average plan are to forego the advantages of the weather and of the bunching rules.

A consignor or consignee taking advantage of the average plan may be required to give sufficient security to the carrier for the payment of balances due by him at the end of each month.

The question was also gone into in connection with the amendment of the Canadian Car Demurrage Rules which was made on July 28, 1917, effective by order on August 20, 1917. In the decision in that case, reference was made to the various submissions bearing upon average demurrage, and it was stated in the judgment that the Board would endeavour to ascertain whether average demurrage had worked a real benefit in places where it had been tried, it being at the same time stated that from the best information had at the previous hearings the contrary was the case.

*In re Car Demurrage Rules, 24 Can. Ry. Cas., 180, at p. 196*

Under date of June 16, 1919, on direction, a letter was issued by the Board setting out that in view of the many changes which have taken place in railway matters since the judgment on the Demurrage Rules, as above referred to, had issued, the Board was prepared to arrange for a hearing, or hearings, if the parties interested desired to add to the record in the case.

The material received was concerned mostly with opinions on the principle involved, and, in general, the opinion was expressed that the matter might stand for decision on what had been submitted. In general, it does not appear that there is such additional material evidence available in regard to the workings of the system as would justify a further hearing.

The matter as presented may be subdivided into the following headings:—

(a) Whether when the consignor or consignee unloads within the free time allowed by the Demurrage Rules, he has a *right* to apply the difference between the

## SESSIONAL PAPER No. 20c

free time allowed and the time actually taken as a credit on another car which is not loaded or unloaded within the free time.

(b) The advantage of such proposed system of credits as an incentive to quicker loading or unloading.

(c) The general effect on car movements.

## II

As bearing on the question of *right*, which matter, it appears to me is fundamental, some detail references to the notes of hearing are necessary; and it may be pointed out in this connection that reference is also made to earlier applications of the Canadian Retail Coal Association of London, Ont., and the Wallaceburg Sugar Company.

In the Wallaceburg Sugar Company's Case, application was made as regards a particular commodity; in the case of the Canadian Retail Coal Association, the application was also as to particular commodities, coal and coke.

The application of the Wallaceburg Sugar Company was not limited by the use of the adjective "optional." The application of the Canadian Retail Coal Association was. So is the present application as developed; but it does not appear that the adjective "optional" makes any vital difference.

In the application of the Canadian Retail Coal Association, Mr. Hay stated, at p. 2922, volume 124;—

" . . . when they allow us 72 hours for unloading a car of coal they must of necessity in order to arrive at a proper business basis have figured on the detention of that car. That, I think, is a reasonable and fair proposition. Now then, when that car is placed on our siding we have 72 hours to unload it. We will probably unload the car within the first 24 hours. . . . Inasmuch as we have already paid the railway company for the detention of that car for two days they have not given us any allowance for that dollar we have been fined on the other car" (that is the car held over the 72-hour period), "and that should stand over against the time that is to our credit."

In the same case, at p. 2959, Mr. Hay said: "We were applying for a principle we thing fair and that should be carried out."

At the hearing in Ottawa, the following discussion took place as bearing on the point in question, volume 179, pp. 4576-4578:—

"Commissioner McLEAN: Is it your position, Mr. Walsh, that a shipper has a right to hold a car for the free time?"

"Mr. WALSH: Absolutely not. I have not held that opinion."

"Commissioner McLEAN: Then your position would be that it is the reasonable maximum time allowed for unloading?"
